PART V.

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of His Excellency the Governor General on the 14th May 1891, and is hereby promulgated for general information:

ACT NO. XVI OF 1891.

An Act to declare certain Courts in British India to be Colonial Courts of Admiralty.

WHEREAS it is provided by the Colonial Courts of Admiralty Act, 1890, that the Legislature of a British possession may by any colonial law declare any Court of unlimited civil jurisdiction in that possession to be a Colonial Court of Admiralty; 53 & 54 Vict., c. 27

And whereas it is expedient, in pursuance of that provision, to declare certain Courts in British India to be Colonial Courts of Admiralty;

It is hereby enacted as follows:

Title and commencement.

1. (1) This Act may be called the Colonial Courts of Admiralty (India) Act, 1891; and

(2) It shall come into effect,—

(a) if Her Majesty's pleasure thereon has been signified, by notification in the *Gazette of India*, on or before the first day of July 1891 then on that day; or

(b) if Her Majesty's pleasure thereon has not been so signified on or before that day, then on the day on which Her Majesty's pleasure shall be signified by such a notification as aforesaid.

Appointment of Colonial Courts of Admiralty.

2. The following Courts of unlimited civil jurisdiction are hereby declared to be Colonial Courts of Admiralty, namely:

(1) the High Court of Judicature at Fort William in Bengal;

(2) the High Court of Judicature at Madras;

(3) the High Court of Judicature at Bombay;

(4) the Court of the Recorder of Rangoon;

(5) the Court of the Resident at Aden; and

(6) the District Court of Karachi.

Construction of Indian Acts referring to Admiralty and Vice-Admiralty Courts.

3. The expressions "Court having Admiralty jurisdiction" and "Admiralty Court" and the expression "Admiralty or Vice-Admiralty cause," and other expressions referring to Admiralty or Vice-Admiralty Courts or causes, shall, wherever any such expression occurs in any enactment of the Governor General in Council, or of a Governor in Council or Lieutenant-Governor in Council, be deemed to include a Colonial Court of Admiralty and a Colonial Court of Admiralty cause, and to refer to a Colonial Court of Admiralty or a Colonial Court of Admiralty cause respectively.

Court-fees in suits in the Colonial Courts of Admiralty at Rangoon, Aden and Karachi.

4. Court-fees in suits instituted in the Colonial Court of Admiralty at Rangoon, Aden or Karachi shall, unless the jurisdiction of the Court is to be exercised in any matter relating to the slave-trade, be leviable in accordance with the provisions of Chapter III of the Court-fees Act, 1870. VII of 1870.

Repeal.

5. The enactments mentioned in the schedule are hereby repealed to the extent specified in the third column thereof.

EASTERN ARCHIPELAGO—BAWEAN ISLAND.

Position of shoals not shown on the Admiralty charts.

THE British Admiralty has given notice (No. 181 of 1891) that numerous outlying shoals, not shown on the Admiralty charts, exist eastward and southward of Bawean (Bavean) island, those farthest seaward being as follows :—

1. A shoal (*Van Vurden shoal*), with a least depth of 1½ fathoms, lies with Mantegi point, the north extreme of Bawean island, bearing W. ¼ N., distant 9$\frac{8}{10}$ miles.
   Approximate position, lat. 5° 44′ S., long. 112° 51′ E.
2. A shoal (*Bilian shoal*), with a least depth of 3½ fathoms, lies with cape Alang, the south extreme of Bawean island, bearing W. ¼ S., distant 15½ miles.
   Approximate position, lat. 5° 52′ S., long. 112° 53′ E.
3. A shoal (*Tangkal Timor shoal*), with a least depth of 6 fathoms, lies with cape Alang, bearing W. by N. ¾ N., distant 7 miles.
   Approximate position, lat. 5° 55′ S., long. 112° 44′ E.
4. A shoal (*Tongkat shoal*), with a least depth of 2½ fathoms, lies with cape Alang bearing N. E. by E. ½ E., distant 5 miles.

CHINA SEA—BORNEO, NORTH-WEST COAST.

Dangerous shoal reported north-east of North Furious shoals.

THE British Admiralty has given notice (No. 182 of 1891) that Mr. Andrews, commanding the American ship *Big Bonanza*, has reported that, when off the north-west coast of Borneo, in approximately lat. 7° 6′ N., long. 116° 24′ E., the ship, drawing 17 feet water, struck on a shoal lying about 7 miles north-eastward of North Furious shoals. After striking, soundings of 4, 5, 6, 7, 8, 9 and 10 fathoms were obtained as the ship drifted to the south-west. Discoloured water was seen extending a long distance to the north-east.

For some time previous to striking, 10 fathoms had been obtained. The wind was light previous to striking, and calm for about half an hour afterwards, and the current was estimated to set in a south-west direction about one knot an hour.

After striking, the following bearings were taken :—

Sampanmangio point (high part)	...	...	E. ¾ S.
Mount Kinabalu ...	...	...	S. by E., Sly.
Nob island, Mantanani islands	...	...	S. ½ W.

RED SEA, WESTERN SHORE—TRINKITAT HARBOUR.

Leading beacons on western shore.

WITH reference to Notice to Mariners No. 81, dated 27th April 1891, issued by this Office, the British Admiralty has given further notice (No. 188 of 1891) that the two temporary beacons on the western shore of Trinkitat harbour had been removed. Information has been received from Commander H. N. Dudding, H.M.S. *Dolphin*, dated 26th February 1891, that two beacons have again been erected on the western shore of Trinkitat harbour, which kept in line bearing S. W. by W., lead through the harbour entrance in not less than 24 feet water. These beacons consist of poles 35 feet high, placed 120 yards apart; the north-east beacon is surmounted by a diamond shaped cage, the south-west by a square cage. The north-east beacon is situated close to the shore with Ras Makdam bearing N.E. ⅝ N., and Observation spot S.E. ¼ E., distant 5¾ cables.

NOTE.—These beacons have been placed on the plan of Trinkitat harbour, with "Temporary" written against them, as there is no guarantee how long they will remain in position.

* Means of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last
The *cuticity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers
are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the
past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 23rd of May 1891.

Explanation.—..... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 26th May* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING SATURDAY, THE 23RD OF MAY 1891.

THE meteorological conditions in Bengal for the first three days of the week were unimportant. On the 17th the pressure changes were small, and pressure continued generally above the normal. Temperature was falling slowly, and was below the normal at the eastern stations, and above it over the western half of the province, and winds were generally south-easterly and easterly. Conditions still remained slightly disturbed, and local storms with rain continued to occur in South-West, East, and North Bengal, though elsewhere they were almost absent. On the 18th an increase of pressure of about a tenth of an inch had taken place in Assam, and pressure was rising in the east, north, and west of the province of Bengal, though it was falling in Central Bengal, showing that conditions were continuing rather disturbed; temperature on this day was rising generally by about 2° to 3°. Again, rather heavy rainfall was reported from Assam, but elsewhere the local storms with rain were rather less numerous. On the 19th the rise had extended over the whole province, the increase being largest in the southern and south-eastern districts, where pressure became largely in excess of the normal, the excess equalling a fifth of an inch in South-East Bengal and a tenth of an inch in the west of the province. Temperature changes on this day were variable, and fairly general rainfall usually accompanying local storms had occurred in most districts except Orissa and South Behar. On the evening of the 18th and morning of the 19th a very severe local storm had occurred at Jessore during which 2·2 inches of rain fell.

On Wednesday the 20th the meteorological changes became more important, inasmuch as in the south of the Bay the first burst of strong south-west monsoon winds commenced to take place. Indications were also shown in the wind directions along the South Madras coast as well as by the pressure changes which were taking place, that bad weather was generating in the extreme south of the Bay in front of this advance of the monsoon winds. The meteorological changes in Bengal on the 20th were generally small, but local storms with rain continued to occur over a considerable part of the province. On the morning of the 21st the indications of the formation of a storm or a stormy area in the south of the Bay had developed considerably, and the centre of the storm was probably in the latitude of Negapatam. The small storm then commenced to move in a north-north-westerly direction, and on the 22nd its centre was about in the latitude of Madras, and on the morning of the 23rd, or the last day of the week under review, it had again advanced and was in the latitude of Nellore. During the whole of this time strong monsoon winds were blowing in the south and to a certain extent in the east of the Bay, and the south-west monsoon winds had certainly advanced half way up the Bay, but the history of the further advance of this storm area belongs to the following week. During this advance the changes in Bengal were that pressure continued to fall till the 23rd, when there was a slight rise. Temperature rose rapidly and became very largely above the normal in many districts. Winds were strongly easterly and south-easterly in the east and north of the province, and were bringing up large amounts of moisture, so that towards the close of the week some very heavy falls of rain were reported, and in some cases falls exceeding five inches were registered. The number of local storms, however, occurring on the last two days of the week except in the east and north of the province was decidedly smaller than in the earlier part.

Pressure.—The storm in the Bay had not affected the pressure in Bengal to any extent up to the close of the week, and the mean pressure was in excess of the normal by small amounts in almost all districts. The largest excess pressures were registered in South-East Bengal, where they equalled about five to eight hundredths of an inch, and the smallest were in South Behar and Chutia Nagpur, where pressure was almost normal. Over the whole province the excess has averaged about three or four hundredths of an inch, but the amounts have been decidedly irregularly distributed.

Temperature.—Owing to the rather heavy rainfall the mean temperature for the week has been decidedly in defect of the normal, the average temperature for the whole of Bengal being 2° below the normal, while in Assam there has been a defect of 4·3°. The largest defects in Bengal have been in the east and north of the province, where they are between three and four degrees.

Rainfall.—Has been in excess of the normal in all districts except Orissa and Chutia Nagpur, but the excess in South Behar has been exceedingly small. The falls in these three districts have only averaged about half an inch. On the other hand, in South-West, East and North Bengal and in North Behar the falls have equalled about twice the normal. East Bengal has thus received during the week an average fall of five and-a-half inches, North Bengal one of four inches, South-West Bengal one of two and-a-half inches, and North Behar a fall of an inch. The falls have been particularly large in the districts of Chittagong Hill Tracts, Dacca, Tipperah, and Rungpore. At the following stations falls of ten inches and upwards have been reported during the week:—Comilla, Daudkandi, Rungpore, and Ulipore, while falls of about 7 inches and upwards have been received at Magoora, Rangamati, Noakhally, Dacca, Naraingunge, Brahmunberiah, Kishoregunge, Mymensingh, Sherepore, Dewangunge, Bhowanigunge, Bagdogra, and Buxa.

In Assam during the week Silchar has received 7·65 inches, Sibsagar 3·69 inches, and Dhubri 2·65 inches of rain.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 23rd of May 1891 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; t, thunder; ≤, lightning; p, passing temporary showers; d, drizzling rain.

In the weekly report from 12th to 18th April 1891 read "173" for "73" as the miles recorded on the 16th April 1891, and in the weekly report from 19th to 25th April 1891 read "156·6" for "156·5" as the maximum in sun of the 23rd April 1891.

A PEDLER,

For Meteorological Reporter to the Govt. of India.

METEOROLOGICAL OFFICE, GOVT. OF INDIA;
Calcutta, the 25th May 1891.

MEMORANDUM.

Weekly statistics of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 9th May 1891.

Births.

The total births registered during the week ending with Saturday, the 9th May 1891, in twenty-seven principal towns of Bengal, amounted to 436, and correspond to an annual rate of 21·1 per 1,000 of the aggregate population of those towns, which is 1,072,359. This rate is 4·4 higher than the average rate of the corresponding week of the past five years, and is also higher than the rate of the corresponding week of any of the past five years with which comparison is instituted, *vide* the figures below—

	1886.	1887.	1888.	1889.	1890.	Weekly average of five years 1886—90.	1891.

[Third Publication.]

The 19th May 1891.

No. 132*Marine.*—The following amended rules for the medical inpection of vessels at the Port of Calcutta have been made by the Lieutenant-Governor, and are hereby published for general information.

J. M. MCNEILE, *Col.*, R.E.,
Secretary to the Government of Bengal.

Rules for the Medical Inspection of Vessels at the Port of Calcutta.

Rule I.—The master of every in-coming vessel, on board of which there is either among the passengers or crew any case of cholera, small-pox, measles, or other epidemic disease common in India, or of diptheria, or scarlatina, or if two or more deaths from unknown or suspicious causes have occurred on the voyage, shall report such case or cases to the pilot immediately upon his going on board at the Sandheads, and the pilot shall hoist a signal, which shall be during the day flag R of the Commercial Code at the main, and during night two white lights, one over the other, at the fore, and the pilot in charge, in addition to hoisting the signal R at the main, is to telegraph from Saugor, or the nearest telegraph station, the name of the particular disease and number of cases on board, both to the Port Officer and to the Health Officer of the Port of Calcutta, using table 22 of the Pilot's Cypher Code.

Rule II.—The Port Officer on receiving information by telegraph from Saugor, or any telegraph station, that a vessel having small-pox on board has passed the station upwards, shall at once communicate the information to the Health Officer of the Town and the Deputy Commissioner of Police, with a view to obtain the services of vaccinators with a supply of lymph in sufficient time to commence the necessary vaccine operation immediately after the ship's arrival, and to obtain the assistance of the police for removing cases of small-pox on the ship's arrival to hospital.

Rule III.—The Deputy Commissioner of Police, as early as possible after receipt of this information, shall instruct the River Police Inspector to place himself in communication with the Health Officer of the Port to receive such instruction as that officer may consider to be necessary for the efficient operation of these rules, and for the removal of the sick to hospital.

Rule IV.—The Health Officer, as early as possible after the arrival of the vessel in port, shall inspect it, and more especially its sanitary condition, shall enquire into the circumstances attending the case or cases of the said disease, shall arrange for the conveyance of all persons suffering from such disease to a hospital, unless such person, if suffering from a disease other than small-pox, or his friends, can make adequate provision elsewhere, and shall also arrange for the disposal of the dead, if any, if the friends are not able to make suitable arrangements or are unwilling to carry them out.

Rule V.—Where the disease or diseases in question, other than small-pox, is or are limited to one or two cases, the vessel shall not be prohibited from taking up the usual place of anchorage in the port, nor shall the passengers be detained on board pending the inspection of the Health Officer; but the master of the vessel shall be held responsible that no passenger suspected of having such disease is allowed to depart before this inspection.

Rule VI.—Where cases other than small-pox have been more numerous than two, or when from their occurring on a pilgrim or emigrant ship, or for other special reasons, further precaution may be deemed advisable, the vessel shall anchor at Meteabrooj ghât, and none of the passengers shall be allowed to leave until the Health Officer has made his inspection.

Rule VII.—In case of small-pox (even on the occurrence of one case only) the vessel shall anchor at Meteabrooj ghât, and none of the passengers or crew shall be allowed to leave until the Health Officer of the Port has made his inspection and given permission. It shall be the duty of the Health Officer of the Port to vaccinate or have vaccinated all persons who appear to require this protection, and to arrange with the police for the removal to hospital of all affected persons after their bodies have been anointed with carbolised oil or other disinfectant.

Rule VIII.—Vessels coming under these last two rules shall be thoroughly cleansed and disinfected in the manner provided by the rules made under the Indian Ports Act, 1889.

The 22nd May 1891.

No. 2170.—In exercise of the powers conferred by sections nine, fifteen, seventeen, thirty-two, fifty-one, and fifty-six of the Indian Stamp Act, 1879, the Governor-General in Council is pleased to make the following rules in supersession of the rules promulgated by Notifications—

No. 1288, dated the 3rd March 1882.
„ 2955 „ 1st December 1882.
„ 1444 „ 16th March 1883.
„ 3515 „ 16th October 1885.
„ 434 „ 28th January 1886.
„ 590 „ 5th May 1886.
„ 1611 „ 25th June 1886.
„ 2727 „ 24th August 1886.
„ 5700 „ 26th October 1887.
„ 1662 „ 14th November 1890.
„ 5881 „ 19th December 1890.

CHAPTER I.—*Preliminary.*

1. These rules shall come into force throughout British India on the date of this Notification.

2. All words and expressions used in these rules and defined in the Indian Stamp Act, 1879, shall be deemed to have the meanings attached to them respectively by the said Act.

3. There shall be two kinds of stamps for indicating the payment of duty on instruments under the Indian Stamp Act, 1879, namely—

(*a*) Impressed stamps, including—

Impressed sheets,—that is to say, sheets of paper bearing the impression of stamps of different values engraved thereon, and sold to the public for use by them in accordance with these rules; and

Impressed labels, to be affixed and impressed by Government officers as directed in Chapter III of these rules.

(*b*) Adhesive stamps sold to the public for use by them in accordance with these rules.

CHAPTER II.—*Of Impressed Sheets.*

4. (*a*) Hundis, other than hundis which can be stamped with an adhesive stamp under section 10 of the said Act, shall be written as follows:—

(1) Hundis payable otherwise than on demand, but not more than one year after date or sight, and for amounts not exceeding Rs. 30,000 in individual value, on impressed sheets bearing the word "Hundi";

(2) Hundis exceeding Rs. 30,000 in individual value, and hundis payable at more than one year after date or sight, on paper supplied for sale by the Government, and to which labels have been affixed by one of the officers mentioned in rule 10 (*b*), or by the Superintendent of Stamps, Calcutta, and impressed by him in manner provided by rule 10.

(*b*) Every sheet of such stamped paper shall be of a size not less than $8\frac{5}{8} \times 5\frac{1}{8}$ inches, and no plain paper shall be joined to it.

(*c*) The provisions in rule 7 (*a*) as to the use of two or more sheets of stamped paper when a single stamp of the required value is not procurable apply also to hundi stamps used under this rule.

5. Promissory notes and bills-of-exchange shall, except as provided by section 10 of the said Act and by these rules, be written on plain impressed sheets or on impressed sheets bearing the word "Hundi."

6. All other instruments chargeable with duty may be written on impressed sheets (other than impressed sheets bearing the word "Hundi"), and, except as provided by section 10 of the said Act and by these rules, shall be so written.

7. (*a*) When two or more impressed sheets are used to make up the amount of duty chargeable in respect of any instrument, a portion of such instrument shall be written on each sheet so used.

(*b*) When a single sheet (other than an impressed sheet bearing the word "Hundi") is found insufficient to admit of the entire instrument being written on the side of the paper which bears the stamp, so much plain paper may be subjoined thereto as may be necessary for the complete writing of such instrument; provided that in every such case the side of the sheet which bears the stamp must be covered by a substantial part of the instrument before any part of the latter can be written on the plain paper joined to such sheet.

(*c*) When any instrument of transfer of shares in a company or association is written on an impressed sheet, and the value impressed thereon is subsequently (in consequence of

a rise in the market value of such shares) found to fall short of the amount of duty chargeable under article 60 (*a*), schedule I of the Act, one or more adhesive "Share Transfer Stamps" hereinafter mentioned may be used to make up the required amount.

8. The duty payable on any instrument chargeable with a duty of one anna may be denoted by a coloured impression marked on a skeleton form of such instrument by the Superintendent of Stamps at Calcutta, Bombay, Madras, Rangoon, or Lahore, or by the Commissioner of Stamps at Allahabad.

CHAPTER III.—*Of Impressed Labels.*

9. Impressed labels may be used for the following instruments and counterparts thereof, namely:—

(1) Administration-bonds;
(2) Affidavits;
(3) Appointments made in execution of a power;
(4) Articles of association of a company;
(5) Articles of clerkship;
(6) Bills-of-lading;
(7) Charter-parties;
(8) Declarations of trust;
(9) Instruments evidencing an agreement to secure the repayment of a loan made upon the deposit of title-deeds or other valuable security, or upon the hypothecation of moveable property;
(10) Leases printed or lithographed in an Oriental language when the written matter filled in does not exceed one-fourth of the printed matter;
(11) Memoranda of association of companies;
(12) Notes of protest;
(13) Policies of insurance;
(14) Revocations of trust;
(15) Share warrants issued by a Company in accordance with section 30 of the Indian Companies Act, 1882 (provided that any such share warrant issued previous to the 14th November 1890 and bearing an adhesive share transfer stamp denoting the full amount of duty payable on the warrant shall be held to have been duly stamped);
(16) Warrants for goods;

and for the following, when written in any European language, provided that any instrument written in any European language other than English shall have attached to it a translation in the English language;

(17) Agreements or memoranda of agreements which, in the opinion of the officer empowered to affix the label, cannot conveniently be written on impressed sheets;
(18) Instruments engrossed on parchment and written in the English style which, in the opinion of such officer, cannot conveniently be written on impressed sheets;
(19) Awards;
(20) Bills-of-exchange payable otherwise than on demand and drawn in British India
(21) Bonds;
(22) Certificates of sale;
(23) Composition-deeds;
(24) Conveyances;
(25) Instruments imposing a further charge on mortgaged property;
(26) Instruments of apprenticeship;
(27) Instruments of co-partnership;
(28) Instruments of dissolution of partnership;
(29) Instruments of exchange;
(30) Instruments of gift;
(31) Instruments of partition;
(32) Leases;
(33) Letters of license;
(34) Mortgage-deeds;
(35) Powers-of-attorney;
(36) Reconveyances of mortgage property;
(37) Releases;
(38) Settlements;
(39) Transfers of the description mentioned in Article No. 60, clauses (*b*), (*c*) and (*d*) of the first schedule of the said Act.

10. The following officers are empowered to affix these labels to the instruments mentioned in rule 9, namely—

(*a*) the Collectors of Calcutta and Karachi and the Hazur Deputy Collector, Karachi, when the Collector is absent from head-quarters;
(*b*) the Superintendents of Stamps at Madras, Bombay, Lahore, Rangoon, Moulmein and Akyab;
(*c*) the Commissioner of Stamps, North-Western Provinces and Oudh;
(*d*) he Superintendent of Stamps (Political Resident), Aden.

11. (*a*) Every such officer shall, upon any instrument mentioned in rule 9 being brought to him before it is executed, and application being made to him for that purpose, affix thereto a label or labels of such value as the applicant may desire and pay for, and impress such label or labels by means of a stamping-machine, and also stamp or write on the face of the label or labels the date of impressing the label or labels before returning the instrument to the applicant. In the case of instruments written on parchment, the labels must be further secured by metallic eyelets.

(*b*) When the stamp duty amounts to five rupees or upwards, such officer, or some principal assistant of such officer appointed by the Local Government from time to time in this behalf, shall further write on the face of the label or lables his initials, and, when the stamp duty amounts to rupees twenty or upwards, shall also attach his usual signature to the instrument immediately under the labels.

In Calcutta the Deputy Collector and the Superintendent of the Stamp Department of the Collector's office, as well as the Collector, are empowered to initial any label or labels and to attach their usual signatures to any instrument immediately under the labels.

The Superintendent in the Office of the Superintendent of Stamps, Lahore, is empowered to initial any label or labels, and to attach his usual signature to any instrument immediately under the labels, during the absence of the Superintendent of Stamps from Lahore.

12. (*a*) The payment of duty on instruments (other than instruments which, under section 10 of the said Act, may be stamped with adhesive stamps) executed out of British India, and requiring to be stamped after their receipt in British India, shall be indicated only by impressed labels.

(*b*) When any such instrument is taken to the Collector under section 17 of the said Act, the Collector, unless he be Collector of Calcutta or Karachi, shall send the instrument to one of the officers mentioned in rule 10, remitting the amount of duty paid in respect of such instrument; and such officer shall stamp the instrument in the manner prescribed by rules 11 (*a*) and 11 (*b*), and return the same to the Collector for delivery to the person by whom it was produced.

CHAPTER IV.—*Adhesive Stamps.*

13. Bills-of-exchange, payable otherwise than on demand and drawn in sets, when the amount of stamp duty does not exceed one anna for each part of the set, may be stamped with adhesive stamps.

14. Except as otherwise provided in these rules, the adhesive stamp used to denote the duty of one anna shall bear the words "one anna."

15. The following instruments when stamped with adhesive stamps shall be stamped as follows:—

(*a*) Bills-of-exchange, cheques, and promissory notes drawn or made out of British India, and chargeable with a duty of more than one anna, with adhesive stamps bearing the words "Foreign Bill."

(*b*) Transfers of shares of public companies and associations, with adhesive stamps bearing the words "Share Transfer."

(*c*) An entry as an advocate, vakil, or attorney on the roll of any High Court, with an adhesive stamp bearing the word "Advocate," "Vakil," or "Attorney."

(Such stamp shall be affixed under the superintendence and responsibility of a gazetted officer of the High Court, who shall obtain the stamp from the Superintendent of Stamps and account to him for it. The gazetted officer who affixes the stamp shall write on the face of it his usual signature and the date of signature before parting with the instrument.)

(*d*) Notarial Acts, with adhesive foreign bill stamps bearing the word "Notarial" printed over them.

CHAPTER V.—*Miscellaneous.*

16. When it is necessary, under section 15 of the said Act, to denote upon one instrument the payment of duty in respect of another, such payment shall be denoted by an endorsement under the hand of the Collector on the former instrument.

17. Every payment made under section 30 of the said Act shall be made in cash.

18. The Collector may require every person claiming a refund or renewal under Chapter VI of the said Act, or his duly authorised agent, to make an oral deposition on oath or affirmation, or to put in an affidavit, setting forth the circumstances under which the claim has arisen. The Collector may also, if he thinks fit, call for the evidence of witnesses in support of the statement set forth in the deposition or affidavit of the claimant or his agent.

19. Any Magistrate convicting or trying an offender under Chapter VIII of the said Act may grant to any person who may have contributed to the conviction a reward within a limit to be fixed by the Local Government.

Nuddea Collector's Office, the 20th May 1891. E. G. GLAZIER, Collector.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estate, situate in the district of Purneah, will be put up to sale at the office of the Collector on the 19th June 1891, corresponding to 6th Asarh 1298 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st.*—The estate to be sold to the highest bidder above the upset price. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2*nd.*—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the right of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities

3*rd.*—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid at once.

4*th.*—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

Bye-laws framed by the Julpaiguri District Board under Section 139, Clause 2 of Act III (B.C.) of 1885.

BYE-LAWS.

I. No person shall damage or encroach on any part of a district road or its side ditches by taking earth therefrom, cultivating crops, or placing fences or other obstructions thereon.

II. No person shall tether cattle on any district road, and the owner of any cattle found tethered on any district road shall be held to have allowed his cattle to be tethered there.

III. No person shall, without the special permission of the Chairman or Vice-Chairman, cut any part of any district road for purposes of irrigation or drainage, or for any other purpose.

IV. No person shall wilfully destroy or damage any tree on any district road, or any fence erected for the protection of such tree, and no person shall remove or damage any post or fence erected on any district road.

V. No person shall deposit or stack any material on any road so as to obstruct the traffic or cause inconvenience to the public.

VI. No person shall commit nuisance in any inspection bungalow, school-house or other premises, the property of the Board, or on any road or on any slope or side ditch thereof in charge of the Board.

VII. No person, after receiving notice previously from the Chairman or Vice-Chairman of the District Board, shall permit trees or bamboos in his possession to overhang any public road in the possession of the Board so as to affect it injuriously.

VIII. No person in charge of any cart or other conveyance, or of any elephant or of any cattle, shall cause such cart, conveyance, elephant or cattle to remain stationary upon any road in charge of the Board, so as to obstruct the traffic thereon without reasonable excuse.

IX. No person shall allow any sewage, rubbish or offensive matter, as defined in the Bengal Municipal Act, to be or fall upon any road or side drains of any road.

X. No person shall obstruct or cause to be obstructed any waterway or channel or drain adjacent to any road or any bridge or culvert under the charge of the District Board so as to injure or tend to injure such road, bridge or culvert.

XI. No person shall allow any elephant in his charge to pass over any bridge unless the same be of arched masonry.

XII. Any person infringing any of the bye-laws shall for every such offence be liable to a fine not exceeding Rs. 10, or in case of a continuing offence to a fine not exceeding Rs. 2 for each day during which such offence is continued after conviction therefor.

NOTICE TO MARINERS—No. 100.

[First Publication.]

BAY OF BENGAL—CHITTAGONG COAST.

Depth of water in certain tracks, Chittagong river.

THE Port Officer, Chittagong, has given notice of the following soundings of the different bars of the river, as also the Ring bar, off Mohamed Jus ghat. The soundings are reduced to zero:—

In Track	No. 1	...	...	12 feet.
Ditto	„ 2	...	...	12 „
Ditto	„ 3	...	...	22 „ Four casts only on a lump.
Ditto	„ 4	...	...	18 „ Seems shallowing.
Ditto	„ 5	...	...	16 „
Ring bar		...	...	11 „

Vessels coming up to cross the Ring bar with best water should pass Ghosbaldanga Spit buoy; leaving it on starboard hand 150 to 200 feet distance; then steer to pass the Ring buoy about 150 feet distance on port hand; steering as directed will give 11 feet least water, reduced to zero. The Semaphore at Jooldia is no guide for rise of water on Ring bar.

EASTERN ARCHIPELAGO—BAWEAN ISLAND.

Position of shoals not shown on the Admiralty charts.

THE British Admiralty has given notice (No. 181 of 1891) that numerous outlying shoals, not shown on the Admiralty charts, exist eastward and southward of Bawean (Bavean) island, those farthest seaward being as follows :—

1. A shoal (*Van Vurden shoal*), with a least depth of 1½ fathoms, lies with Mantegi point, the north extreme of Bawean island, bearing W. ½ N., distant 9$\frac{5}{10}$ miles.
   Approximate position, lat. 5° 44′ S., long. 112° 51′ E.
2. A shoal (*Bilian shoal*), with a least depth of 3½ fathoms, lies with cape Alang, the south extreme of Bawean island, bearing W. ¼ S., distant 15½ miles.
   Approximate position, lat. 5° 52′ S., long. 112° 53′ E.
3. A shoal (*Tangkal Timor shoal*), with a least depth of 6 fathoms, lies with cape Alang, bearing W. by N. ¾ N., distant 7 miles.
   Approximate position, lat. 5° 55′ S., long. 112° 44′ E.
4. A shoal (*Tangkat shoal*), with a least depth of 2½ fathoms, lies with cape Alang bearing N. E. by E. ½ E., distant 5 miles.

CHINA SEA—BORNEO, NORTH-WEST COAST.

Dangerous shoal reported north-east of North Furious shoals.

THE British Admiralty has given notice (No. 182 of 1891) that Mr. Andrews, commanding the American ship *Big Bonanza*, has reported that, when off the north-west coast of Borneo, in approximately lat. 7° 6′ N., long. 116° 24′ E., the ship, drawing 17 feet water, struck on a shoal lying about 7 miles north-eastward of North Furious shoals. After striking, soundings of 4, 5, 6, 7, 8, 9 and 10 fathoms were obtained as the ship drifted to the south-west. Discoloured water was seen extending a long distance to the north-east.

For some time previous to striking, 10 fathoms had been obtained. The wind was light previous to striking, and calm for about half an hour afterwards, and the current was estimated to set in a south-west direction about one knot an hour.

After striking, the following bearings were taken :—

Sampanmangio point (high part)	...	E. ¾ S.
Mount Kinabalu	...	S. by E., Sly.
Nob island, Mantanani islands	...	S. ½ W.

RED SEA, WESTERN SHORE—TRINKITAT HARBOUR.

Leading beacons on western shore.

WITH reference to Notice to Mariners No. 81, dated 27th April 1891, issued by this Office, the British Admiralty has given further notice (No. 188 of 1891) that the two temporary beacons on the western shore of Trinkitat harbour had been removed. Information has been received from Commander H. N. Dudding, H.M.S. *Dolphin*, dated 26th February 1891, that two beacons have again been erected on the western shore of Trinkitat harbour, which kept in line bearing S. W. by W., lead through the harbour entrance in not less than 24 feet water. These beacons consist of poles 35 feet high, placed 120 yards apart; the north-east beacon is surmounted by a diamond shaped cage, the south-west by a square cage. The north-east beacon is situated close to the shore with Ras Makdam bearing N.E. ⅝ N, and Observation spot S.E. ¼ E., distant 5¾ cables.

NOTE.—These beacons have been placed on the plan of Trinkitat harbour, with "Temporary" written against them, as there is no guarantee how long they will remain in position.

RESOLUTION ON THE ADMINISTRATION REPORT OF THE JAIL DEPARTMENT FOR THE YEAR 1890.

RESOLUTION.

JAILS.

Dated Darjeeling, the 27th May 1891.

READ—

The Report on the Administration of the Jail Department for the year 1890.

Read also—

The Reports for the years 1888 and 1889, and the orders of Government recorded thereon.

Dr. Lothbridge held the office of Inspector-General of Jails from the 1st to the 16th January and from the 3rd March to the 2nd July 1890, and Mr. A. D. Larymore was in charge of the Department during the remainder of the year. The present report, which was due on the 15th April, was submitted by Dr. Lothbridge with commendable promptitude on the 4th idem. The thanks of the Lieutenant-Governor are due to both officers for the work done by them during the year.

2. *Judicial statistics.*—The following table gives a general summary of all classes of prisoners confined in the jails and subsidiary jails of Bengal during the last ten years:—

The Lieutenant-Governor considers that a statement such as that given above is necessary to explain the table of expenditure at page 14 of the report, which relates to all classes of prisoners, and the Inspector-General is requested to embody a similar statement in his future reports. There was a slight falling off in the daily average population, and the decrease is due to fewer admissions both of convicts and of under-trial prisoners. The average number of civil prisoners increased from 54 to 71. The following table compares the figures for convicts only for the last ten years:—

	1881.	1882.	1883	1884.	1885.	1886.	1887.	1888.	1889.	1890.

Of the 45 districts in Bengal, 44 have jails, and one, the Chittagong Hill Tracts, has none. Of these 44 districts, 22 showed an increase in the number of direct admissions during the past year; the other 22 showed a decrease. The decrease chiefly occurs in the districts which were affected by scarcity during the previous year, and may therefore be accounted for by the better harvests of the past year. Among the districts which show an increase in the number of admissions, Jessore and Nuddea are prominent. It appears from the quarterly reports on serious crime for the past year submitted by the Inspector-General of Police that there were 117 cases of riot ascertained to be true in the district of Jessore against 52 in the previous year, the majority of which were connected with the indigo disputes which attracted the serious attention of Government during the past year. The adjoining district of Nuddea returned last year a larger number of cases of burglary and riot than in the preceding year.

3. *Numbers in different classes of Jails.*—The percentage of convicts confined in central jails rose from 53·68 in 1889 to 54·38 in 1890; it fell in district and intermediate jails from 43·68 to 43·14, and in subsidiary jails from 2·64 to 2·48 respectively. It had been decided, on the recommendation of the Jail Committee, that only prisoners with sentences of one year and upwards should be confined in central jails; but in consequence of a large decrease last year in the number of convicts in the central jails of Bengal, the Inspector-General has been obliged to continue the practice of sending prisoners with sentences of six months and upwards to those jails to enable the important industries established in them to be carried on.

4. *Numbers released.*—The total number of convicts released during the year was 32,172 against 32,310 in 1889. The number released on appeal rose from 1,942 to 2,038, and is the highest that has been ever recorded. More appeals are now lodged than before, and the number of cases in which sentences awarded by the lower courts are reversed on appeal increase year by year. This question will be more fully dealt with in the Judicial Department while reviewing the annual report on crime in Bengal. The number of prisoners released on medical grounds was 39 against 37 in the previous year. In one of the jails recently visited by him, the Lieutenant-Governor observed that two prisoners had died who had been in hospital almost ever since their admission into jail. With regard to such cases, Sir Charles Elliott is of opinion that a less rigid procedure than hitherto followed should be adopted, and that, when the Magistrate reports that a prisoner has been long ill and is likely to die, and when he has friends who will be responsible for his safe keeping, he should be released, not so much in order to keep down the jail mortality return, which is unduly swelled by the retention of incurables, but chiefly from motives of humanity that the poor creature may have the comfort of dying at home. The Inspector-General has accordingly been requested to submit all such cases to Government for orders.

5. *Numbers transported and executed.*—The total number of convicts despatched from Alipore for transportation beyond the seas fell from 829 in 1889 to 686 in 1890, in consequence apparently of the suspension, under the recent orders of the Government of India, of the deportation to Port Blair of convicts sentenced to a term of years from all places except Burma. The number of prisoners belonging to these Provinces, who were transported during the past year, was 157 against 119 in 1889. Twenty-six prisoners were executed during 1890 against 17 in the previous year.

6. *Burmese convicts.*—There were 578 Burmese convicts confined in the jails of Bengal, of whom 20 were received during the year under review. Although the number of convicts was smaller than in the previous year, the number of offences recorded against them increased from 455 to 953, of which 452 related to work. Some of the Burmese prisoners in Bengal have suffered considerably in health and lost in weight owing to climatic causes, and the Inspector-General has suggested that they may be retransferred to Burma, an equal number of prisoners now confined there being sent to Bengal in exchange. The Administration of Burma has been addressed on the subject.

7. *Religion of convicts.*—The classification of convicts according to religion shows a decrease in the percentage of Hindus from 60·95 to 57·41, but an increase from 34·70 to 37·34 in Mahomedans, and from 1·24 to 1·30 in Christians.

8. *Juveniles.*—The number of juvenile prisoners diminished from 434 in 1889 to 374. The Reformatory Schools at Alipore and Hazaribagh continue to do excellent work.

9. *Sentences.*—The number of prisoners sentenced to simple imprisonment increased from 2,434 to 2,557. The enquiries made last year as to the increase in certain districts during 1889 have shown that in some cases the convicting officers had awarded simple imprisonment where rigorous imprisonment would have been the proper punishment. His Honour desires District Officers to be careful to see that their subordinate magistrates ordinarily award the severer form of imprisonment where it is permissible by law and where no special reasons exist rendering hard labour unsuitable. The number of prisoners sentenced to rigorous imprisonment only, fell from 30,949 to 30,209; of those sentenced to rigorous imprisonment with solitary confinement from 42 to 30; and of those sentenced to rigorous imprisonment with whipping from 117 to 90. The number of re-convicted prisoners admitted into jail decreased from 3,561 to 3,331. The necessary apparatus for experiments in anthropometry at the Presidency Jail, for the purpose of recognizing old criminals, has been lately received, and Civil Hospital Assistant Kumud Behari Samanta, who was assistant to Mr. H. H. Risley, C.S., during his experiments, has been deputed to instruct the Jail officials in the use of the instruments. The Inspector-General will notice the result of the experiments in his next annual report. The number of persons imprisoned in default of giving security for good behaviour has steadily increased from 556 in 1884 to 1,303 in 1890. Of the prisoners admitted during the year, 86·69 per cent. were unable to read

and write, 9·80 per cent. were able to read and write a little, and 3·51 per cent. were able to read and write well. The corresponding figures for the previous year were 87·04, 9·48, and 3·48 respectively. The total number of sentences of judicial whipping fell from 1,528 in 1889 to 1,329 in 1890; but the number of boys whipped increased from 485 to 500.

10. *Under-trial and civil prisoners.*—The number of under-trial prisoners admitted during the year decreased from 30,219 in 1889 to 27,413, and the daily average number, though considerably less than in 1889, was larger than in any of the previous years. Twenty under-trial prisoners escaped, of whom 6 remained at large at the close of the year. The record of mortality of persons in jail pending trial is satisfactory, only 29 prisoners having died against 61 in the preceding year. The average period of detention of under-trial prisoners was 45·88 days in Sessions cases and 13·28 days in others, against 45·81 and 13·44 days, respectively, in 1889. The longest detention (99·34 days) occurred in Sessions cases in the district of Hazaribagh; and there was a detention of over two months in the districts of Furreedpore, Singbhoom, Jalpaiguri, Lohardugga, Khulna, Mymensingh, Burdwan and Patna. In several cases the long detention is attributable to the fact that one Judge has to preside over the Sessions in two or more districts, and that Sessions are held at long intervals. The Lieutenant-Governor is in consultation with the High Court upon a suggestion to introduce a rule that Sessions should be held at shorter intervals. The longest average detention in trials before Magistrates occurred in Dinagepore 25·63 days, Furreedpore 23·38 days, Dacca 19·71 days, Moorshidabad 18·40 days, Backergunge 18·37 days, Mymensingh 18·30 days, Palamow 17·72 days, Purneah 17·50 days and Rungpore 16·21 days. Elsewhere it did not exceed 15 days. The causes of delay in disposing of under-trial prisoners should be carefully looked into by Commissioners when inspecting jails, and any undue delay should be severely animadverted on. The number of civil prisoners admitted during 1890 was 969 against 825 in 1889: there was only one death among them during the year.

11. *Jail buildings.*—A grant of Rs. 37,700 was made by the Public Works Department for major original works, against Rs. 51,200 in the preceding year. The total expenditure on jail buildings amounted to Rs. 2,20,230, against Rs. 2,37,214 in 1889. A sum of Rs. 84,068 was expended on the press buildings and other improvements in the Presidency Jail. In the Alipore Jail the expenditure of Rs. 5,044 was incurred for improvements to the main gate buildings and the construction of a drain. In the Buxar Jail Rs. 5,643 were expended on the ration and clothing godowns and improvements in the Superintendent's house, and alterations were carried out in the Rajshahye, Dacca, Patna, Shahabad and Manbhoom Jails at an aggregate cost of Rs. 29,829. The Nya Doomka Intermediate Jail has been completed, and an intermediate jail at Palamow and two new subsidiary jails at Manickganj and Fenny are under construction. The daily average number of prisoners employed on jail buildings during the year was 1,334 against 1,316 in 1889.

12. *Guards.*—In consequence of the conversion of the lock-ups at Dum-Dum and Barrackpore, the total strength of the warder guard has been increased from 1,587 to 1,597. All head warders and warders, like the jailors, deputy and assistant jailors, are now required to furnish security, which is made up by monthly deductions from their pay. Dr. Lethbridge has introduced a system for improving the efficiency of the warder-guard, under which all warders will have occasion to pass through the central jails to which their respective district, intermediate or subsidiary jails are affiliated, and will thus have the advantage of being initiated into the improved training and discipline of central jails. The Lieutenant-Governor will await a further report on the working of the system in Behar, where it has not yet met with success. It is very satisfactory to notice that the number of offences committed by warders decreased from 2,054 in 1889 to 1,770 in 1890.

13. *Escapes.*—There were 13 escapes against 11 in the preceding year. The only noticeable case is that of a convict overseer who escaped from the Furreedpore Jail and who is still at large. Although this is the first case reported since the introduction of the system of employment of convict officers, it shows that strict watch must be kept over these overseers by the paid warders under whom they are employed. Of the 13 prisoners who escaped, 10 were recaptured during the year, besides one who had escaped in a previous year.

14. *Prison discipline.*—The orders of the Government of India on the recommendations of the Jail Committee on the subject of tabulating jail offences and punishments are still awaited. The Lieutenant-Governor has had an opportunity of inspecting some of the jails in his recent tours, and has observed that a large number of the punishments awarded to convicts were for short work, and that there was a diversity of procedure adopted for measuring the work of prisoners in different jails. He desires that the standard of task-work laid down in the Jail Code should be adhered to as far as possible; but when it is necessary, on the grounds of health or physique, to relax the standard, the relaxation should not be left in the hands of subordinates, but the reduced standard should be prescribed by the Superintendent with the sanction of the Inspector-General, and, when thus prescribed, should be strictly followed. The large number of offences recorded and punishments awarded in Bengal as compared with other provinces has been unfavourably commented on, and the Lieutenant-Governor has therefore paid special attention to this question during his inspections, but has observed nothing to lead him to think that offences are reported with undue severity. On the contrary, considering the classes concerned and numerous opportunities of violating rules of discipline and of falling short in the execution of tasks, Sir Charles Elliott thinks that any much smaller number of reported offences should be looked upon with suspicion as an indication of laxity. The total number of offences committed by prisoners during the past year was 25,700 against 25,107 in 1889, the percentage of offences to the daily average population being 191·1 against 184·7 in 1889. The record of punishments compares favourably with that of the preceding year, although the number of miscellaneous punishments has increased. The total number of punishments inflicted during the year increased from 25,110 to 25,697. Punishments of prisoners by criminal courts fell from 40 to 28, the lowest number on record since 1880. There was also a falling off in the number of punishments of solitary confinement from 1,276 to 1,270, and of reduced diet from 563 to 430, while 134 prisoners only were punished with solitary confinement with reduced diet against 318 in 1889. The number of prisoners flogged decreased from 272 to 259. As regards the miscellaneous punishments, the number of cases in which handcuffs and fetters were imposed increased from 6,563 and 7,793 in 1889 to 7,971 and 8,406 in 1890 respectively. Fetters were used for safe custody in 75 cases against 119 in 1889.

15. *Convict officers and mark remissions.*— Of the daily average of male population in jails during the past year, 6 per cent. were employed as convict officers against 5·7 per cent. in 1889. The escape of a convict overseer last year, and the larger number of punishments awarded to men of this class, seem to show that the number of convict officers should not be increased. The mark system is now generally appreciated by the convicts, and the Lieutenant-Governor understands that removal from it under order of the Inspector-General of Jails for serious and repeated offences is looked upon as a very severe penalty even by habituals. In 1890, 1,622 of the prisoners released gained remissions under the mark rules, against 1,575 in 1889 and 1,352 in 1888.

16. *Expenditure.*—The gross expenditure for all classes of jails, excluding that accounted for in the Public Works Department, fell from Rs. 11,91,149 in 1889 to Rs. 11,27,827 in 1890. The average cost per prisoner also decreased from Rs. 79-4-5 to Rs. 76-6-3. It is very creditable to the administration of the Inspector-General that in the central, district and intermediate jails there was a considerable decrease in every item of controllable expenditure, except under the heads of miscellaneous contingencies and petty construction and repairs. The storage of grain during the cheap season of the year, and the adoption of the other measures of economy recommended by the Jail Committee, tended to reduce the expenditure to a considerable extent. The Inspector-General observes that in Bengal there occur certain items of expenditure under the head of miscellaneous contingencies, which are due to the existence of subsidiary jails, not kept up elsewhere where the subdivisional system does not prevail. These are both expensive in themselves, through their smallness, and also entail a considerable expenditure on transport—specially railway transport—as prisoners are continually being transferred from them to district jails and back again when about to be released. This class of expenditure is not incurred or not similarly accounted for in other Provinces, and the figures showing the cost per prisoner in Bengal

cannot, therefore, bear a fair comparison with those of the other Provinces, unless a more uniform system of preparing the financial statistics in the several Provinces is adopted. The Lieutenant-Governor is of opinion that there is much force in the reasoning advanced by Dr. Lethbridge, and hopes that the matter will receive the favourable consideration of the Government of India in connection with the Jail Committee's Report. As regards the cost of diet per prisoner, Midnapore and Mymensingh come next to the Presidency (European) and Darjeeling Jails, which are usually expensive. The highest cost at Midnapore is due to the supply of better and extra food, which has reduced, or helped to reduce, the mortality from 76 to 46 per mille. At Mymensingh higher prices had to be paid for cereals, which are imported from other districts. The high charges for diet in the Dacca Central Jail in 1889 are attributable to the mismanagement of the jailor, who has since been punished and transferred. The total value of the vegetables and other products raised by prison labour for the use of prisoners during the past year is put down at Rs. 53,747 against Rs. 47,827 in the previous year, but the rates at which the prices are calculated are not uniform, and the cost of these supplies, not being paid for in cash, has not been included in the figures showing the average or total cost of diet. In paragraph 22(5) of letter No. 247P, dated the 20th January 1890, this Government has asked for more detailed instructions for fixing the value of prison labour which does not earn cash. Arrangements have now been made for the establishment of dairies in all central, district and intermediate jails, and, on the recommendation of the Inspector-General, the Lieutenant-Governor has recently sanctioned the annual award of three prizes to jailors for the best management of dairies. The first prize will consist of a daily allowance of 3 seers of milk free of charge for one year, and the second and third prizes, 2 seers and 1 seer, respectively, for the same period. The maintenance of a dairy to provide milk for sick prisoners is a reform well worth the money it costs.

17. *Establishment, &c.*—The cost of establishment decreased from Rs. 3,91,292 to Rs. 3,78,895. The decrease was due to the appointment of the Superintendent of the Alipore Jail as Officiating Inspector-General of Jails for more than seven months, and to the retirement of a number of senior jailors. The Lieutenant-Governor observes that the cost of establishment in Bengal is Rs. 25-10 per prisoner, while it is only Rs. 14 in the North-Western Provinces, and out of this cost of establishment the charge for superintendence swallows up 36 per cent. in Bengal against 28 in the North-Western Provinces. It is admitted that the system of subsidiary jails at all the subdivisions accounts partly for a greater expenditure on establishment, but His Honour doubts if the difference can be due wholly to this cause, and would wish Dr. Lethbridge to institute an enquiry into the details, and see if there is any mode of reducing the outlay under this head. The reduction in the hospital charges from Rs. 56,464 in 1889 to Rs. 47,437 in 1890 is due to a decrease in the daily average number of sick prisoners. The charges for clothing amounted to Rs. 53,667 against Rs. 70,011 in 1889: the difference is mainly due to the change in the system of accounts under which the cost of raw materials only is now debited to the Jail Department, instead of the market value of the articles produced by prison labour. The cost of contingencies rose from Rs. 1,28,168 to Rs. 1,29,089. There was an increase of Rs 3,182 on account of municipal taxes on jail buildings, and an expenditure of Rs. 3,284 was incurred in the purchase of cows for jail dairies.

18. *Average rate of controllable expenditure.*—The total average cost per head on account of diet, hospital charges and clothing fell from Rs. 34-13-11 in 1889 to Rs. 31-3-5 in 1890. The Lieutenant-Governor observes that the Buxar Central Jail continues to maintain its reputation for economical management, and that four intermediate jails and five district jails have been favourably mentioned by the Inspector General for having been carefully and economically managed.

19. *Employment of prisoners, and manufactures.*—The average number of prisoners sentenced to labour fell from 13,393·69 to 13,241·19: of these, 5,347·01 or 40·38 per cent. were employed on manufactures against 5,569·45 or 41·58 per cent. in 1889, while 14·4 per cent. were sick, convalescent or infirm against 15·3 per cent. in the preceding year. The other prisoners were employed as convict officers and servants, on gardening, jail buildings, &c. The net cash earnings

decreased from Rs. 3,98,530 or Rs. 71-9 per head in 1889 to Rs. 1,50,842 or Rs. 28-3 per head in 1890. This is said to be due to the large quantity of raw materials in stock at the close of the year, and to several large outstanding accounts which have since been settled. Including the value of the stock in hand and all outstanding bills, the total profits on the year's working upon goods for sale amounted to Rs. 3,01,717 against Rs. 2,60,096 in 1889.

20. *Earnings of prisoners.*—The average earning of each prisoner employed upon manufactures for sale in central jails is given as follows:—

	1890.	1889.
	Rs.	Rs.
Presidency	84·6	68·4
Alipore	51·5	44·4
Buxar	19·9	0·9
Midnapore	15·2	11·2
Bhagulpore	10·8	21·8
Dacca	6·4	3·0
Rajshahye	2·8	4·5

The results are fairly satisfactory. A larger amount of printing work was done in the Presidency Jail on account of the census. Both the Alipore and Buxar Jails turned out larger quantities of goods for public consuming departments. The tent industry in the latter jail is now carried on on a more extensive scale than before, the number of tents manufactured in 1890 being 962 against 680 in 1889 and 339 in 1888. The reduction in profit in the Bhagulpore Jail is attributed to the higher prices paid for raw materials. The castor-oil industry in the Rajshahye Jail was not resumed till June 1890 on the renewal of the contract with the Manager, Eastern Bengal State Railway, which accounts for the decrease shown. The value of manufactured articles in stock at the close of the year was estimated at Rs. 1,85,695 against Rs. 1,86,706 on the last day of the previous year.

21. *Subsidiary Jails.*—The conversion of the lock-ups at Dum-Dum and Barrackpore into subsidiary jails raised the total number of subsidiary jails from 84 to 86. The inspections made by the Superintendents are still not satisfactory, and the Inspector-General is requested to call for explanations from the Superintendents of the seven subsidiary jails which were visited less than 70 times during the year. The total expenditure on subsidiary jail buildings during 1890 amounted to Rs. 63,872 against Rs. 69,481 in 1889. Besides the construction of a new intermediate jail at Nya Doomka, additions and alterations were made in the existing buildings at nine stations. The efficiency of the warder guard, which is not very satisfactory at present, will, it is hoped, be improved under the system of transfers lately introduced by the Inspector-General. Convicts were detained in subsidiary jails on an average for 7·75 days against 8·52 in 1889. In the subsidiary jails at Angul and the Khondmals, where detention was longest, fortnightly transfers are not possible owing to their distance from the Cuttack Jail. The average detention of under-trial prisoners was for 13·44 days against 13·92 days in 1889. The average period of detention exceeded 20 days in Alipore, Chandpore, Madaripore, Sasseram, Brahmanberiah, Bagirhat, Jamalpore, and Mudhepoorah subsidiary jails, and enquiries will be made by the Judicial Department into the causes of this excessive detention. Nineteen under-trial prisoners and 7 convicts escaped from subsidiary jails during the year against 10 under-trials and 4 convicts in 1889; of these, 13 under-trial prisoners and 5 convicts were recaptured, besides one convict and three under-trials who had escaped during previous years. The average cost of each prisoner, excluding the expenditure in the Public Works Department, rose from Rs. 122-5-6 to Rs. 131-8-8. Efforts must be made to reduce the charges on account of establishment and miscellaneous contingencies, which are very heavy.

22. *Vital statistics*—There was ample accommodation during the past year in the jails of the Province as a whole for the convict population; but it is reported that there was constant overcrowding to a small extent in six of the jails. Table XV appended to the report shows that the maximum population on one day considerably exceeded the capacity in many jails, but this is unavoidable very often. The Lieutenant-Governor trusts that the

Inspector-General will endeavour to minimise the evil by transferring prisoners to jails of neighbouring districts whenever possible.

23. *Mortality of prisoners.*—Sir Charles Elliott considers that the question of the mortality of prisoners is the most important of all the questions affecting jail administration, and cannot be satisfied with a high death-rate in any jail without an exhaustive explanation of its causes. His Honour is pleased to observe that the death-rate from all causes was 32·3 per mille, which is the lowest on record, and is 25·2 per mille below the average of the last 28 years. The sickness and mortality among convicts and under-trial prisoners for the last ten years are shown in the following statement :—

Years.	Daily average number of prisoners.	Daily average sick.	Ratio per mille of daily average sick.	Number of deaths— From cholera.	From all other causes.	Total number of deaths.	Death-rate per mille of average strength— From cholera.	From all other causes.	From all causes.	Remarks.

Average ...	14,692	704	47·8	87	641	729	5·8	43·0	48 8	

The remarkable improvement during the past year as compared with the preceding two years without doubt shows that the health of the prisoners was greatly affected by the late scarcity. The proportion of the daily average sick per mille of average strength was very high in the jails at Shahabad (103·9), Jalpaiguri (77·3), Palamow (72·2), Chittagong (65·5), Dacca (65·1) and Chumparun (63·3). The unhealthiness of the Shahabad Jail during the past year was attributed to epidemics of cholera and influenza ; but the general health of the district is said to have deteriorated. The Lieutenant-Governor desires to see further enquiry made into the state of this jail and of the district. The Palamow Jail shows a diminution in the proportion of the daily average sick as compared with the preceding year, but is still very unhealthy, and the Inspector-General is requested to furnish an explanation. Jalpaiguri and Chumparun Jails received a large number of malaria-stricken prisoners from the Terai, and there was an unusual prevalence of fever and influenza in the Chittagong and Dacca Jails respectively.

24. *Causes of death.*—There occurred altogether 11 cases of cerebro-spinal fever, 9 of which proved fatal, against 27 cases with 19 deaths in 1889. There were six deaths out of eight cases in the Alipore Jail, and the three cases in the Dinagepore Jail all ended fatally. The Committee appointed last year to enquire into the causation of cerebro-spinal fever occurring in the Alipore and Presidency Jails, or in any of the other neighbouring Government institutions, have been unable to arrive at any conclusions from the few cases which took place in the Alipore Jail, and have therefore been allowed to continue their investigation for another year. There were 33 deaths (31 convicts and 2 under-trial prisoners) from cholera against 132 in the previous year. Deaths occurred in only 7 jails; the largest number were in Shahabad (17) and Sarun (7), where the disease appeared in an epidemic form.

25. *Jails in which the death-rate was highest.*—The number of deaths among convicts decreased from 626 or 46·0 per mille in 1889 to 447 or 33·2 per mille, and of the 439 convicts who died in jails, 139 or 31·66 per cent. were received in good health, 146 or 33·26 per cent. in indifferent health, and 154 or 35·08 per cent. in bad health. In the subsidiary jails 5 convicts died against 33 in 1889, and the death-rate was 15·0 per mille against 91·9 in 1889. The following jails show the highest death-rate during the past year :—

	Number of deaths.		Death-rate from all causes per mille.		Death-rate, exclusive of cholera, per mille.	
	1889.	1890.	1889.	1890.	1889.	1890.
Shahabad	1	19	6·6	148·4	6·6	15·6
Jalpaiguri	10	8	179·4	114·0	179·4	99·8
Rungpore	13	19	55·0	86·8	55·0	86·8
Dinagepore	17	12	75·5	71·7	75 5	71·7
Sarun	15	14	68·2	65·8	54·5	32·9

In the Shahabad and Sarun Jails the large number of deaths from cholera swelled the mortality. In the Jalpaiguri Jail 5 of the convicts who died had been admitted in indifferent health and 3 in bad health. A similar explanation is given for Rungpore and Dinagepore; but it appears to the Lieutenant-Governor that the high mortality is more or less attributable to the unhealthiness of the jails themselves. A report is awaited from the Inspector-General showing how far the reforms proposed by the Jail Committee for these as well as the other jails inspected by them have been carried out. Sir Charles Elliott will in future, in the cases of all jails where there have been more than three deaths and a death-rate exceeding 60 per mille, direct a separate and special examination by a Committee, consisting of the Superintendent of the jail in question and three neighbouring Civil Surgeons, with a view to ascertain the causes of the mortality. The Inspector-General is requested to bring to the notice of Government any jail in which the figures exceed those given above.

26. *Jails which show an improved death-rate.*—The Superintendents of all jails in which the rate of mortality fell below the average of the Province deserve to be congratulated. Where the numbers in the jail are small, the ratio of a single year is somewhat a matter of accident, but in the following cases the average numbers exceed 200, and the ratio is good:—

	Average number.	Ratio of death.
Presidency	1,151	32·9
Bhagulpore	1,037	13·5
Buxar	1,039	12·5
Rajshahye	602	16·5
Chumparun	257	23·3
Monghyr	217	13·8
Cuttack	201	29·8

Of these, the jails of Buxar, Rajshahye, Chumparun, Monghyr, and Cuttack show better figures than in the preceding year. The greatest improvement is shown (as already noticed) by Midnapore, where the ratio fell from 76·2 to 46·4. Mention may also be made of Hazaribagh, where it fell from 96·5 to 16·9, Gya (from 76·4 to 21·3), Furreedpore (from 49·1 to 34·3), Chittagong (from 149·2 to 22·3), Patna (from 53·4 to 11·7), Darjeeling (from 27·1 to 11·2), and Lohardugga (from 55·4 to 28·7). In future the Inspector-General will devote a special paragraph to a list of those central and district jails in which the death-rate has considerably lessened, distinguishing those cases in which an outbreak of cholera has largely affected the mortality. Nothing will count more to the credit of the Civil Surgeons in these Provinces than success in keeping down the death-rate in the jails under their care.

27. *Health of discharged prisoners.*—The following table shows the extent to which prisoners discharged from jails in 1890 improved in health during their residence in jail:—

	1				2			
	State of health on admission of those who were discharged from jail, as per column 2.				State of health on discharge of those who were discharged from jail, as per column 1.			
	Good.	Indifferent.	Bad.	Total.	Good.	Indifferent.	Bad.	Total.
In 1890	22,556	10,617	3,376	36,549*	26,633	8,252	1,664	36,549*
Ratio per cent. to total number discharged from jails	61·71	29·05	9·24	100·00	72·87	22·58	4·55	100·00

* Excluding the figures for the Palamow Intermediate Jail for the whole year.

This statement shows a slight improvement in the health of the prisoners discharged as compared with the return for 1889. Of the convicts discharged during the year, 20·8 per cent. lost weight in jail against 19·6 in 1889 and 20·6 in 1888.

28. *Inspections.*—Dr. Lethbridge, during the period he was in charge of the Department, visited 13 jails and subsidiary jails, and his *locum tenens*, Mr. Larymore, inspected 38 jails and subsidiary jails. The Lieutenant-Governor is glad to receive a favourable record of the inspections made by Judges and Magistrates during the year. The number of visits paid by the non-official visitors increased from 99 to 144: Sir Charles Elliott is gratified by the interest shewn by these gentlemen in the management of the jails of these Provinces.

29. The Lieutenant-Governor is glad to notice the favourable mention made by Dr. Lethbridge of a large number of officers of his department, and especially of the medical officers, Drs. R. L. Dutt, ffrench-Mullen and R. D. Murray, who paid great attention to the health of the prisoners. The commendations made by the Inspector-General will be noted in the Appointment Department.

ORDER.—Ordered that a copy of this Resolution be forwarded to the Inspector-General of Jails for information and guidance.

Ordered also that a copy of this Resolution and a copy of the Report be submitted to the Government of India in the Home Department.

Ordered also that a copy of this Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

JOHN EDGAR,

Chief Secretary to the Govt. of Bengal.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last
The *humidity* of the atmosphere is expressed at percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers
are the numerical means or averages of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the
past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 30th of May 1891.

Explanation.—..... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

Calcutta, *the 2nd June* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING SATURDAY, THE 30TH OF MAY 1891.

DURING the previous week a small cyclonic storm had formed in front of the first advance of strong south-west monsoon winds in the extreme south of the Bay, and after its formation it had advanced slowly in a north-north-westerly direction, but without intensifying to any appreciable extent. On the last day of the previous week the centre of the rather diffused storm was about in the latitude of Nellore. On the 24th it had again advanced in a northerly direction, and its centre was decidedly nearer the coast off Vizagapatam, and by the 25th the small storm was advancing over Orissa, the centre having apparently passed near Gopalpore, for the observer at that station telegraphed that the calm centre of a small storm passed over that station before 2 p.m. of the 24th. The small storm was of rather diffused nature, and was not accompanied in its passage over the land by very strong winds, but from the logs of vessels which have been since received, which were navigating the Bay to the east and south of the storm, it is evident that decidedly bad weather prevailed over a considerable part of the Bay. The small depression apparently broke up on reaching the land, and only the wave of moisture-laden winds accompanying it commenced to advance over the head of the Bay into Bengal, but the heaviness of the rainfall brought up by the small storm was rather remarkable. Thus on the morning of the 25th the following stations in the south-west of the province reported falls in excess of three inches:—Gopalpore, Satpara (Pooree district), Midnapore, Ghatal, Garbeta, and Mohesreka, while falls of between two and three inches were recorded at no less than eighteen stations in South-West Bengal and Orissa. This wave of moisture-laden winds continued its northerly advance on the 25th, and on the morning of the 26th moderate to heavy rain was reported at almost every station in the province. The largest falls recorded on this day were—8·39 inches at Darjiling, 7 70 inches at Kurseong, 5·75 inches at Matabhanga, 5 inches at Alipore Doors, and 4·70 inches at Kalimpong, while very numerous stations received falls in excess of two and three inches. On the 27th again rainfall was fairly general except in Behar and Chutia Nagpur, but it was evident on this day that the rain-bearing current was beginning to retreat southwards, for on the 28th rainfall was practically absent from the province except in East Bengal, and the same was the case also to a great extent on the 29th and 30th.

In the centre of the Bay, however, another set of changes commenced to take place on the 27th which at one time appeared likely to give a second advance of monsoon winds over the province. On this day a second small storm appeared to form in the centre of the Bay to the west or west-north-west of Diamond Island. It appears, however, never to have intensified to any extent, though it was throughout its existence accompanied by a very distinct cyclonic circulation of winds and by strong winds in the south-east quadrant. The circulation on the 27th extended over the whole of the northern half of the Bay. On the 28th the centre of the circulation was to the south or south-south-west of Saugor Island, and on the 29th it was to the south-south-east of that station; while during the afternoon and night of the 29th a feeble low-pressure area accompanied by a distinct circulation of winds, but with apparently no definite centre of low pressure, passed to the east of Saugor Island and between that station and Chittagong. It brought up practically no heavy rain to Bengal, though at the stations to the south-east of the small storm rather heavy rain with strong winds and squally weather obtained for some days, and at the close of the week monsoon winds of considerable strength were blowing over the whole Bay.

The weather therefore in Bengal during the week has been more or less similar to that experienced in the rains, but though a burst of monsoon winds has passed over the province, owing to the small storm first described, yet the current has not established itself permanently over the province.

Pressure.—The changes of pressure in Bengal during the week have not been very important On the 24th pressure was falling in South Bengal and rising elsewhere A further fall took place on the 25th in the central, southern and south-western districts, though it was rising elsewhere. A further fall was reported on the 26th and on the 27th, but on the 28th there was a general rise in all districts except Behar and South-East Bengal. On the 29th a rapid fall of about a tenth of an inch occurred, and on the 30th a further rather rapid fall occurred which was largest in the southern districts. Pressure has therefore been falling almost throughout the week, and the large excess shown in the previous week has disappeared. The variations from the normal are, however, a little irregular. Pressure has been nearly a twentieth of an inch in defect at Gopalpore and Chittagong, and in defect generally, but by small amounts, in Chutia Nagpur, Orissa, South Bengal, East Bengal, Assam, and North Bengal, but it has been in slight excess in Behar. The variations generally, however, are not larger than two or three hundredths of an inch.

Temperature.—Owing to the heavily clouded skies and rather abundant rainfall during the week, temperature has been rather largely below the normal, the average defect in the mean temperature equalling 3,° and the largest defects being reported from Behar, where they are between four and five degrees.

Rainfall.—As stated previously, heavy rain fell in the earlier part of the week, and the province generally has received a fall of about three or four inches. The heaviest falls have occurred in South-West Bengal, which has received an average fall of 4·12 inches, Orissa and North Bengal have received between three and-a-half and four inches, and East

Bengal and Chutia Nagpur between three and three and-a half inches, while North and South Behar have received between two and-a-half and three inches. Compared with the normal falls for the week, East and North Bengal have received distinct excess falls, but in all the other districts the falls are about three or even four times the usual amounts.

In Assam, during the week Silchar has received 5·72 inches, Dhubri 4 98 inches, and Sibsagar 3·23 inches of rain.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 30th of May 1891 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph, and from observations made at 6h, 10h, 16h, and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; t, thunder; ≤, lightning; p, passing temporary showers; ≏, dew.

Comparative statement of the principal commodities carried over the Eastern Bengal State Railway during the month of February 1891.

INCREASES.

	Tons.		Tons.
Jute, screwed	3,587	Kerosine-oil	1,043
The increase was principally in despatches from the northern section.		Due to the opening of the Budge-Budge Section.	
Jute, unscrewed	11,556	Railway plant, &c.	5,605
The increase was general, and is said to be due to the lateness of the season 1890-91.		For repairs and renewals.	

DECREASES.

	Tons.		Tons.
Rice	1,719	Oil-seeds	1,774
Nawabganj and Dinagepur show the principal decrease. The utilization of goods stock for passenger traffic during the Ordhoiy Jog affected the despatches to a considerable extent.		The reason for the decrease in rice assigned above applies also to the decrease in oil-seeds.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of sale of surplus railway land near the Belgachia over bridge.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, in the district of 24-Pergunnahs, will be put up to sale at 2 P.M. on Saturday, the 6th July 1891, corresponding with the 23rd Ashar 1298, *on the spot*.

The purchasers of the several plots of land will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough the land closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

Nuddea Collector's Office, the 20th May 1891. E. G. GLAZIER, Collector.

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estate, situate in the district of Purneah, will be put up to sale at the office of the Collector on the 19th June 1891, corresponding to 6th Asarh 1298 B.S.

The purchaser will be subject to the following conditions of sale :—

Conditions of Sale.

1*st.*—The estate to be sold to the highest bidder above the upset price. The purchaser of the estate will be considered as the proprietor of the estate, and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity.

2*nd.*—The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force, and purchasers to be bound to respect the right of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities

3*rd.*—If the amount of purchase-money do not exceed Rs. 100, the whole amount to be paid at once.

4*th.*—If the amount of purchase-money exceed Rs. 100, one-fourth of the amount bid to be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale is to be cancelled (the sum deposited being forfeited to Government), and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale.

SHYAMAPADA CHOWDRY, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal Railway near the Hooghly Jubilee Bridge in the district of 24-Pergunnahs, will be put up to sale at 12 o'clock noon on Saturday, the 18th July 1891, corresponding with the 3rd Sraban 1298 (B S.), at the Naihatty Municipal Office.

The purchasers of the several plots of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing, or plough the land closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers will be put in possession, on receipt by the Collector of the orders of the Board confirming the sales.

INDIAN OCEAN—SEYCHELLES GROUP.

Position of a coral patch and shoal—Mahé island approaches.

THE following Notice to Mariners (No. 207 of 1891), issued by the British Admiralty, is republished :—

The following information has been received from Commander A. F. Balfour, H.M. surveying vessel *Stork*, the result of a recent survey of Mahé island approaches, Seychelles group :—

1. A coral patch (*Stork patch*) with 3 fathoms water on it lies near the centre of Boileau bay, with Lazare point bearing S.E. ¼ E., and south extreme of Thérese island N. ¼ W., distant 2¾ miles. The sea was not seen to break on this patch, but the swell was increased near it.
   Approximate position, lat. 4° 43′ S., long. 55° 24½′ E.
2. The shoal heretofore marked on the Admiralty charts "1½ fathoms?" lying in approximately lat. 4° 41′ S., long. 55° 20′ E., was unsuccessfully searched for, 10 fathoms being the least water found in the locality. This danger therefore has been removed from the chart.
3. Requins bank, hitherto shown on the Admiralty charts "Position approximate" in lat. 4° 33′ S., long. 55° 18′ E., is a coral patch with 10 fathoms water on it, and 20 to 25 fathoms close around, lying with N W. point, Mahé island, bearing E. ½ S, distant 4 miles, and cape Ternay S. ½ W.
   Approximate position, lat. 4° 34′ S., long. 55° 22′ E.

MALACCA STRAIT—Malay Peninsula.

Fixed light at Pérak river entrance.

The British Admiralty has given notice (No. 208 of 1891) that on 17th March 1891 a light (*Denison light*) would be exhibited from a screw pile light-house erected on the edge of the bank, opposite the Fishing stakes, at Pérak river entrance.

Denison light is a *fixed white* light, elevated 45 feet above high water, and should be visible in clear weather from a distance of 8 miles.

The illuminating apparatus is dioptric, or by lenses, of the fourth order.

The light-house is situated with Kwala Pérak (*Bagan Datoh*) lighthouse, on the south side of Pérak river entrance, bearing S. 20° E., distant $5\frac{1}{10}$ miles, and Pulo Katta light-house N. 61° W.

Approximate position, lat 4° 4′ 40″ N., long. 100° 43′ 40″ E.

BAY OF BENGAL—Chittagong coast.

Depth of water in certain tracks, Chittagong river.

The Port Officer, Chittagong, has given notice of the following soundings of the different bars of the river, as also the Ring bar, off Mohamed Jus ghat. The soundings are reduced to zero:—

In Track No. 1	...	... 12 feet.	
Ditto „ 2	...	... 12 „	
Ditto „ 3	...	... 22 „	Four casts only on a lump.
Ditto „ 4	...	... 18 „	Seems shallowing.
Ditto „ 5	...	... 16 „	
Ring bar	...	... 11 „	

Vessels coming up to cross the Ring bar with best water should pass Ghosbaldanga Spit buoy; leaving it on starboard hand 150 to 200 feet distance; then steer to pass the Ring buoy about 150 feet distance on port hand; steering as directed will give 11 feet least water, reduced to zero. The Semaphore at Jooldia is no guide for rise of water on Ring bar.

CHINA SEA—Borneo, north-west coast.

Dangerous shoal reported north-east of North Furious shoals.

The British Admiralty has given notice (No. 182 of 1891) that Mr. Andrews, commanding the American ship *Big Bonanza*, has reported that, when off the north-west coast of Borneo, in approximately lat. 7° 6′ N., long. 116° 24′ E., the ship, drawing 17 feet water, struck on a shoal lying about 7 miles north-eastward of North Furious shoals. After striking, soundings of 4, 5, 6, 7, 8, 9 and 10 fathoms were obtained as the ship drifted to the south-west. Discoloured water was seen extending a long distance to the north-east.

For some time previous to striking, 10 fathoms had been obtained. The wind was light previous to striking, and calm for about half an hour afterwards, and the current was estimated to set in a south-west direction about one knot an hour.

After striking, the following bearings were taken:—

Sampanmangio point (high part)	...	E. ¾ S.
Mount Kinabalu	...	S. by E., Sly.
Nob island, Mantanani islands	...	S. ½ W.

RED SEA, WESTERN SHORE—Trinkitat harbour.

Leading beacons on western shore.

With reference to Notice to Mariners No. 81, dated 27th April 1891, issued by this Office, the British Admiralty has given further notice (No. 188 of 1891) that the two temporary beacons on the western shore of Trinkitat harbour had been removed. Information has been received from Commander H. N. Dudding, H.M.S. *Dolphin*, dated 26th February 1891, tha

two beacons have again been erected on the western shore of Trinkitat harbour, which kept in line bearing S. W. by W., lead through the harbour entrance in not less than 24 feet water. These beacons consist of poles 35 feet high, placed 120 yards apart; the north-east beacon is surmounted by a diamond shaped cage, the south-west by a square cage. The north-east beacon is situated close to the shore with Ras Makdam bearing N.E. ⅜ N., and Observation spot S.E. ¼ E., distant 5¾ cables.

NOTE.—These beacons have been placed on the plan of Trinkitat harbour, with "Temporary" written against them, as there is no guarantee how long they will remain in position.

RESOLUTION ON THE REPORT ON THE CALCUTTA MEDICAL INSTITUTIONS FOR 1890.

MUNICIPAL DEPARTMENT—MEDICAL—No. 105T -M.

Darjeeling, the 6th June 1891.

RESOLUTION.

READ—

The Report on the Calcutta Medical Institutions for 1890.

The year 1890 appears to have been an unhealthy one for the town of Calcutta, the death-rate having risen from 26·9 per mille of the population in 1889 to 28·5. The mortality from fever was above the average, and the outbreak of small-pox noticed last year continued with increased severity into the beginning of the year under review. The mortality from cholera, on the other hand, in Calcutta and Howrah was the lowest known during the last ten years, being 1,327 in the combined area (excluding the recently amalgamated Suburbs), against 1,567 in 1889. In Howrah the death-rate fell from 22·71 in 1889 to 20·62, whereas in the Suburbs it rose from 46·9 to 47·5.

2. The following statement shows the number of in-door and out-door patients treated in the several hospitals, including the Bhowanipore Dispensary, the statistics of which are for the first time shown in the report, the

institution having been included within the limits of the Calcutta Municipality only during the last two years:—

* Reckoned on cases treated, exclusive of cases treated in the Ophthalmic Ward of the Medical College Hospital.

The statistical information furnished in this table, which has been amplified by adding particulars taken from the body of the report and by exhibiting the death-rate in the form of a percentage on the daily average number of in-door patients is not so full as might be desired. In order to show how far the hospitals fulfil the purposes for which they are maintained, figures should be given in future years, stating the daily average number of in-door and out-door patients, and the number of beds available for the accommodation of the former class. It is further not clear why no separate statistics are given for the Calcutta dispensaries included under the head of Mayo Institutions. Three of these—the Chitpore, Park Street, and Sukea's Street dispensaries—receive only out-door patients, and their statistics are apparently included in the total of 134,849 entered in the statement above. But in paragraphs 70 to 74 of the report, which purport to give the detailed statistics for these dispensaries, the number of out-door patients attending the Chitpore dispensary is not shown, though it is said to have been less by 740 than in 1889.

There was an increase in both classes of patients in all the hospitals with the exception of the Mayo Institutions and the Presidency General Hospital. The differences are not sufficient to require any explanations.

3. The death-rate among all the patients treated at the hospitals, excluding cholera patients, was 114 per mille against 112 in 1889, or if deaths from cholera are included, 124 against 126. The death-rates in the Campbell and Howrah Hospitals were 202·97 and 220·02 respectively. These rates, though they do not materially differ from those of former years, are lamentably high, and are ascribed to the fact that these hospitals receive a large number of destitute and moribund patients from all parts of Calcutta and Howrah. The report also shows a sadly high death-rate among the children treated at the hospitals, and specially among female children. Dr Hilson observes that the high death-rate among female children may be attributed partly to the fact that fewer girls as compared with boys are taken to the hospital for treatment; but this view seems hardly to be borne out by the total figures of admissions, deaths, and rate of mortality shown in the following statement:—

	Admissions.		Deaths.		Death-rate per mille.	
	Boys.	Girls.	Boys.	Girls.	Boys.	Girls.
1888 ...	662	647	74	73	111·7	112·8
1889 ...	797	776	77	99	96 6	127·5
1890 ...	950	701	78	99	82·1	141·2

It would appear, therefore, that the great differences referred to in the report are due partly to temporary and accidental variations, and partly to the manner in which the figures are presented.

4. The number of cases of small-pox admitted to the hospitals rose from 64 to 321, and of these no less than 229 were of a confluent or semi-confluent character. Nearly all of these were treated in the Campbell Hospital, where, in addition to the regular accommodation in the Permanent Small-pox Hospital, special temporary wards were prepared for their reception. It is noticeable that no less than 183 of the patients were unprotected by vaccination, against only 16 in 1889. There were 528 admissions for cholera, which in 291 cases proved fatal. Dysentery and diarrhœa were less common than in the previous

year. The number of cases of malarial fevers rose from 3,867 to 4,366, of which 289 proved fatal. Enteric fever was not common during the year. The Inspector-General notices the occurrence of cases of cholera among patients under treatment for other diseases in the Howrah and Presidency General Hospitals. These cases are not easy to account for, but in Dr. Hilson's opinion are probably due to deficient conservancy arrangements in the hospitals themselves, a state of things which should be remedied immediately.

5. The record of important surgical operations during the year was 2,080 against 1,926 in the previous year, and death ensued in 88 cases, giving a rate of mortality of 39 per mille, the same as in 1889. The Inspector-General again dwells on the importance of making over operations to the House Surgeons and senior students in order to give them practical knowledge and experience. The patient's view of the matter must not, however, be overlooked. In the Campbell Hospital, where this system would seem to be more in force than elsewhere, the rate of mortality after operations rose from 44 per thousand in 1889 to 84 per thousand in the year under review, and a large proportion of cataract, lithotomy and other cases proved unsuccessful. At the same time the Lieutenant-Governor agrees with the Inspector-General that the importance of hospitals as centres of practical instruction for medical students should not be lost sight of.

6. In the Eden Hospital, which forms a part of the Medical College Hospital, and is devoted entirely to midwifery and diseases of children, 1,772 women and children were treated against 1,603 in the previous year. Of these, 1,024 were Europeans and 748 natives. The deaths among the former numbered 27, and among the latter 42, against 29 and 56 in 1889. This diminution in the death-rate is satisfactory, and is ascribed to improved methods of treatment. The number of confinement cases fell from 497 to 442, and of deaths in these cases from 18 to 10. The falling off in the number of native patients from 771 to 748 may possibly be due to the existence of the Lady Dufferin Hospital, which may reasonably be supposed to attract a number of patients who would otherwise resort to the Eden Hospital.

7. In the Ezra Hospital, which is intended for the sick of the Jewish community, 1,633 out-patients received medical aid during the year. There were also 248 in-door patients. No information is given as to the average daily number of in-patients.

8. The nursing arrangements at the Medical College, Eden, and Presidency General Hospitals are spoken of by the Inspector-General in high terms. It is also satisfactory to notice that the training of nurses and dais at the Eden Hospital appears to be thoroughly successful.

9. The invested capital of the hospitals, Rs. 5,77,000, remained unchanged during the year. The following statement compares the main heads of income and expenditure for all the institutions dealt with in the report during the last two years:—

	5,05,494	4,53,522
Closing balance	15,896	16,289
	5,21,390	4,69,811

Excluding opening balances from the comparison, the income of the year declined from Rs. 5,07,309 to Rs. 4,53,915, owing mainly to a decrease of Rs. 34,203 in the special allowances given by Government for cost of bedding and clothing, building and repairs, diet and other miscellaneous charges; of Rs. 6,400 in the contributions from "local or other funds," which include receipts from paying patients, contributions from the Port Dues Fund, proceeds of the sale of condemned articles, and miscellaneous receipts which cannot be shown under other heads; of Rs. 11,900 under sale of securities, and of Rs. 947 and Rs. 3,073 in the subscriptions received from Europeans and Natives respectively. The total receipts under the head of subscriptions during the year amounted to no more than Rs. 12,171, of which Rs. 10,659 were contributed by Europeans, Rs. 8,964 to the Howrah Hospital and Rs. 1,695 to the Mayo Institutions, and only Rs. 1,512 by Natives to the Mayo Institutions. The other hospitals show no receipts under the head of subscriptions. The contributions from municipal funds remained stationary during the year. Considering what large incomes are amassed and spent in Calcutta, and the stress that is laid by Native opinion on the duty of charity, it is surprising and deplorable that so little should be done by individuals and by the municipalities concerned to supplement the contributions of the State to a service which is everywhere deemed to have special claims upon both private and civic benevolence. In this connexion an instructive contrast may be drawn between the charitable dispensaries of the mofussil and the hospitals of the metropolis. The total income of the mofussil dispensaries amounted in 1889 to Rs. 4,73,332, and the expenditure to Rs. 4,37,095, sums which correspond approximately to the income and expenditure of the Calcutta Medical Institutions during the past year. But the income derived from private subscriptions came to Rs. 1,36,738, against Rs. 12,171 subscribed in Calcutta, and that from municipal allotments to Rs. 1,61,843 against Rs. 34,347 in Calcutta, making a total of Rs. 2,98,581 compared with Rs. 46,518 collected under these heads in Calcutta.

10. The total expenditure of the year fell from Rs. 5,01,971 (the actuals of 1889 excluding a small sum invested) to Rs. 4,53,522, nearly the whole decrease being due to diminished expenditure under the head of buildings and repairs. The cost of bazar medicines, Europe medicines, and diet shows no material variations. There was a rise of Rs. 5,968 in the charges for establishment, and a decrease of Rs. 9,952 under the head of miscellaneous charges.

11. In conclusion, the Lieutenant-Governor would observe that this report, which treats of the most important medical institutions in the country, actually conveys less information regarding their working than is regularly given for every charitable dispensary in Bengal. The statistical tables which are annexed to the Report on Charitable Dispensaries contain more facts, and present them in a more intelligible form, than the comparatively meagre statements which are inserted in the text of the Report on the Calcutta Hospitals. It is, for example, impossible to ascertain from the latter report the average cost of a diet in each of the Calcutta hospitals, although this point is one which has a most important bearing on hospital management, and requires constant watching; and in the case of the Calcutta hospitals formed the subject of an elaborate enquiry about twelve years ago. Statement I, showing the number treated in the Calcutta hospitals, is less useful than the corresponding statement (II) for the dispensaries, in so far as it does not show the number of beds

available, the daily average of in-door and out-door patients, and the proportion of men, women, and children treated as in-door patients. Again statement No. II, giving the race and sex of all patients, does not distinguish the institutions they resorted to, nor does it show the average daily attendance for each class, or the proportions of men, women, and children making up the total. In all these points it is inferior to table No. IV, annexed to the Dispensaries Report. With reference to these remarks the Inspector-General should, in his report for next year, revise the statements given in the report under review, and should endeavour to expand them so as to convey fuller information, and to bring them as far as possible into correspondence with those given in the Report on Charitable Dispensaries.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Offg. Secretary to the Govt of Bengal.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF MAY 1891.

THE principal features in the meteorology of Bengal and Assam during May 1891 have been :—

1. The distribution of pressure at the commencement of the month was nearly normal, but the daily changes were decidedly irregular and unequal. Pressure then became above the normal, and remained so for the second and third weeks of the month. At the close of the month rather large changes of pressure took place in connection with two diffused cyclonic storms which formed in the Bay, and the pressure variations from the normal for the last week of the month also became rather variable.

2. Temperature during the early part of the month was in excess of the normal by from 2° to 3°. The number of local storms accompanied by rainfall then increased, and for the second week temperature became almost normal, while during the second half of the month, owing to the unusual heaviness of the rainfall, temperature became from 2° to 3° below the normal for the period.

3. The winds blowing over the province have been strongly easterly throughout the month, and the westerly winds which usually blow in May over a large part of the province have been quite absent. Rather strong winds have also usually been blowing for the greater part of the month.

4. Rainfall was lighter than usual during the first week, it then became heavier and was in excess of the normal in all districts, except Orissa, South Behar, and Chutia Nagpur, for the second and third weeks, but during the fourth week, owing to the influence of a small storm which advanced up the Bay, rainfall became exceedingly heavy, and was in very large excess in all districts.

5. Weather conditions in Bengal throughout the month were unusually disturbed, and local storms with rain were numerous, particularly in the second and third weeks and in the southern, eastern, and northern districts. After this conditions continued disturbed with more frequent rainfall, and there were many local storms practically up to the close of the month, the rainfall being brought up by the action of a small storm in the Bay.

6. The first advance of strong south-west monsoon winds took place in the south of the Bay about the 20th May, and two small storms were formed in advance of the wave of moisture-laden winds Both of these small storms, though they brought light winds only to the coast stations, were rather severe at sea, and the first in particular brought up a very heavy wave of rainfall to Bengal.

The changes of conditions during the first fortnight of May do not call for detailed review. There was an unusual predominance of moist easterly and south-easterly winds blowing over the province, even up to the extreme limits of Behar. Numerous local storms with rain continued to occur in North, East and South-West Bengal and a few in Orissa, though at this time North and South Behar and Chutia Nagpur remained practically rainless. The pressure and temperature changes which took place from day to day were in many instances rather large, particularly in the case of temperature, for at one time the mean temperature had become from 4° to 7° above the normal. With the gradual increase in the number of local storms, and the increasing heaviness of the rainfall, temperature fell rather quickly and became more normal. A few local storms occurred in Behar and Chutia Nagpur from about the 10th to the 15th and from the 21st to the 23rd, while those falling in other districts were decidedly numerous, but the meteorological changes which were taking place in Bengal itself at this time were of very little importance, and ordinary hot-weather conditions with a rather unusual number of small storms accompanied by rain and decidedly high humidity prevailed up to about the 20th of the month.

On the 20th the meteorological changes became more important, inasmuch as in the south of the Bay the first burst of strong south-west monsoon winds commenced to take place. Indications were also shown in the wind directions along the South Madras coast as well as by the pressure changes which were taking place, that bad weather was generating in the extreme south of the Bay in front of this advance of the monsoon winds. The meteorological changes in Bengal on the 20th were generally small, but local storms with rain continued to occur over a considerable part of the province. On the morning of the 21st, the indications of the formation of a storm or a stormy area in the south of the Bay had developed considerably, and the centre of the storm was probably in the latitude of Negapatam. The small storm then commenced to move in a north-north-westerly direction, and on the 22nd its centre was about in the latitude of Madras, and on the morning of the 23rd it had again advanced and was in the latitude of Nellore. During the whole of this time strong monsoon winds were blowing in the south and to a certain extent in the east of the Bay, and the south-west monsoon winds had certainly advanced half way up the Bay. During this advance in Bengal, pressure continued to fall till the 23rd, when there was a slight rise. Temperature rose rapidly and became very largely above the normal in many districts. Winds were strongly easterly and south-easterly in the east and north of the province, and were bringing up large amounts of moisture, and some very heavy falls of rain were reported, in some cases falls exceeding five inches being registered The number of local storms, however, occurring on the 21st and 22nd of May, except in the east and north of the province, was decidedly small. On the 24th the small storm had again advanced in a northerly direction, and its centre was decidedly nearer the coast off Vizagapatam, and by the 25th the small storm was advancing over Orissa, the centre having apparently passed near Gopalpore, for the observer at that station telegraphed that the calm centre of a small storm, passed over that station before 2 p.m.

of the 21th. The small storm was of rather diffused nature, and was not accompanied in its passage over the land by very strong winds, but from the logs of vessels which have been since received, which were navigating the bay to the east and south of the storm, it is evident that decidedly bad weather prevailed over a considerable part of the Bay. The small depression apparently broke up on reaching the land, and only the wave of moisture-laden winds accompanying it commenced to advance over the head of the Bay into Bengal, but the heaviness of the rainfall brought up by the small storm was rather remarkable. Thus on the morning of the 25th the following stations in the south-west of the province reported falls in excess of three inches:—Gopalpore, Satpara (Pooree district), Midnapore, Ghatal, Garbeta, and Mohesreka, while falls of between two and three inches were recorded at no less than eighteen stations in South-West Bengal and Orissa. This wave of moisture-laden winds continued its northerly advance on the 25th, and on the morning of the 26th moderate to heavy rain was reported at almost every station in the province. The largest falls recorded on this day were—8·39 inches at Darjeeling, 7·70 inches at Kurseong, 5 75 inches at Matabhanga, 5 inches at Alipore Dooars, and 4·70 inches at Kalimpong, while very numerous stations received falls in excess of two and three inches. On the 27th again rainfall was fairly general except in Behar and Chutia Nagpur, but it was evident on this day that the rain-bearing current was beginning to retreat southwards, for on the 28th rainfall was practically absent from the province except in East Bengal, and the same was the case also to a great extent on the 29th and 30th.

In the centre of the Bay, however, another set of changes commenced to take place on the 27th which at one time appeared likely to give a second strong advance of monsoon winds over the province. On this day a second small storm appeared to form in the centre of the Bay to the west or west-north-west of Diamond Island. It appears, however, never to have intensified to any extent, though it was throughout its existence accompanied by a very distinct cyclonic circulation of winds and by strong winds in the south-east quadrant. The circulation on the 27th extended over the whole of the northern half of the Bay. On the 28th the centre of the circulation was to the south or south-south-west of Saugor Island, and on the 29th it was to the south-south-east of that station; while during the afternoon and night of the 29th a feeble low-pressure area accompanied by a distinct circulation of winds, but with apparently no definite centre of low pressure, passed to the east of Saugor Island and between that station and Chittagong. In its breaking up on coming to the land it brought up practically no heavy rain to Bengal, though at the stations to the south-east of the small storm rather heavy rain with strong winds and squally weather obtained for some days. In its rear, monsoon winds of considerable strength were blowing over the whole Bay, but the advance seems to have spent itself in the Bay, though indeed the monsoon winds were also drifting partially and slowly over East and South Bengal, but in a feeble and badly defined manner.

The weather, therefore, in Bengal at the end of the month was more or less similar to that experienced in the rains, but though a burst of monsoon winds had passed over the province owing to the small storm first described, yet the current had not established itself permanently over the province.

Pressure.—The variations of pressure during the month have already been referred to briefly. The mean pressure for the whole month has been slightly in excess of the normal, but the average excess is not more than about two-hundredths of an inch. This small excess is fairly equally distributed in all districts.

Temperature—Was very distinctly below the normal for the second half of the month, though during the first half it was above or about normal. The temperature for the whole month has therefore not varied very largely from the normal, the average of the whole province showing a slight defect of 0·5°. In Chutia Nagpur, indeed, there has been a slight excess temperature of 0·7°. In Orissa, South West Benga, and South Behar, the mean temperatures for the month have been almost exactly normal, but in North Bengal and North Behar there has been a defect of nearly a degree and-a-half; the largest defect, however, has been registered in Assam, where it equals 1 9°.

Rainfall.—All the divisions in the province have received falls very considerably in excess of the normal. The largest falls have as usual occurred in East Bengal, where they have averaged 14·02 inches. This represents a fall nearly 5 inches in excess of the normal amount, and the percentage of excess has been 51. In North Bengal an average fall of 11 91 inches is reported, or nearly three and-a-half inches more than usual, and the percentage of the excess fall has been 40. South-West Bengal has received an average fall of 9·18 inches, or nearly 4 inches more than usual, and the proportion of excess equals no less than 70 per cent. In the other districts the falls have been much smaller than this, though still, when compared with the normals, they are very large. Thus North Behar has received an average fall of 5·50 inches, which is nearly two and-a-half inches larger than usual, and hence the percentage of excess is 72. In Orissa 5 18 inches have fallen, against the normal fall of 3 87 inches, and the excess fall has equalled 34 per cent. In South Behar the average fall has been 3·95 inches, which is 65 per cent. in excess of the normal, while in Chutia Nagpur the fall has averaged 3 92 inches, or 48 per cent. in excess of the normal. Taking all these areas as having an equal value in the calculation, the rainfall of May in Bengal may be said to have been 54 per cent. in excess of the normal quantity. In the division of Orissa the excess falls appear to be all fairly equally distributed in the districts, but in South-West Bengal centres of unusually heavy rainfall appear to have existed in the districts of Burdwan, Bankoora, Beerbhoom, Moorshedabad, and Nuddea, while the falls in the other districts were much more normal In East Bengal centres of unusually heavy rainfall existed in the districts of Mymensingh, Comillah, and Dacca, and of comparatively light rainfall in the Chittagong district. In North Bengal Maldah and in North Behar Purneah

formed centres of heavy rainfall, and in South Behar the Monghyr, South Bhagulpore, and Nya Doomka districts received heavy rain, while in Gya and Shahabad falls were distinctly deficient. Finally, in Chutia Nagpur all districts received ample falls.

The rainfall over the whole province has varied from 15 inches and upwards in the eastern districts to about one inch or even less than an inch in the west of Chutia Nagpur and Behar. The eastern half of the province, from about the districts of Burdwan, Beerbhoom, Moorshedabad, &c., have received falls which equal about 10 inches and upwards, while to the west of this falls rapidly diminish in amount, and a large part of the western half of the province has received an average amount of less than 6 inches of rain. When compared with the normal falls, the only parts of the province which show defective falls are—the southern part of the Chittagong district, parts of Furreedpore, the Soonderbuns district, the southern part of Midnapore, the coast line of Orissa, the western part of Chutia Nagpur and Behar, and one or two isolated stations in North Bengal. The greater part of the province indeed shows excess falls of 3 inches at least, and in many cases of 6 inches above the normal fall.

In Assam during May, Silchar has received 18·69 inches, Dhubri 14·80 inches, and Sibsagar 11·27 inches of rain.

The following table gives full data for the comparison of the actual and the normal rainfall of the month of May in all districts of the province. The figures are derived from the average and actual rainfall of the rain-recording stations in each district, due allowance being made for the area which each station represents. This gives a more accurate average than the arithmetical means given in the weekly and monthly meteorological tables. The first column gives the normal or average district rainfall as determined from the rainfall observations of the past 15 years. The second column gives the actual district rainfall as determined from the weighted actual rainfalls of the month at the reporting stations in each district. The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage. The fourth column gives the same information as the third in a slightly different form, stating as a percentage how much the district rainfall of the month varied in excess or defect from the normal:—

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last
The *Humidity* of the atmosphere is expressed at percentage, saturated atmosphere presented by 10. A clear sky is denoted by 0 and an overcast sky by 10. The numbers
are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the
past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 6th of June 1891.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 9th June* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING SATURDAY, THE 6TH OF JUNE 1891.

AT the close of the previous week a feeble diffused storm had advanced into the north of the Bay and had broken up in passing inland. This small storm brought up with it a distinct advance of monsoon winds, and thus at the end of that week the monsoon winds were blowing strongly over the whole Bay, and were even penetrating to a small extent over Bengal. On the 31st, with the complete disappearance of the diffused storm, pressure rose rapidly, the general rise averaging more than a tenth of an inch, though pressure still remained below the normal; the greatest deficiency being in the southern and western districts. Very strong moist winds then set in at the head of the Bay, bringing up large amounts of moisture to the province, while easterly and even north-easterly winds prevailed generally at the inland stations. The amount of rainfall reported on the 31st was small, except at some of the East Bengal stations. On the 1st of June a further rapid increase of pressure had taken place, the average equalling eight-hundredths of an inch, and pressure on this day became decidedly in excess of the normal. Winds also were almost unchanged in direction and velocity The rainfall reported on the 1st was again slight, except over parts of East and North Bengal. The increase of pressure continued on the 2nd, but by very much smaller amounts, and pressure was comparatively low in Orissa. Winds showed a slight tendency to circulation at the head of the Bay round the low pressure in Orissa, and wind velocities decreased. Rain then was reported in South-West Bengal and in Chutia Nagpur, while the amounts fell off in East and North Bengal. On the 3rd pressure commenced to fall in Bengal; the tendency to wind circulation at the head of the Bay ceased, and rather strong southerly winds again set in while winds generally over the province were more southerly than they had been. On this day heavy local rain only was reported in South-West Bengal and rather general rain in East and North Bengal, but elsewhere it was almost rainless. On the 4th the changes of pressure were small and variable, pointing to a rather disturbed state of the atmosphere. Winds also became more or less westerly in Chutia Nagpur, while over the remainder of the province they were easterly. This probably indicated that a certain amount of interaction between the two opposing wind systems was taking place over the western districts, and on this day rather heavy rain was reported in Orissa, South-West and East Bengal, Behar, and Chutia Nagpur, while the falls became light in North Bengal. On the 5th these conditions continued, and heavy rain was again reported from Behar, while such districts as North Bengal became practically rainless. On the 6th pressure continued to fall by unequal amounts, wind was westerly at Buxar, Chybassa, and in Orissa, and easterly over the remainder of the province, and again particularly heavy rain was reported in Behar. Moderate amounts of rain also fell in South-West Bengal and Chutia Nagpur, but the remainder of the province was practically rainless.

Conditions therefore, it will be seen, have continued disturbed throughout the week, and the disturbed conditions have resulted in giving moderate to heavy rain in all districts except Orissa, where the falls have been small. In most cases, however, the rainfall has been brought by more or less local storms and has not been of the general character which denotes the rainy reason In the Bay a rather strong monsoon current has been blowing over the southern half, but in the northern half the current has fallen off in strength. At the close of the week, however, it appeared that another rather strong advance of south-west monsoon winds was taking place over the southern half of the Bay.

Pressure.—The mean pressure for the week has been in excess of the normal, but the variations are considerable in different districts and at neighbouring stations. Excess pressures of from five to eight hundredths of an inch are generally reported in most districts except Orissa, but here the excess only equals about two hundredths of an inch.

Temperature—Has been below the normal in all districts except East Bengal; the defect has been large and equals about 3° in South-West Bengal and Behar, it has equalled about 1° in Orissa and North Bengal and in Assam, while in East Bengal temperature has been practically normal For the whole of Bengal a defect of 1·8° has been registered.

Rainfall—Has been decidedly below the normal in North Bengal and Orissa, about normal in East Bengal and above it elsewhere. In North Behar an average fall of five inches is recorded, while the normal fall is less than an inch, and in South Behar there has been a fall of three inches against the usual fall of about half an inch. A fall of nearly five inches is reported from East Bengal, or almost the normal amount, and in South-West Bengal the average fall has been 2·30 inches, or about 10 per cent. in excess. Chutia Nagpur has received 1·85 inches, or almost twice the normal fall, and North Bengal only 1·38 inches, or not much more than a third the usual fall. The smallest falls are reported from Orissa with 0·55 inch, which is only about half the usual amount.

The falls in a single day at some stations have been exceptionally heavy. Thus at Tumlook on the 4th, 6·5 inches was reported, at Tajpore on the 6th, 7·10 inches, and at Diamond Harbour on the 3rd, 5·04 inches. Falls exceeding 5 inches in one day have also been registered at Kishoregunge, Hajipur, Sewan, Bagaha, and Patna.

In Assam during the week, Silchar has reported 4·53 inches, Dhubri 4 01 inches, and Sibsagar 1·40 inches of rain.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 6th of June 1891 :—

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory). The barometer is about 8 feet higher at Alipore, and, other things being equal, reads therefore ·003 lower. The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0·5° higher; and finally, the thermometer which furnished the record of temperature at the Surveyor-General's Office during 20 years and upwards is found to read 0·6 higher than the Kew standard thermometer, which is the standard of reference at the present Observatory.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

MEMORANDUM.

Weekly statistics of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 23rd May 1891.

Births.

THE total births registered during the week ending with Saturday, the 23rd May 1891, in twenty-seven principal towns of Bengal, amounted to 370, and correspond to an annual rate of 17·9 per 1,000 of the aggregate population of those towns, which is 1,072,359. This rate is 1·6 higher than the average rate of the corresponding week of the past five years, and is also higher than the rate of the corresponding week of any of the past five years except 1888, *vide* the figures below—

	1886.	1887.	1888.	1889.	1890.	Weekly average of five years 1886—90.	1891.

It will be seen that last week the highest birth-rate was returned from Darjiling (51·9) and the lowest from Utterpara (9·4). No births were registered in the Jessore town.

Deaths.

The total deaths registered during the week under review amounted to 443, and correspond to an annual rate of 21·5 per 1,000 of the population. The rate of the week is 1·3 higher than the average rate of the corresponding week of the past five years, and is also higher than the rate of the corresponding week of any of the past five years with which comparison is instituted, *vide* the figures below—

The 15th June 1891.

No. 219.—*Declaration*.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for an embankment to protect the village of Kharanti from the floods of the river Poonpoon, it is hereby declared that for the above purpose a piece of land 1,100 feet long and 60 and 80 feet wide (*i.e.* 700 × 60 + 400 × 80), situated in mouzah Kharanti, pergunnah Manora, district Hijya, is required within the aforesaid mouzah.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

No. 220.—*Declaration*.—Whereas it appears to the Lieutenant-Governor of Bengal that land is required to be taken by Government at the public expense for a public purpose, viz., for the construction of a new diversion line of embankment on the bank of the Mahananda, in the village of Babupur Mahespur, pergunnah Amirabad, estate Rukunpur, towji No. 510, zillah Maldah, it is hereby declared that for the above purpose a piece of land measuring, more or less, 5 bighas 15 cottahs, 12 $\frac{1}{4}$ chittacks of standard measurement, bounded on the north by Tinkarhi Pal's land, Goswain Durga Gir's garden, Dasi Kumarin's house, Ananda Prasad Sen's (Doctor's) house, Sarbeswar Shah's garden, Ram Kumari Debi's garden, Muktakeshi Shahun's garden, Radha Sundari Debi's land, Amrit Shah's house and Bihari Sing's house, on the east by Mahananda embankment, on the south by Guljar Sheikh's garden, Goswain Durga Gir's garden, Sarbeswar Shah's garden, Ram Kumari Debi's garden, Radha Sundari Debi's land, Ranglal Shah's garden, Bishaka Baisnavi's house, Shiban Bewa's deserted homestead and the thatched houses of Kurhani Bewa and Nabin Shah, and on the west by the Mahananda embankment, is required within the aforesaid village of Babupur, taraf Maheshpur.

This declaration is made, under the provisions of section 6 of Act X of 1870, to all whom it may concern.

ESTABLISHMENT.

The 15th June 1891.

No. 221.—*Notification*.—The Lieutenant-Governor has considered it desirable that Canal Officers in Bengal should have some experience of their work and pass examinations in Law and the Vernacular of the Circle in which they serve before being invested with magisterial powers to try cases under Part IX of Act III (B.C.) of 1876.

2. It is accordingly directed that no Canal Officer will be invested with such powers unless he has—

(1) served for five years in the Public Works Department;

(2) passed the departmental standard language examination in Hindustani, and, if employed in Orissa or Midnapore, passed a colloquial examination to be held by the Superintending Engineer in Uriya or Bengali, respectively; and

(3) passed the examination in Law prescribed below.

Officers who joined the service before the 1st January 1881 will not be required to pass the examination in Law, but as regards those who joined after the above date, passing the

above examination will be considered as giving a preferential claim to the charge of an irrigation division.

3. The examination in Law will consist of two papers without books (A and B) and an examination in cases (C). It will be conducted under the direction of the Central Examination Committee, and will take place at the same time as the half-yearly departmental examinations of Assistant Magistrates and others.

A.

6. Circular Order of the High Court (Criminal), No. 6, dated 10th November 1890, sections I and II.

B.

The second paper will comprise—

1. Canals Navigation Act, V (B.C.) of 1864.
2. Land Acquisition Act, X of 1870, Parts I to VI.
3. Drainage Act, VI (B.C.) of 1880.
4. Embankment Acts, XXXII of 1855, VII (B.C.) of 1866, and II (B.C.) of 1882.
5. Rules made under these Acts.

C.

The examination in cases will be conducted as follows :—

4. The record of a case, such as ordinarily comes before a Canal Officer exercising magisterial powers, in which the evidence has been recorded in the vernacular, will be read out by a native official. Where possible, the case will be read to each candidate separately,

or to small batches. The candidate must write his notes of evidence as the reading proceeds as he would do were he actually trying the case. At the conclusion of the case the candidate, who may refer to his books, must write (Europeans in English; Natives of India in Hindustani, Uriya, Bengali, or English, as they prefer) a judgment on the question or questions at issue with a statement of reasons.

5. Officers will be allowed to pass separately in either of the papers A or B, or in the case C. Passing marks in each subject will be 50 per cent.

6. Upper Subordinates who have received permission from their Superintending Engineer and zilladars may appear at paper A of the examination in Law. By passing they will be considered as increasing their chances of promotion, and Subordinates who pass this examination will, if placed in charge of Irrigation sub-divisions, be vested with the powers of a Canal Officer.

W. L. HARVEY,
Acting Under-Secretary to Government.

NOTIFICATION.

GENERAL DEPARTMENT.

Bombay Castle, the 8th June 1891.

No. 2045.—In exercise of the power conferred by Act I of 1870, the following Rules for Quarantine against Cholera have been made by the Government of Bombay with the previous sanction of the Governor-General in Council: they have effect from the 28th ultimo in the Ports of Aden, Perim, and the Somali Coast as a temporary measure:—

I.—The commander of every vessel, including buggalows or other native craft arriving from Baelekoemba, shall, before entering the harbour, indicate by signal the port from which such vessel has come.

II.—Such commander shall not, except as hereinafter provided, allow any communication either with the pilot boat, except orally, or with the shore, or with any other vessel or boat in the harbour.

III.—Immediately on arrival the commander shall cause the letter R of the Commercial Signal Code to be hoisted, and shall keep the said flag flying during his stay in port or until authorized by the Health Officer to haul it down. If communication with the shore is not desired, the vessel shall anchor at such place as may be pointed out by the Port authorities, having regard to the season of the year. If communication with the shore is desired, the Health Officer shall go alongside the vessel, and, after all necessary enquiries, shall direct the commander to take the vessel to the quarantine anchorage duly appointed and notified in that behalf by the Resident, there to remain for a period of seven days from the date of arrival, or for the shorter period prescribed in Rule IV, and undergo disinfection, which should apply as well to crew, passengers, effects, and suspectible goods.

IV.—If the Health Officer of the Port has sufficient evidence that no cases of a suspicious nature have taken place on board during the voyage, and if the vessel is, besides, in good hygienic condition, the duration of the quarantine will be diminished according to the following scale :—

After eight days of voyage	...	...	Six days of quarantine.
Do. nine ditto	...	...	Five ditto.
Do. ten ditto	...	...	Four ditto.
Do. eleven ditto	...	...	Three ditto.
Do. twelve ditto	...	...	Two ditto.
Do. thirteen ditto	and upwards	...	Twenty-four hours of quarantine.

V.—If during the period a vessel is at the quarantine anchorage aforesaid any case or cases of cholera should occur on board, the said vessel shall remain in quarantine for a period of seven days from the date of the last case occurring, and be subject to all the prohibitions provided for in Rule III.

VI.—When any vessel has been placed in quarantine as aforesaid, the Health Officer may direct the removal of so many of the passengers and crew as may not be suffering from illness, and whose services may not be required on board the vessel, to such particular spots as may from time to time be selected by the Resident as places of quarantine, there to remain for a period of seven days. If a case of cholera occurs among such passengers and crew during any such period, they shall remain in a place of quarantine for a period of fifteen days from the date of the occurrence of the last case of such illness.

VII.—Any mails or cargo which may be brought by any vessel so arriving shall be landed under such precautions as the Health Officer may deem necessary to prevent the spread of the disease.

VIII.—It will be the duty of the Port Officer to facilitate the conveyance to all vessels in quarantine of such supplies of provisions, stores, and other articles as may be required by those on board. Such supplies will be placed on the boats of the vessels in quarantine, to be subsequently removed by members of their crews.

IX.—All vessels arriving at Aden, Perim, and the Somali Coast, which may have communicated with vessels coming from Baelekoemba, shall be subjected to the same quarantine as vessels arriving at Aden, Perim, and the Somali Coast from Baelekoemba.

X.—All vessels which have undergone quarantine in the manner above prescribed should have the fact clearly stated on their bills-of-health.

By order of His Excellency the Right Hon'ble the Governor in Council,

T. D. MACKENZIE,
Chief Secretary to Government.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of sale of surplus railway land near the Belgachia over bridge.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, in the district of 24-Pergunnahs, will be put up to sale at 2 P.M. on Saturday, the 6th July 1891, corresponding with the 23rd Ashar 1298, *on the spot*.

The purchasers of the several plots of land will be subject to the following conditions:—

1*st*.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough the land closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

SHYAMAPADA CHOWDRY, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal Railway near the Hooghly Jubilee Bridge in the district of 24-Pergunnahs, will be put up to sale at 12 o'clock noon on Saturday, the 18th July 1891, corresponding with the 3rd Sraban 1298 (B S.), at the Naihatty Municipal Office.

The purchasers of the several plots of land will be subject to the following conditions :—

1*st.*—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing, or plough the land closer than three feet from its foundation.

2*nd.*—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd.*—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers will be put in possession, on receipt by the Collector of the orders of the Board confirming the sales.

INDIAN OCEAN—Seychelles group.

Position of a coral patch and shoal—Mahé island approaches.

The following Notice to Mariners (No. 207 of 1891), issued by the British Admiralty, is republished :—

The following information has been received from Commander A. F. Balfour, H.M. surveying vessel *Stork*, the result of a recent survey of Mahé island approaches, Seychelles group :—

1. A coral patch (*Stork patch*) with 3 fathoms water on it lies near the centre of Boileau bay, with Lazare point bearing S.E. ¼ E., and south extreme of Thérese island N. ¼ W., distant 2¾ miles. The sea was not seen to break on this patch, but the swell was increased near it.
   Approximate position, lat. 4° 43′ S., long. 55° 24½′ E.
2. The shoal heretofore marked on the Admiralty charts "1½ fathoms?" lying in approximately lat. 4° 41′ S., long. 55° 20′ E., was unsuccessfully searched for, 10 fathoms being the least water found in the locality. This danger therefore has been removed from the chart.
3. Requins bank, hitherto shown on the Admiralty charts "Position approximate" in lat. 4° 33′ S., long. 55° 18′ E., is a coral patch with 10 fathoms water on it, and 20 to 25 fathoms close around, lying with N.W. point, Mahé island, bearing E. ¼ S., distant 4 miles, and cape Ternuy S. ¼ W.
   Approximate position, lat. 4° 34′ S., long. 55° 22′ E.

MALACCA STRAIT—Malay Peninsula.

Fixed light at Pérak river entrance.

The British Admiralty has given notice (No. 203 of 1891) that on 17th March 1891 a light (*Denison light*) would be exhibited from a screw pile light-house erected on the edge of the bank, opposite the Fishing stakes, at Pérak river entrance.

Denison light is a *fixed white* light, elevated 45 feet above high water, and should be visible in clear weather from a distance of 8 miles.

The illuminating apparatus is dioptric, or by lenses, of the fourth order.

The light-house is situated with Kwala Pérak (*Bagan Datoh*) lighthouse, on the south side of Pérak river entrance, bearing S. 20° E., distant $5\frac{4}{10}$ miles, and Pulo Katta light-house N. 61° W.

RESOLUTION ON THE ACCOUNTANT-GENERAL'S ESTIMATES OF THE EXCLUDED LOCAL FUNDS FOR 1891-92.

FINANCIAL DEPARTMENT—FINANCE.

Darjeeling, the 9th June 1891.

RESOLUTION.

READ—

Memorandum from the Accountant-General, Bengal, No. 18Bt., dated the 18th March 1891, submitting the estimates of receipts and expenditure of the Excluded Local Funds for 1891-92.

Letter from the Accountant-General, Bengal, No. 1Bt., dated the 4th April 1891, submitting revised figures for Public Works expenditure debitable to Mohsin Endowment Fund for 1891-92.

Memorandum from the Accountant-General, Bengal, No. 4Bt., dated 6th May 1891, submitting the estimates of receipts and expenditure of the Hospital Port Dues Fund, Chittagong, for 1891-92, for inclusion in the Excluded Local Funds budget for that year.

The Excluded Local Funds may be classed under the following heads:—

(1). Police Funds.	(4). Medical and Charitable Funds.
(2). Marine ,,	(5). Public Works ,,
(3). Education ,,	(6). Miscellaneous ,,

(7). Cantonment Funds.

2. The Accountant-General's estimates of receipts and expenditure of Police and Education Funds do not call for any remark and are accepted. It is observed that, owing to the Maharaja of Vizianagram having withdrawn his annual donation, "The Vizianagram Scholarship Fund" is gradually being exhausted and will shortly cease to exist.

3. The Marine Funds are "The Hospital Port Dues Fund, Calcutta," "The Balasore Port Fund," and "The Cuttack and Pooree Ports Fund." The Marine Department sanctioned experimentally the creation of a *Hospital Port Dues Fund* for Chittagong, but it has now been abolished, and the Accountant-General's Supplementary abstract estimate providing Rs. 5,000 as receipts from Hospital Port Dues, and the same amount as expenditure on Sanitary Superintendence and Medical aid, will not be included in the budget. In accordance with recent orders of the Marine Department of this Government, the Accountant-General has for the first time submitted separate accounts for the Port Funds of Pooree and Cuttack, which have hitherto been shown together.

The estimate of the *Balasore Port Fund* provides Rs. 3,600 for the salary of the Port Officer. A personal allowance of Rs. 50 a month has recently been granted to the Port Officer, and the estimate will accordingly be raised to Rs. 4,200. The estimates in other respects are accepted.

4. Under the head Medical and Charitable Funds, an additional allotment of Rs. 250 has been made from the *Pilgrims Lodging House Fund*, for the excavation of a well and the improvement of a tank at Chandbally, thus raising the total expenditure of the Fund during the year 1891-92 from Rs. 29,473 as fixed in Government Resolution No. 131, dated 21st January 1891, to Rs. 29,723. The remaining estimates under this head are accepted and call for no remarks.

5. The Public Works Funds are "The Khond Mehal Road Fund," "The Darjeeling Improvement Fund," "The Juggernath Road Fund," and "The Wahabee Fund." The estimates of the *Khond Mehal Road Fund* and the *Juggernath Road Fund* are accepted. The following table compares the Accountant-General's estimates of the *Darjeeling Improvement Fund* with the revised estimate for 1890-91, and the actuals of 1889-90 :—

	Actuals, 1889-90.	Accountant-General's revised estimate, 1890-91.	Sanctioned revised estimate, 1890-91.	Accountant-General's estimate, 1891-92.
	Rs.	Rs.	Rs.	Rs.
Opening balance ...	14,676	13,246	13,245	12,246
Receipts	26,651	27,000	26,700	25,700
Total ...	41,327	40,246	39,945	37,946
Expenditure ...	28,081	28,000	34,045	26,195
Closing balance ...	13,246	12,246	5,900	11,751

In Government order No. F $\frac{1-2}{25}$ 3, dated the 17th July 1890, the Deputy Commissioner of Darjeeling was authorized to incur expenditure up to Rs. 34,045 against the Fund in 1890-91. Since then the following charges have been sanctioned :—

(1) Rs. 180 in excess of the budget allotment under dispensary contingencies to meet the cost of medicines for the Silligoree dispensary.

(2) Rs. 900 for the construction of a road from Cheabhanjan to Dentam.

(3) Rs. 735 for the construction of the approach roads to the Singla and Rangit Ferries.

In view of these figures, the Lieutenant-Governor considers that the revised estimate of expenditure for the year 1890-91 cannot safely be placed at a lower figure than Rs. 34,045. The estimates of receipts and expenditure for 1891-92 are accepted, but the opening and closing balances of the year will stand at Rs. 5,900 and Rs. 5,405 respectively.

The *Wahabee Fund* closed the year 1890-91 with a balance of Rs. 1,570. In Government order No. 2272, dated the 6th May 1891, the whole of the balance at credit of the Fund has been granted for the purpose of meeting, as far as possible, the expenditure incurred by the Municipal Commissioners of Patna in connection with the preparation of the drainage and water-supply schemes for the town. The Fund will now be closed.

6. The Miscellaneous Funds comprise "The Zoological Garden Fund," "The Christian Burial Board Fund," "The Mahomedan Burial Board Fund," and "The Mohsin Endowment Fund." The Accountant-General's estimates of the *Zoological Garden Fund* and the *Christian Burial Board Fund* are accepted. The receipts of the *Mahomedan Burial Board Fund* are estimated at Rs. 5,638, and the

disbursements at Rs. 5,676. The Fund is estimated to close the current year with a deficit balance of Rs. 105, but in order to cover this deficit, the grant from Provincial revenues will be raised from Rs. 1,638 to Rs. 1,743.

Since the submission of the budget, the Accountant-General has reported that the estimate of expenditure on account of Public Works for 1891-92, debitable to the *Mohsin Endowment Fund*, has been raised by the Public Works Department from Rs. 12,500 to Rs. 21,800. This includes a grant of Rs. 10,552 for the construction of a new building required for the students of the Arabic and Persian classes attached to the Rajshahye College. The revised estimate has accordingly been adopted, and the estimated balance at the credit of the Fund reduced from Rs. 32,573 to Rs. 23,273.

7. The Accountant-General has adopted the estimates of the *Cantonment Funds* as passed by His Excellency the Commander-in-Chief except in the case of the Dum-Dum Cantonment Fund, the estimate of expenditure in which has been raised from Rs. 9,065 to Rs. 9,804. The increase is under the sub-head "Hospitals and Dispensaries," and is due to increase in establishment subsequently sanctioned by His Excellency. The Accountant-General's figures are accepted.

8. In accordance with the foregoing remarks, the estimates of receipts and expenditure of the Excluded Local Funds for the year 1891-92, will stand as follows:—

THE Lieutenant-Governor has learnt with pleasure that the Maharajah of Durbhunga has made a donation of Rs. 1,500 in aid of the funds of the Behar Sanskrit Sanjivan Sabha, and desires officially to recognize the liberality and public spirit of the donor.

ORDER.—Ordered that a copy of this Resolution be published in the *Calcutta Gazette*, and that a copy of it be forwarded to the Director of Public Instruction for information and communication to the donor.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

Offg. Secretary to the Govt. of Bengal.

RESOLUTION ON THE REPORT ON THE LUNATIC ASYLUMS IN BENGAL FOR THE YEAR 1890.

MUNICIPAL DEPARTMENT—MEDICAL.

Darjeeling, the 10th June 1891.

RESOLUTION No. 113T.—M.

READ—

The Report on the Lunatic Asylums in Bengal for the year 1890.

Read also—

The Report for the year 1889, and the Resolution recorded upon it.

As in previous years, the report deals separately with the five native asylums at Dullunda, Dacca, Patna, Cuttack and Berhampore, and the European Asylum at Bhowanipore. The number of persons detained in the five native asylums on the 1st January 1890 was 987. During the year 199 persons were admitted and 22 readmitted, 117 persons were discharged either cured or otherwise, and 70 died, leaving 1,021 persons under detention at the close of the year, a larger number than in any previous year. The criminal lunatics increased in number from 440 to 465, and the non-criminal from 547 to 556. The daily average of inmates was 1,007·30 against 972·63 in the preceding year, and the percentage of recoveries on the daily average strength was 8·53 against 9·45.

2. As at present calculated, the asylums provide accommodation for 1,019 patients. The maximum number of lunatics in confinement during any one night of the year was 1,063. Dr. Hilson considers that the capacity of the asylums has been under-estimated, and that this number does not necessarily imply overcrowding. There was, however, during the year some overcrowding among the male inmates of the Berhampore Asylum, which was relieved by the transfer of 12 lunatics to Dullunda, while at Dullunda it was found necessary to empty some of the male wards for the accommodation of old women. During the year two wards and two cells have been added to the Cuttack Asylum, and steps are being taken to increase the accommodation at Berhampore and Dacca.

3. In his report for the year 1889, the Inspector-General of Civil Hospitals discussed the question of the increase in the criminal population of the asylums in Bengal, and showed that the proportion of criminal lunatics admitted to the asylums in Bengal was far higher than that of the other provinces. He was desired to follow up the question, and ascertain in what respect the rules of admission and discharge of criminal lunatics in other parts of India differed from those in force in Bengal. The present report contains no additional information on the subject. Dr. Hilson appears to consider (1) that lunatics are sent to the asylums when guilty of very trivial offences which might have been overlooked, (2) that more latitude might be allowed to the official visitors in recommending release. As to the second point, the Lieutenant-Governor will be glad to consider any specific suggestions which Dr. Hilson may wish to submit for the modification of the rules regarding release of lunatics, which were issued with the Resolution of this Government, dated 21st August 1888. As to the former point, the Lieutenant-Governor desires that a statement should be included in the next report, showing, with regard to each criminal lunatic admitted during the year 1891, the crime with which he was charged. It is only by such an examination of details that it can be ascertained whether lunatics are sent to asylums whose confinement is not required by the public safety.

4. The method of classifying the different forms of insanity underwent revision during the year, with the object of securing some uniformity of classification; but, as pointed out by the Inspector-General, it is impossible to expect absolute accuracy and uniformity, since the diagnosis depends almost entirely on the views held by individual Superintendents. It is well known how prone some persons are to conceive ganja a fertile cause of insanity, while others consider it a rather innocuous kind of stimulant. Thus the Superintendents of Dullunda and Dacca have attributed 23 and 14 admissions, out of a total of 39 and 27 cases respectively in which the cause of insanity was known, to ganja; while the Superintendents of Cuttack and Berhampore have only

attributed to that cause 2 admissions each out of 6 and 12 cases of which the history was available. It is worthy of notice that, while ganja-smoking and spirit-drinking are the alleged cause of 56 and 7 cases of insanity respectively among the admissions of the year, opium-smoking is held responsible for none, and opium-eating for only 2 cases.

5. The health of the inmates of the asylums during the year was exceptionally good, the daily average sick for the whole province being 58 against 69·55 in 1889. Cholera was completely absent from the asylums, and beyond a few cases of small-pox and chicken-pox at Dullunda, Berhampore and Patna, and the prevalence of influenza at the two last-named asylums and Dacca, there was no visitation of any serious epidemic disease. The mortality was 69·4 per mille on the daily average strength, which is the lowest death-rate on record for the past seven years. There were 69 deaths, the largest number of which were due to the following causes:—Dysentery 14, lung disease and pneumonia 19, fever 3, anæmia 6, influenza 3, apoplexy 2. The death ratios to daily average strength were—Dullunda 35, Dacca 115·5, Patna 60·5, Cuttack 77·9, Berhampore 67. Dullunda, Patna and Berhampore show better ratios than in the preceding year. A large portion of the heavy death-rate at Dacca was due to dysentery, the patients having, it is said, been first weakened by influenza.

6. The record of injuries, accidents, and escapes during the year compares unfavourably with that of the previous year. The Dullunda Asylum heads the list with nine cases of injury, of which two were of a serious nature, seven accidents and four escapes, in two of which the lunatics were recaptured. Dacca follows with seven cases of injury, four of which were severe, and two escapes, the lunatics in both instances having been recaptured. Next in order comes Berhampore with one case of injury, which terminated fatally, and three accidents, and Patna with one case of injury and two accidents by lunatics falling from trees. In Cuttack alone was there no case of injury, accident, or escape. The Lieutenant-Governor agrees with the Inspector-General that though it is impossible to prevent a certain proportion of the lunatics from injuring themselves, the number of these occurrences is still larger than it should be, and trusts that the Committee appointed to examine the system of guarding lunatics in asylums may be able to suggest improvements which will lead to better results in future.

7. The total income of the year is shown in Statement IX as Rs. 81,733, against an expenditure of Rs. 91,690, the corresponding figures for 1889 being Rs. 80,614 and Rs. 91,526. The details are as follow:—

Income.

		1889.	1890.
		Rs.	Rs.
1.	Received from treasury	65,249	64,848
2.	Ditto paying patients	1,450	1,315
3.	Ditto Manufacture Department ...	13,915	15,570
4.	Total ...	80,614	81,733

Expenditure.

5.	Establishment, proper	18,509	18,054
6.	Superintendence	18,637	16,493
7.	Diet	21,491	22,745
8.	Clothing and bedding	790	563
9.	Bazar medicines	104	71
10.	Contingencies	4,018	3,659
11.	Repairs	761	208
12.	*Total drawn from treasury*	*64,310*	*61,793*
13.	Manufacture Department	13,915	15,570
14.	On account of paying patients	1,450	1,315
15.	Public Works Department	10,224	9,342
16.	Rates and taxes	935	3,033
17.	Printed forms, &c.	81	84
18.	English medicines	606	530
19.	Watchmen for paying patients ...	5	22
	Total ...	91,526	91,689

In order to balance the two sides of the account, allowance must be made for the fact that the charges under the heads of Public Works Department, item 15, are met from the budget of that Department, and those for printed forms and English medicines, items 17 and 18, represent inter-departmental transactions in which no money passes. They should, therefore, either be shown separately or entered on both sides of the account, so as to bring about a formal equilibrium. If to item 12 are added items 16 and 19, the total is equal to item 1, Received from Treasury, Rs. 64,848.

Items 2 and 14.—The arrangement under which the receipts from paying patients appear on both sides of the account seems to the Lieutenant-Governor to be misleading and to tend unduly to swell both the income and the expenditure of the department. It is of course desirable that the amount of such receipts should be readily traceable in the accounts; but this can be attained by showing them as income and making a proportionate reduction in the amount drawn from the treasury, while on the expenditure side charges incurred against these receipts will necessarily be distributed over several different heads. It is observed that these receipts fell during the past year from Rs. 1,450 to Rs. 1,315. Every effort should be made to compel the relatives who are well off to pay for the maintenance of lunatics in the asylums.

Items 3 and 13.—For the purpose of showing the work of the Manufacturing Department a sum of Rs. 15,570 has been added to both sides of the account, being shown on the receipt side as "value received from the Manufacture Department," and on the other side as cost of food, articles of clothing, medicine, repairs and contingencies; these being articles grown or manufactured or work done by the lunatics. This procedure is stated by the Inspector-General to be in accordance with the orders of the Government of India, dated the 7th November 1890. It is, however, not altogether clear that these orders have been correctly understood, and in any case the Lieutenant-Governor is disposed to think that the practice followed in the Jail Department accounts is preferable, where the prescribed statements deal only with actual expenditure, and show nothing but the cash outlay on manufactures and the cash receipts from sales, credit being separately taken in the report for any other profits, *i.e.*, any lessened expenditure on diet, repairs, &c., caused by the labour of the patients. The Government of India will be addressed on the subject and fuller instructions will be asked for.

Items 5 and 6.—There has been a reduction in the cost of establishment, especially in the allowances to Superintendents of Asylums, and a still further decrease is expected to be shown in the accounts of the current year from reductions which took place towards the end of 1890. The monthly cost of establishment has been reduced at the Dullunda Asylum from Rs. 953 to Rs. 793, at Dacca from Rs. 743 to Rs. 529, at Patna from Rs. 711 to Rs. 703, at Cuttack from Rs. 277 to Rs. 177, and at Berhampore from Rs. 769 to Rs. 505.

Item 16.—The increase in the cost of this item has been heavy. The details are as follows:—

Asylum.	Rates and taxes.		
	1888.	1889.	1890.
	Rs.	Rs.	Rs.
Dullunda	...	...	2,676
Dacca	...	850	...
Patna	...	...	108
Cuttack	11	...	45
Berhampore	63	84	204
Total ...	73	934	3,033

A report should be submitted showing the grounds for this rise in taxation, which *primâ facie* appears to be excessive. It is stated in paragraph 29 that the Dacca taxes for 1890 were not paid till after the close of the year; their amount should be included in the report now called for.

The actual expenditure on the lunatics (items 12, 16, and 19) appears to have been Rs. 64,848 against Rs. 65,249; or, including the Public Works Department charges, Rs. 74,190 against Rs. 75,473 in 1889. Calculated on the first set of figures, the average cost of a patient in 1890 was Rs. 64-6-6 against Rs. 67-1-4 in 1889.

The total population of the European Asylum at Bhowanipore during the year was 48 against 45 in 1889. Of this number, 33 were under detention on the 1st January 1890, and 15 were subsequently admitted, two of whom were criminal lunatics. During the year 6 patients were discharged cured, 2 were deported to Europe, 3 were transferred to the care of friends, and 3 died, leaving 34 under detention at the close of the year. The daily average strength was 34·50 against 31·29 in 1889. There was no want of room in the male wards, but there was a certain amount of overcrowding among the females. The extension of the female wards, which is now being undertaken, will, however, remove any inconveniences which have hitherto been felt. The health of the inmates of the asylum was good, all of them having gained in weight after admission. There were no cases of accidents, injuries, or escapes. The Inspector-General considers that the management of this institution is in all respects excellent. The average expenditure per lunatic is, however, high, and although this is in some measure explained by the small number of inmates, it is hoped that reductions may be found possible. The question of the admission of pauper lunatics, referred to by the Inspector-General in paragraph 46, should be made the subject of a separate reference. If the lunatics are strictly Europeans, Eurasians or foreigners, it does not seem possible that they should, as Dr. Hilson suggests, be provided for in the native asylums.

9. The thanks of the Lieutenant-Governor are due to Dr. Hilson for his concise report, and for the punctuality with which it is submitted. There are, however, several changes which the Lieutenant Governor would like to see carried out in the next report. There should be a complete separation in the population statistics between criminal and non-criminal lunatics. The offence charged against each criminal lunatic admitted in the year should be shown in a tabular statement, and a distinction should be made between (1) those who have been tried and acquitted on the ground of insanity under section 471 Criminal Procedure Code; (2) those who have been found to be incapable of making their defence and have been dealt with under the second clause of section 466, Criminal Procedure Code; and (3) those who being already in Jail become insane there and are removed to an asylum under section 31, Act V of 1871. In Statements I, II, VI, and VII the total for the province should be shown, as well as the figures for the five asylums, and it seems probable that the statements relating to sickness and death, as well as the financial statements, might be improved by an imitation of the tabular forms adopted for the reports of the Jail Department. Dr. Hilson is invited to put himself in communication with Dr. Lethbridge with a view to considering the suggestion. If further inquiry shows that there is room for improvement in this direction, the matter will be represented to the Government of India by whom the forms used in the report were originally prescribed.

10. His Honour notices with satisfaction the commendatory terms in which the Inspector-General of Civil Hospitals is able to speak of the work of the Superintendents of the Asylums and their subordinates.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Offg. Secretary to the Govt. of Bengal.

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph and from observations made at 6h, 10h, 16h and 22h.

The maximum and minimum temperatures are obtained from self-registering thermometers. All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph.

The mouth of the rain-gauge is one foot above the ground.

o, overcast; g, gloomy; d, drizzling rain; p, passing temporary showers; t, thunder; ▲, dew.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The *humidity* of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear *sky* is denoted by 0 and an overcast *sky* by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

Explanation.—.....indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

Calcutta, *the 16th June* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING SATURDAY, THE 13TH OF JUNE 1891.

DURING the previous week a very moist air current had been brought up from the Bay by the action of a small storm, and fairly general and rather heavy rain had been received in almost all districts. The present week has witnessed the gradual but almost complete withdrawal of the rain-bearing current and the practical re-establishment of hot weather conditions in Bengal and Behar. On the 7th pressure was rising slowly and had become generally slightly above the normal; temperature was rising rapidly, the increase in some instances equalling 5° and 6,° though still temperature was below the normal by small amounts. Winds were practically unchanged in direction, and fairly strong winds were blowing, varying from southerly, though south-easterly, to easterly. The rainfall reported on the 7th was not at all general excepting in North Bengal and parts of North Behar, where in some cases heavy falls were received, Gopalgunge and Bagaha reporting more than four inches and Dinhatta more than three. On the 8th a rapid fall of pressure of about a tenth of an inch took place, accompanied by the setting in of westerly winds in Chutia Nagpur and Orissa, while south-westerly winds were even reported as far to the east as Sibsagar, so that winds were more westerly than they had been for about six weeks. It is also probable that there was a considerable amount of interaction taking place with the easterly and south-easterly winds which were still blowing over a large part of the province. General, and in many cases heavy, rain was reported on the 8th from Orissa, South-West Bengal and East Bengal, and numerous showers from other districts. Falls exceeding five inches were reported from Kishoregunge and Netrokona, and of about two and-a-half inches and upwards at Calcutta, Maliara, Jamalpore, Durgapore, Dewangunge, and Rajauli. On the 9th a further fall of pressure took place, and pressure became about a tenth of an inch below the normal at the eastern and half this amount at the western stations. Over the southern half of the province winds were very irregular in direction on this day, while easterly winds were still blowing at the northern stations. Again, fairly general rain was reported on the 9th from South-West and East Bengal and rather numerous falls in other districts, and falls exceeding four inches were registered at Balarampore, Naraingunge, and Furreedpore. On the 10th the changes of pressure were small, but winds were decidedly abnormal, northerly and north-easterly winds blowing over the eastern half of the province and westerly and south-westerly winds over the western half. On the 10th rainfall had almost entirely ceased in South-West Bengal, but in East Bengal heavy rain was falling, and there were also numerous and rather heavy showers in other districts. On the 11th pressure fell by about a twentieth of an inch and became very uniform over the province, winds became decidedly more westerly, and rainfall was mainly confined to a few showers in East and North Bengal. On the 12th a fall of pressure of nearly a tenth of an inch took place at the western stations, and pressure generally became about a tenth of an inch below the normal. Temperature commenced, on the other hand, to rise rapidly by about 2° or 3°, and winds were a little less strongly westerly. On the 12th rainfall was practically absent except in the north of the province, and the amounts were generally small. Finally, on the 13th the pressure changes were a little irregular, though temperature continued to rise by about 2° or 3°, and the rainfall on this day was practically entirely confined to North Bengal. It will be seen, therefore, that practically throughout the week the rainfall-bearing current has been steadily driven back from the province, until at its close there was practically no general rainfall at all, and the only rain reported was in and near the hills of North Bengal. In the Bay throughout the whole of the week a fairly strong monsoon has been blowing, but the heavy rainfall brought by it has only reached as far as Burma and for one day as far as Akyab.

Pressure—Has therefore been falling pretty steadily for the last six days of the week, and the mean pressure has been below the normal by amounts which generally average between five and eight hundredths of an inch. The defects, however, are smallest in the west of the province, in Orissa, and in parts of Behar and Chutia Nagpur, where they equal only one to three hundredths of an inch; while, on the other hand, they are largest in Assam, where they average nearly eight hundredths of an inch.

Temperature—Was rather largely in defect of the normal at the beginning of the week, but it rose rather rapidly on the first two days and again on the last two days of the week. The mean temperature for the whole province for the week has, however, been 1·1° below the normal. The defect has been largest and indeed mainly confined to Behar, where it equals 3·6°. A defect of about 1° has also been registered in South-West Bengal; but, on the other hand, Orissa and East and North Bengal shew slight excess temperatures. In Assam a defect of 0·5° has been registered.

Rainfall—Has in all districts been rather largely in defect of the normal, the defect ranging from about 15 per cent. in North Behar and 20 per cent. in East Bengal to about 63 per cent. in Orissa and Chutia Nagpur. In East Bengal a fall of 4·72 inches was received, or rather more than an inch below the normal. In North Bengal the fall has averaged 2·56, or nearly two inches in defect. In North Behar the fall has equalled two inches, or a third of an inch in defect, and in South-West Bengal the fall has been 1 66 inches, or 0·85 inch in defect. In South Behar the fall has averaged 1·14 inches, or half an inch in

defect, and in Chutia Nagpur the fall has been 0·70 inch, or no less than 1·17 inches in defect. The smallest fall has been in Orissa, which has received 0·60 inch, or 1·08 inches less than the normal.

In Assam, Silchar has received during the week 5·89 inches of rain, Dhubri 1·98 inches of rain, and Sibsagar 0 77 inch of rain.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 13th of June 1891 :—

MEMORANDUM.

Weekly statistics of births and deaths in twenty-seven of the principal towns of Bengal for the week ending with Saturday, the 30th May 1891.

BIRTHS.

THE total births registered during the week ending with Saturday, the 30th May 1891, in twenty-seven principal towns of Bengal, amounted to 370, and correspond to an annual rate of 17·9 per 1,000 of the aggregate population of those towns, which is 1,072,359. This rate is 2·4 higher than the average rate of the corresponding week of the past five years, and is also higher than the rate of the corresponding week of any of the past five years with which comparison is instituted, *vide* the figures below—

PART IA.

Orders and Notifications by the Government of India, &c.

[*Reprinted from the "Gazette of India."*]

The following order, issued by the Government of India in the Public Works Department, is republished for general information.

JOHN EDGAR,
Chief Secy. to the Govt. of Bengal.

NOTIFICATION.

Simla, the 10th June 1891.

No. 214.—The Governor-General in Council is pleased, under the provision of section 7 of the Indian Telegraph Act, XIII of 1885, to order the following Rules and Rates for Inland and Foreign Telegrams to have effect from the 1st July 1891.

SECTION. I.

GENERAL.

1. Telegraph Offices in India are distinguished as follows :—

(*a*) *Government Telegraph Offices.*—These include the Telegraph Departmental Offices and Postal Combined Offices.

(*b*) *Railway Telegraph Offices.*—These include State Railway Offices and Railway Offices not the property of the State, which are licensed for working under Section 4, Act XIII of 1885. Under this head are also included Telegraph Offices on Canals.

2. *Business hours.*—Telegrams are accepted at all Government Telegraph Offices during the hours they are open for business according to their classification notified in the List of Offices published in the *Telegraph Guide.*

II. Telegraph Offices of the 1st class are open day and night.

III. Telegraph Offices of the 2nd class are open 14 hours daily, or from 7 A.M. to 9 P.M. (local time), except on Sundays, Christmas Day, New Year's Day, Good Friday and the Queen's Birthday, when they are open only from 7 to 9 A.M., and from 4 to 9 P.M. These hours are subject to modification to suit local requirements.

IV. Telegraph Offices of the 3rd class are open about seven hours daily, and usually from 10 A.M. to 5 P.M. (local time), except on Sundays, Christmas Day, New Year's Day, Good Friday and the Queen's Birthday, when they are open only from 7 to 9 A.M. and 4 to 6 P.M. These hours are subject to modification to suit local requirements.

V. Railway Telegraph Offices accept telegrams at such hours as they may be open for business, but always subject to the necessities of Railway traffic.

3. Telegram forms are supplied free at all Telegraph and Post Offices.

4. *Translation of telegrams.*—At Telegraph Offices in places other than the Presidency towns and Rangoon, every assistance possible is to be afforded to natives in the translation of their telegrams into English, and of telegrams in English addressed to them into the Vernacular.

5. *Complaints.*—All complaints should be addressed *to the Superintendent of the Check Office, Government Telegraph Department, Calcutta.*

SECTION II.

RULES FOR INLAND TELEGRAMS.

General.

1. *Definition, &c.*—Inland telegrams are those which are sent to or received from places within Indian limits. Such telegrams are subject to the regulations laid down from time to time by the Government of India.

2. The accuracy of telegrams is not guaranteed, and the Sender and Receiver must accept all risks arising from non-delivery, errors or delays.

3. *Offices where accepted.*—Inland telegrams are accepted at all Telegraph Offices in India, also at all Post Offices, except some Branch Offices.

4. Post Offices in telegraph connection with other Telegraph Offices are called *Postal Combined Offices.*

5. Post Offices which are not in telegraph connection with Telegraph Offices, but which receive Inland telegrams and despatch them by post to a Telegraph Office, are called Postal Receiving Offices. Such telegrams are sent registered and postage-free by first post.

6. Inland telegrams may also be posted to the nearest Telegraph Office, together with Telegraph or Postage stamps sufficient for their payment, and in this case a receipt for the amount will be returned post-free to the Sender. In the case of a telegram sent by post to a Telegraph Office with an insufficient number of stamps, the deficiency will be recovered from the Addressee.

7. *Railway Offices.*—A telegram can be sent from any Government Telegraph Office to any Railway Telegraph Office, or *vice versâ*, without additional charge.

8. *Objectionable telegrams.*—Telegraph Offices are required to refuse to transmit any telegram which may be of a decidedly objectionable or alarming character. Should the character of a telegram be open to doubt, the matter shall be referred to a Secretary to Government if the telegram be tendered at a seat of Government, or to the chief Civil or Military Officer if tendered at another place.

9. *General Division.*—Inland telegrams are divided into the following :—

(*a*) State (or Government) telegrams (Rules 23 to 28).
(*b*) Service telegrams (Rule 29).
(*c*) Private telegrams.

Note.—State telegrams have no priority over Private telegrams, and take their turn with the latter according to class (Rule 45) in the order in which tendered.

MODE OF WRITING, &c.

10. *Characters.*—Inland telegrams must be written legibly in characters which have their equivalents in telegraphic signals. These characters or signals are the following :

(*a*) *Letters.*

A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z.

(*b*) *Figures.*

1, 2, 3, 4, 5, 6, 7, 8, 9, 0.

Note.—There are no telegraphic signals for Roman numerals, such as *I, II,* &c.

(*c*) *Stops and other signs.*

Full-stop (.), Comma (,), Semicolon (;), Colon (:), Note of interrogation (?), Note of exclamation (!), Apostrophe (’), Hyphen (-), Brackets or signs of a parenthesis ( ), Inverted commas (“ ”), Bar of division (/), Underline.

(*d*) *Conventional signs.*

RP	...	...	Reply-paid telegram (Rule 82).
TO	...	...	Collated or repeated telegram (Rule 91).
CR	...	...	Telegram with Advice of delivery (Rule 92).
RO	...	...	Telegram to be delivered open (Rule 63).
MP	...	...	Telegram to be delivered into the hands of the Addressee himself (Rule 62).
BPD	...	...	Boat paid (Rule 76).
BPDN	...	...	Boat paid double (Rule 76).

11. *Language, &c.*—Subject to the above limitation, telegrams may be sent in English or in the Vernaculars, or in any foreign language, or in cipher if written in Arabic numerals. Fictitious words, *i.e.*, words not recognised in any language (such as *Anglerlog, Brutaster,* &c.), and wrongly spelt words, are inadmissible.

Note.—Groups of letters not forming words (“ Letter cipher ”) cannot be transmitted in private telegrams unless they represent Trade or Commercial marks, or are among the abbreviations sanctioned by Rule 43.

12. *Legibility and forms.*—To secure accuracy and rapidity of transmission, Senders of telegrams are advised to write them in a clear and unmistakeable hand, and on the proper forms, which can be obtained free of charge at all Telegraph and Post Offices. Telegrams written on plain paper are, however, accepted at all offices.

Note.—Books containing 100 forms for Inland telegrams with counterfoils can be purchased at the principal Government Telegraph Offices. (Price 4 annas each.)

13. *Erasures, &c.*—Every interlineation, reference, erasure, or alteration of words must be authenticated by the Sender of the telegram or by his representative.

14. *Parts of a telegram.*—The different parts of which an Inland telegram is composed should be written down as follows :—

(*a*) Special instructions (if any).
(*b*) The address.
(*c*) Name of office of origin.
(*d*) Sender’s name.
(*e*) The text.

15. *Special Instructions.*—The Sender must write upon the form* his Special Instructions (if any) regarding delivery at destination, prepayment of reply, advice of delivery, collation (or repetition), open delivery or delivery only to the Addressee himself, &c.

16. In the case of a Multiple telegram, the Special Instructions which concern each Addressee should be written immediately before his name.

17. These Special Instructions should be written in the abbreviated forms given in Rule 10(*d*) and between signs of parenthesis, and are not charged for.

Note.—Examples to illustrate the application of these rules about the Sender's instructions will be found in Rules 62, 63, 76, 82, 91, 92, &c.

18. *Address.*—The Address includes the Addressee's name and address and the name of the Office to which the telegram is to go. Care should be taken that the latter is written as given in the List of Telegraph Offices published in the *Telegraph Guide*. The Address must contain all the information necessary to ensure delivery without search or enquiry. The Sender in all cases has to bear the consequence of insufficiency in the Address, which, after the telegram has been despatched, can neither be completed nor altered, except by a paid Service Advice (Rule 79).

19. The Addressee's name and address may be written in a preconcerted or abbreviated form. However, in order that a telegram so addressed may be delivered, the Addressee must have registered the Abbreviated Address at the Telegraph Office to which the telegram is addressed (Rule 69).

20. *Sender's name.*—This means the actual name or designation of the Sender. Name and designation cannot both be admitted unless it would otherwise be obviously impossible for the Addressee to identify the Sender. A telegram cannot be sent by several persons in their separate names; it must be in the name of only one individual or firm; it may, however, be sent by a party acting jointly having a recognized collective capacity, but the designation or style of such party must be used, not their several names. If the Sender of a telegram desire his own address to be telegraphed, it must be paid for. The Sender's name and address may, however, be transmitted free in a preconcerted or abbreviated form if registered under Rule 69.

21. *Text.*—No private telegram or series of telegrams containing more than five hundred words can be sent at any one time by any individual or firm, and no subsequent telegram by the same individual or firm till after the lapse of three hours, unless the telegraph lines be free of all other traffic.

Note.—Regarding the length of Press telegrams, *see* Rule 110.

22. *Signature.*—The true signature and address of the Sender must always be written at the foot of the telegram. The sender of a Private telegram can always be called upon to prove that the signature attached to it is genuine.

STATE TELEGRAMS.

23. *Definition.*—A State telegram is defined to be one sent by an official of the British Government on British Government business.

Note.—Municipal Commissioners and the officials and servants of a Municipality or of a Guaranteed or Private Railway are not entitled to send State Telegrams, nor are the officials and servants of Native States.

24. *Principles to be observed.*—The Government of India has laid down the following principles to be observed in State telegrams, but their application rests with the Sender, not with the Telegraph Official:

"(1) When it is not necessary that a reply (by post or wire) should be despatched within office hours of the same day, the message should be sent 'Deferred.' (2) When it is considered essential that the reply should be sent the same day, the message should be sent 'Ordinary.' (3) 'Urgent' messages should be used only—(*a*) in cases of real emergency; (*b*) in cases where the despatching officer knows that the line is blocked, and considers his message sufficiently important to take precedence of ordinary traffic. (4) Telegrams should, except when extreme precision is important, be expressed in as few words as are consistent with clearly conveying the intended meaning; and mere auxiliary or connective words, which can obviously be filled in by the receiver, should be omitted."

25. *Payment, &c.*—State telegrams must be marked *State* by the Sender, and as a rule paid for in cash or stamps prior to despatch. The charges are the same for State as for Private telegrams. The rule regarding prepayment will be relaxed in case of great emergency. Whenever an Urgent or Ordinary State telegram is tendered for transmission under this permission, the Sender must take the necessary steps to ascertain the charges on it, and pay them into the Telegraph Office within 24 hours. The rule cannot be relaxed in case of Deferred State telegrams.

26. *At Railway Offices.*—State telegrams are not accepted at Railway Offices at places where there is also a Government Office, except in cases of emergency or when the Sender's Office or residence is much closer to a Railway Office than to a Government Office.

27. *Abbreviated titles.*—In Inland State telegrams abbreviations of the titles of Government Officials are used. A list of the abbreviations sanctioned is published in the *Telegraph Guide*.

28. *Clear Line Telegrams.*—On emergent occasions of great importance, the public functionaries named below have power to "clear the line" within Indian limits, *i.e*, to suspend the receipt and despatch of all telegrams until the one for which the line is cleared is passed on:—

(1) The Governor-General of India.
(2) The Governors of Madras and Bombay.

* In the space marked *Official Instructions.*

(3) Commanders-in-Chief, India, Madras, and Bombay.
(4) Lieutenant-Governors of Bengal and the Punjab, Lieutenant-Governor of the North-Western Provinces, and Chief Commissioner of Oudh.
(5) Secretaries to the Government of India.
(6) Secretaries to the Governments of Madras, Bombay, Bengal, the North-Western Provinces, and the Punjab.
(7) Chief Commissioners of the Central Provinces, British Burma, and Assam.
(8) Agents to the Governor-General, Rajputana, Central India, and Baluchistan.
(9) Commissioners of Sind and Peshawar.
(10) The Residents at Hyderabad (Deccan) and Mysore.
(11) The Maharaja of Patiala from the Patiala Office only.
(12) Director-General of Telegraphs.

The telegrams so sent are, however, to be paid for as other State (Urgent) telegrams. The words *Clear Line* should be written before the Text.

SERVICE TELEGRAMS.

29. *Service telegrams* are the following :—

(*a*) Those on the service of the Government Telegraph and Postal Departments, which are sent free to and from any Telegraph Office, except in the cases specified in Rule 79.

(*b*) Those sent free on the service of certain Foreign Governments, regarding which the Government of India defines special rules in each case.

COUNTING WORDS.

30. *Chargeable words*.—All that the Sender writes in his telegram to be transmitted is included in calculating the charge, with the exception of the Special Instructions referred to in Rule 15, the address (as defined in Rule 18), the name of the Telegraph Office of origin, and the Sender's name or designation. No other words can be transmitted unless paid for as part of the Text, and Telegraph Officials are authorized to omit from the Address any words not essential for the correct delivery of the telegram.

31. Words, numbers, and signs added by Telegraph Officials for official purposes are not charged for. The day, hour, and minute (Madras time) at which a telegram is booked, when tendered for despatch, are added by the Telegraph Office, and telegraphed free. Senders may date or time their telegrams if they desire, but in such case their dates or times will be charged for.

32. The maximum length of a word is fixed at six syllables. The excess is counted as a word.

33. Every isolated character, letter, or figure is counted as a word. The same applies to an underline.

34. The initials of persons and such abbreviations as *B.S.C.* or *R.A.* are treated as isolated letters, however written by the Sender.

35. Expressions joined by a hyphen are counted according to the number of words which serve to form them.

36. Words separated by an apostrophe are counted as so many isolated words, unless they are nouns in the possessive case, as *General's*, *Charle's*, *brother's*.

37. *Compound words*.—Any compound word properly so called, which is generally recognised as such, and can on occasion be shown in a dictionary to be written as a single word (*i.e.*, joined up without a hyphen or apostrophe), is charged as a single word when so written (*i e*, joined up without hyphen or apostrophe), provided that the whole is of six or less than six syllables. *Halfpenny*, *twopence*, *threepence*, &c., up to *elevenpence*, when written as a single word, count as one word only. The following are examples of admissible compound words :—*Rapeseed*, *Gingellyseed*, *Sheepskin*, *Cowhide*.

Combinations and alterations of words contrary to usage are not allowed. Nevertheless proper names of towns and countries, family names, names of places, streets, &c., the names of ships, and also numbers written in words, are counted according to the number of words employed by the Sender to express them. All such names and numbers may be written as a single word, and, if so written, will be counted as one word for each six or portion of six syllables—see Rules 33 and 44.

Note.—To avoid error, Senders of telegrams are invited to write numbers in word rather than in figures.

38. Examples of combinations inadmissible as single words : —

Tapestrypatterns.	Sugarrefineries.
Counteroffer.	Pigiron.
Bankaction.	Beerboxes.
Wireanswer.	Dischargingday.
Innerharbour.	Steamercargo.
Boursecredit.	Coastsailing.
Sailinsurance.	Hullsteamer.
Steamcoals.	Allright.
Tuesdaymorning.	Alright.
Wheatcargo.	Motherinlaw.

39. *Figures, Letters, and Trade Marks.*—Numbers written in figures are counted as follows:—The number of words to which a group of figures corresponds is obtained by dividing the number of figures and signs by three and adding a word for the excess, if any. The same rule is applicable to groups of letters not forming words in State telegrams and letters and figures and signs employed as Trade (or Commercial) Marks.

Note.—When Trade marks form part of the Text of a telegram, the Sender should certify them to be such at the foot of the form.

40. *Stops, &c.*—Signs of punctuation, hyphens, and apostrophes are not counted or signalled; but the decimal points and commas used with figures, and also the bars used in expressing fractions, are each counted as a figure, and signalled. The two brackets or signs of parenthesis, which inclose a passage, count as one word for the pair. The pair of inverted commas (double or single) which inclose a passage count also as a word.

41. *Ordinal numbers.*—The letters added to figures to form ordinal numbers are each counted as a figure.

Note.—It is not obligatory to put the conventional number of letters after numbers to convert them into ordinal numbers; thus, *twenty-second* may be expressed by 22*nd*, *twenty-fifth* by 25*th*, &c.

42. *Letter Cipher.*—Groups of letters not forming words ("Letter Cipher") cannot be transmitted in private telegrams.

43. *Abbreviations.*—Common titles, which in their full form are expressed by a single word, such as *Captain*, *Reverend*, and *Esquire*, may be written in their usual abbreviated forms, such as *Capt.*, *Rev.*, and *Esq.*, each of which counts as one word. Similarly common abbreviations of single words, such as *Rs.* (for *Rupees*) and *lbs.* (for *pounds*), are admissible, and count each as one word. *F.O.B.*, *C.F.I.*, *A.M.*, and *P.M*, when written as separate letters, are each counted as three and two words respectively; but these specified abbreviations when written *fob*, *cfi*, *am*, and *pm* are accepted each as one word. The abbreviations *B/L*, *C/O*, and *O/O* are also counted each as one word. No other abbreviations of compound words or expressions, except those specified in this rule, are accepted as one word.

44. *Examples of counting.*—The following examples show how the rules for counting the words are to be interpreted:—

CHARGES.

45. *Classes.*—There are three classes of telegrams—Urgent, Ordinary, Deferred; and the following are the rates of charge for State and Private telegrams between any two Offices in India:—

	Urgent.	Ordinary.	Deferred.
	Rs. A.	Rs. A.	Rs. A.
First 8 words or groups of 3 figures ...	2 0	1 0	0 8
Each additional word or group of 3 figures ...	0 4	0 2	0 1

46. Urgent telegrams receive instant transmission, and have precedence over Ordinary telegrams and the right of special delivery at destination. In cases of life and death, or of extraordinary emergency, an Urgent telegram can be sent from any Office at any time.

47. Ordinary telegrams are transmitted in their turn after Urgent telegrams, and are delivered by messengers between day-break and 9 P.M. (local time).

48. Deferred telegrams are transmitted when the lines are clear of Urgent and Ordinary telegrams, and are usually delivered by post.

Note.—If the delivering Post Office fails to effect delivery of a deferred telegram, but has received written instructions for re-addressing the letters of the Addressee, the Post Master returns the telegram to the Telegraph Office by which it was posted with the requisite information.

49. *Free address, &c.*—The Sender's Special Instructions if in accordance with Rule 17, the Address as defined in Rule 18, the name of the Office of origin, and the Sender's name or designation are transmitted free. No other words can be transmitted free, and Telegraph Officials are authorised to omit from the Address any words not essential to correct delivery.

PAYMENT OF CHARGES.

50. *Charges how paid.*—With the exceptions provided for in Rules 25, 55, and 108, all charges must be prepaid as follows:

(*a*) At Government Telegraph Departmental Offices in Telegraph stamps.

(*b*) At Postal Combined Offices in Telegraph stamps or Postage stamps at the option of the Sender.

(*c*) At Postal Receiving Offices in Telegraph stamps or Postage stamps or in cash at the option of the Sender.

(*d*) At Railway Telegraph Offices in cash or Telegraph stamps at the option of the Sender.

(*e*) Telegrams sent by post to any Telegraph Office from a place where there is no Telegraph Office may be paid for in Telegraph stamps or Postage stamps.

51. Telegraph stamps are double headed. The upper half is returned on the receipt (whereby the Sender receives a guarantee that his telegram has not been suppressed for the sake of the stamps), and the lower half is affixed to the telegram as a voucher to Government that it has been prepaid. The following are the Telegraph stamps in use:—One anna, two annas, four annas, eight annas, one rupee, Rs. 2½, Rs. 5, Rs. 10, Rs. 25, Rs. 50. They can be purchased at all Treasuries and Government Telegraph Departmental Offices.

52. *Affixing Stamps, &c.*—Telegraph stamps must be affixed on the spaces left bank for the purpose on the telegram form—the upper half on the Receipt, the lower half on the telegram—and the Sender should see that the stamps are defaced with the Office stamp which bears the name of the Office and the date. When Telegraph stamps are used only in part payment of the cost of a telegram at a Government Office, as for instance in the case of a telegram paid for partly by a Reply-Pass (Rule 83), or at a Post Office in the case of a telegram paid for partly in Postage stamps, the entire stamps must be affixed lengthways on the telegram and no portion on the Receipt.

53. *Damaged Stamps.*—Telegraph stamps which have been cut in two before being sent into a Telegraph Office, or are in any way defaced, discoloured, or damaged, are not accepted.

The value of damaged Telegraph stamps will ordinarily be refunded on application to *the Superintendent, Check Office, Government Telegraph Department, Calcutta*, if such application be accompanied by a statement of the cause of damage, and if no doubt exists that the damaged stamps are genuine and that the damage was not intentional.

54. Receipts are given for telegrams at all Telegraph and Post Offices, but the upper halves of Telegraph stamps are not returned upon the receipts at Railway Offices in any case, or at other Offices in the cases named in the latter part of Rule 52.

55. *Telegrams from ships.*—Telegrams are sent without prepayment from seaports when received for despatch by mail steamers or other vessels; but no such telegram, prepaid or not prepaid, will be transmitted until the name of the vessel from which it is received is known at the Telegraph Office. Telegrams transmitted without prepayment will not be delivered to the Addressees until they have paid the charges on them.

56. Undercharges made in error and charges and expenses not recovered from the Addressee in consequence of his refusal to pay them, or the impossibility of finding him, must be made good by the Sender.

57. Overcharges made in error are returned. No refund, however, is made of the value of stamps in excess affixed by the Sender unless he applies for it to *the Superintendent of the Check Office, Telegraph Department, Calcutta*, and sends with his application the Receipt granted for the telegram.

CANCELLATION.

58. If the Sender of an Inland telegram wishes to cancel it before transmission has begun, he can do so; but the charges upon it will not be returned if the stamps have been obliterated. If the telegram is in course of transmission, or has already been despatched, it can only be cancelled by a Paid Service telegram (Rule 79), to the Terminal Office. If in addition the Sender wishes to be informed by telegraph in what manner his request has been acted upon, he must deposit the cost of the return telegram; otherwise he is informed by post.

DELIVERY.

59. *Free Delivery.*—Telegrams are delivered free of charge within five miles of a Telegraph Office. Deferred telegrams are usually delivered through the Post Office of the place of destination. Beyond the free-delivery circle, telegrams will be sent by post without charge or (if not Deferred) by such other means as the Sender may arrange and pay for (Rule 100).

60. *Re-addressing.*—Should the Addressee of a telegram have left the place to which it is addressed, it will, if returned unopened with definite instructions as to the new Address, be retransmitted without extra charge. Similarly it will be retransmitted immediately to any new destination, without being sent out for delivery at the first Address, if the Addressee has left written instructions at the Telegraph Office, or if his new Address is known. Inland telegrams are also retransmitted to Ceylon if the Addressee has left for that country, but in that case the full tariff to Ceylon is collected from the Addressee just as it would have been collected from the Sender if the telegram had been addressed to Ceylon in the first instance.

61. *Reply given to messenger.*—Save in the case of a postman delivering a Deferred or other telegram in the ordinary course of postal delivery, the messenger who delivers a telegram may be entrusted with the Reply, provided he be not detained for this purpose more than five minutes. The fact of the Reply having been given to the messenger and the amount paid to him should be mentioned on the receipt given for the original telegram.

62. *Delivery to Addressee himself.*—A telegram taken to place of residence may be delivered either to the Addressee, to any adult member of his family, to any of his employés, lodgers or guests, or to the porter of the hotel or house, unless the Addressee has named in writing a special person, or the Sender has requested by writing on the form* the instructions (*M P*) as in Rule 10 (*d*) that the telegram may be delivered only into the hands of the Addressee himself. In this case the Office at destination writes the request in full form upon the envelope, and gives the necessary instructions to the messenger.

63. *Open Delivery.*—The Sender can also request the telegram to be delivered open by writing on the form * the instructions (*R O*) as in Rule 10 (*d*). This request is reproduced on the copy handed to the Addressee, which is delivered without an envelope, simply folded up with the Address written on the back.

64. *Undelivered Telegrams.*—When an Urgent or Ordinary telegram cannot be delivered, the Office at destination sends a Service telegram to that effect, and the Sender is informed. No such Report is sent in the case of Deferred telegrams unless Reply-Paid (Rule 88).

65. When in consequence of an inexact or insufficient Address, or of the Addressee's absence or refusal, Bearing charges have not been paid at destination, the amount of these charges is mentioned in the Service telegram, and the Sender is bound to make them good.

66. If the messenger finds no one at the Address given who will consent to receive a telegram for the Addressee, a notice is left at the house, and the telegram is brought back to the Office to be delivered to the Addressee, when he claims it.

67. *Telegrams to be kept till called for.*—When the telegram is addressed *to be kept at the Telegraph Office till called for* or *care of Telegraph Office*, or such like, it is only delivered to the Addressee himself or to a person duly appointed by him.

68. *Unclaimed telegrams.*—Telegrams unclaimed under Rules 66 and 67 are not kept over six weeks.

69. *Registered Addresses.*—Any firm or individual expecting to receive Inland or Foreign telegrams can register an Abbreviated Address at the Government Telegraph Office from which such telegrams have to be delivered. The fee for registration of each Abbreviated Address is Rs. 10 per calendar year payable in advance on the 1st January, or Rs. 50 for all time, with an additional fee of Rs. 5 for every change of the word or words selected.

70. An Abbreviated Address may be registered on any date; thus, if on 1st November an Address is registered, ten rupees are charged, and a second charge of ten rupees is made if the Address is renewed on 1st January following. The additional fee of five rupees is charged for every change of the word or words selected, or transfer to another Telegraph Office, but not for change of residence within the delivery limits of the Registering Office, or for change of name or title of firm or person, so long as the identity is the same, and it is not a case of transfer from one firm to another: if it is a case of transfer, a fee of ten rupees is charged.

71. Abbreviated Addresses are considered confidential.

72. No Abbreviated Address can be accepted which has already been registered locally by another firm or individual.

73. The Government Telegraph Department accepts no responsibility in respect of the delivery of any telegram having an Abbreviated Address, if such Address has not been regis-

* In the space marked *Official Instructions.*

tered, or for delay in delivering such telegram. Registration is essential in all cases of persons who frequently receive telegrams addressed to them by an Abbreviated name, and Telegraph Officials can decline to deliver such telegrams if, after notice has been given, the Address has not been registered.

74. For Abbreviated Addresses only real words or names may be registered. Combinations of Christian names and surnames, combinations of parts of two names, combinations of two separate words, misspelt abbreviations of one or more words are all inadmissible.

75. The following are examples of inadmissible compounds:

Granotel for *Grand Hotel.*
Willsmith for *William Smith.*
Brooksons for *Brook and Sons.*
Macmeth for *Macdowell, Methven & Co.*
Fitzpatric for *Fitzpatrick.*

Persons wishing to register Abbreviated Addresses are invited to choose uncommon words, not their own names, to avoid all risk of telegrams being misdelivered to other persons of the same name.

76. *Delivery by boat.*—When an Inland telegram has to be delivered on board a ship which cannot be reached without a boat (*i.e.*, when the ship is not alongside a wharf, pier, or jetty), or at a place which cannot be reached without a boat, the Sender must prepay boat-hire; otherwise the telegram will be handed to the Post Office by the Terminal Telegraph Office for delivery at the Sender's risk. The indication (*Bpd.*) (Boat-hire paid) or (*Bpdn.*) (Boat-hire paid double, if the Sender wants the telegram sent on board at night) should be entered before the Address. * Boat-hire cannot be prepaid on Deferred telegrams, as they are usually delivered through the post. Boat-hire prepaid, but not expended, will be refunded on application being made by the Sender to *the Superintendent, Check Office, Government Telegraph Department, Calcutta.*

II. The following list (which is subject to alteration) gives the amounts to be prepaid as above for boat-hire at certain places:

* In the space marked *Official Instructions.*

† On telegrams addressed to residents in Dalla, the boat-hire is four annas by day and eight annas by night.

77. *Instructions about delivery.*—All instructions which persons leave at Telegraph Offices regarding the delivery or retransmission of their telegrams should be renewed at intervals of at most six months.

RECTIFYING TELEGRAMS.

78. The Sender and the Receiver may within seventy-two hours of despatch or arrival, as the case may be, call for information or give instructions by telegraph regarding a telegram in the course of transmission or already transmitted. They can also, in order to make or obtain corrections, cause a telegram which they have sent or received to be repeated entirely or in part. In all these cases they have to pay the following :—

(*a*) The cost of the telegram making the request.

(*b*) The cost of the telegram for the reply, if a reply by telegraph is wanted.

79. All rectifying, completing or cancelling telegrams, and all communications relating to a telegram already transmitted or in course of transmission, exchanged between Telegraph Offices at the request of the Sender or Addressee, are treated as Service telegrams, but charged for.

80. The charges made for Rectifying telegrams are refunded in full on application (supported by Receipts granted) to *the Superintendent of the Check Office, Telegraph Department, Calcutta*, if the repetition shows that the word or words were transmitted incorrectly at first. However, when some of the words have been transmitted correctly and others incorrectly, the charge is not refunded for the words, which, in the Paid Service telegram making the enquiry and in the Paid Service telegram containing the Reply, point out the words correctly transmitted in the first instance.

81. No refund is made for the telegram which has given occasion to a request for correction, nor are any refunds made for rectifying or completing telegrams exchanged direct as Private telegrams between the Sender and Addressee.

SPECIAL TELEGRAMS.

(*A*) *Replies.*

82. The Sender of a Private telegram or of a State telegram addressed to a person other than a British Government official can prepay a reply, but the payment must not be less than eight annas or more than two rupees, or contain any fraction of an anna. The Sender of a Reply-paid telegram should write the instructions (R P) (see Rule 10 (*d*) followed by the amount paid thus (*R P ten annas*) on the form.* These words are not charged for.

83. At destination the Telegraph Office delivers to the addressee an Order or Pass which entitles him to send free of charge from any Telegraph or Receiving Office in India, and within the limits of the amount prepaid, a telegram to any destination in India. The telegram, if sent, must be accompanied by the Pass.

Note.—A Pass issued for a Reply to an Inland telegram cannot be used to frank a Foreign telegram, or *vice versâ*, nor can a Pass be used to frank a Reply-paid Telegram. Two or more Inland Passes may be used to frank one Inland telegram, but one Pass may not be used to frank two or more telegrams. A Pass cannot be used to frank a telegram on which advice of delivery (Rule 92) is prepaid, nor can Passes be used in payment of Express or other Delivery charges which must always be paid in cash or stamps.

84. When the charge for a telegram paid for by a Pass exceeds the value of the Pass, the difference must be paid in cash or stamps (Rule 50). If, on the other hand, the value of the Pass exceeds that of the Reply, no refund of the difference will under any circumstances be given.

85. The Pass is only available for thirty days (date of issue included), after which it lapses. When the Addressee does not use the Pass, its value will be refunded by *the Superintendent of the Check Office, Telegraph Department, Calcutta*, if application be made within thirty days as above.

86. If the Addressee refuses the Pass, the Office of destination at once sends a telegram to that effect, and the Sender is informed. This telegram takes the place of the Reply paid for.

87. Should it be impossible to effect delivery of a Reply-Paid telegram, the Terminal Office sends a telegram to that effect to the Sender, and the amount deposited will be refunded on application being made to *the Superintendent, Check Office, Government Telegraph Department, Calcutta.*

88. When a telegram to which a Reply is prepaid is addressed to a place where there is no Telegraph Office, the telegram and Pass are forwarded to destination from the nearest Telegraph Office by ordinary post free of charge.

89. It is not compulsory on the Addressee to send a Reply. The duty of the Terminal Office consists simply in the delivery of the Pass for the amount prepaid, and the Addressee is at liberty to do what he pleases with it.

90. The Sender of a State telegram, addressed to a Government official, cannot prepay a reply. And in the case of a State telegram addressed to other than a Government official, any sum deposited by the Sender under Rule 82 must be intended for no other purpose than to cover the cost of a return telegram.

(*B*) *Collated (or repeated) telegrams.*

91. The Sender of any telegram can require it to be "Collated," *i.e.*, repeated back by each Office engaged in its transmission to insure correctness. In this case he must write the

* In the space marked *Official Instructions.*

instructions (*T C*) as in Rule 10 (*d*) on the form.* The charge for this repeating is equal to one-fourth the charge for the telegram. In calculating the charge, fractions of an anna are disregarded.

(*C*) *Advice of delivery.*

92. The Sender of an Urgent or Ordinary (but not of a Deferred) telegram can require that a notice shall be telegraphed to him of the date and hour of its delivery. He should write on the form* the instructions (*C K*) as in Rule 10 (*d*). The charge for such notice or acknowledgment is one rupee. This Advice of Delivery may be addressed to him at any place he may name.

93. If the telegram cannot be delivered, the return telegram indicates the circumstances which prevented delivery, and, if possible, gives the information necessary to enable the Sender to cause his telegram to reach its distination. The Advice has priority in transmission over Ordinary telegrams.

(*D*) *Multiple Telegrams.*

94. *Addressed to one Telegraph Office.*—A telegram addressed to several persons in one locality, or to the same person at several places of residence in one locality, with or without transmission by post, is charged for as a single telegram ; but a copying fee of four annas per 100 words, plus four annas for the excess is charged for each destination after the first.

95. *Addressed to more than one Telegraph Office.*—A telegram addressed to several persons, or to the same person in localities where delivery is to be effected by different Offices, is charged for as so many separate telegrams.

96. If the Sender wishes each copy of the telegram to bear only the Address of the person to whom it is to be delivered, he should write on the form* the word *Addresses*. If, on the other hand, he desires that each Addressee shall be made aware to what other persons the telegram has been addressed, he should write the words *All Addresses on each copy*. In the absence of such special instructions, it will be assumed that he wishes only one Address to appear on each copy. In either case these instructions are not charged for.

97. Replies cannot be prepaid on Multiple telegrams.

(*E*) *Telegrams for places where there are no Telegraph Offices.*

98. Telegrams addressed to places where there are no Telegraph Offices can be sent to destination according to the Sender's request by post. Urgent and Ordinary (but not Deferred) telegrams can also be sent by such other means as the Sender may arrange and pay for.

99. The Address of telegrams to be so despatched should be written as follows :—

(*a*) *John Doe, Esq., Sherghotty. Post Barun.*

(*b*) *John Doe, Esq., Nynan Express Hooghly point.*

The name of the Terminal Telegraph Office is always entered last as in the two examples above.

100. *Express Charges* must be prepaid by the Sender. If the precise amount necessary is not known, the Sender must pay such sum as he thinks sufficient. If this is not found sufficient at the Terminal Office, the telegram is posted.

101. *Postage.*—No charge is made for postage on a telegram addressed to a place in India where there is no Telegraph Office, or to a place out of India to which Indian Inland Postal rates apply : but on a telegram to be posted to a place beyond the limits of the Indian Inland Postal Tariff, six annas must be paid as an additional charge to cover postage and registration.

102. *Inland telegrams posted from Indian Ports.*—Under the last rule Inland telegrams can be telegraphed to any Indian ports to be posted to places beyond Indian limits.

Example—

Address—

Mrs. Johnson, 20, Cambridge Terrace, Hyde Park, London, Post registered Bombay.

From—*W. Johnson.*

Text—*Afraid my letter missed mail. Am quite well.*

The charge for the above telegram is the usual Inland rate according to the Class (Deferred, Ordinary, or Urgent, at Sender's choice), plus six annas for postage, registration, &c.

Note.—Telegrams to be forwarded by post registered are received at the General Post Office, Bombay, up to 11·30 A.M. (Madras time) on Saturdays, the day of sailing of the Homeward Mail.

103. Telegrams as above may also be Multiple, *i.e.*, addressed to more than one person, but in such case the Sender must pay a copying fee (Rule 94) for each additional Address, and also an additional postage and registration fee (six annas) for each. But such telegrams cannot be addressed partly to persons beyond the sea, and partly to persons at the port itself. If the Sender wants a copy delivered to a person at the port itself he must send a separate telegram.

* In the space marked *Official Instructions.*

104. *Inland telegrams posted from Negapatam, &c., for places in Ceylon.*—Inland telegrams can be telegraphed to Negapatam, from which place they are despatched by post to Point Calimere, whence a daily mail boat goes to Ceylon.

Example—

Address—J. *Young.*

From—*W. Collins, Oriental Hotel, Colombo, Post Negapatam.*

Text.—*Start by first steamer.*

The charge for the above telegram is the usual Inland rate according to Class (Deferred, Ordinary, or Urgent, at Sender's choice), and nothing extra is charged for postage.

Note.—Telegrams for places in Ceylon can also be addressed to and posted from Tuticorin, from Pondicherry and from Madras and Bombay, to be despatched respectively by the steamers of the British India Steam Navigation Company (from Tuticorin), of the Messageries Maritimes (from Pondicherry), and of the Peninsular and Oriental Steam Navigation Company (from Madras and Bombay). In the case of Tuticorin, there is no extra charge for postage; in the case of Pondicherry, Madras, and Bombay there is an extra charge of six annas for postage and registration.

105. *Employment of post.*—In case of telegrams for destinations over five miles distant from the Terminal Telegraph Office, that Office has the right to post such telegrams—

(*a*) In the absence of directions in the telegram as to the means of delivery to be employed.

(*b*) Whenever there is an unpaid claim against the Addressee for porterage on a previous telegram which he has refused to pay.

Telegrams for destinations over five miles distant from the Terminal Telegraph Office must be posted by that Office—

(*a*) When such has been the request expressly made by the Sender (Rule 99) or the Addressee.

(*b*) When the Office has no more rapid means of delivery at disposal.

(*F*) *Semaphoric Telegrams.*

106. *Semaphoric telegrams* are telegrams exchanged with ships by means of semaphores.

107. *Semaphore Stations.*—The following are the Government Telegraph Offices which are Semaphore stations:

Achipur.	Elephant Point.
Amherst.	False Point Light-house.
Budge-Budge	Hooghly Point.
Diamond Harbour.	Mud Point.
Diamond Island.	Saugor Island.

108. *Charges, &c.*—The word *Semaphoric* should be written on telegrams* to be so signalled to ships. The charge for Semaphoric telegrams is the usual Urgent or Ordinary charge, plus a fixed fee of eight annas. Semaphoric telegrams cannot be classed Deferred. In case of Semaphoric telegrams addressed to ships, the charges must be paid by the Sender; in case of such telegrams received from ships, the charges must be paid by the Addressee before delivery.

PRESS TELEGRAMS.

109. *Rates.*—The following are the rates charged for Press telegrams:—

	First 32 words or groups of three figures.	Every four additional words or groups of three figures.	REMARKS.
	Rs. a.	Rs. a.	
Urgent	2 0	0 4	Between any two Government Telegraph Offices in India.
Ordinary	1 0	0 2	
Deferred	0 8	0 1	

110. *Conditions.*—A Press telegram to be accepted at Press rates must fulfil the following condition:

I.—It must be addressed to a newspaper the name of which has been registered by the Director-General of Telegraphs. A list of such registered newspapers is published in the *Telegraph Guide.* Applications for the registration of newspapers should be made on forms to be obtained at Government Telegraph Department Offices.

II.—It must be addressed to the newspaper in accordance with its registered title, and to the town at which the newspaper is registered as being printed and published.

III.—It must, except as provided hereafter in condition V, contain only intelligence which is clearly intended for publication in the strict sense of the term, and must not contain commercial news of any kind.

IV.—It must be written in plain English so as to be intelligible to the transmitting Offices, and must contain nothing of concealed meaning either in Preconcerted language or Cipher.

V.—It may also be a telegram sent from or to the newspaper by its registered title (but not in the name of the editor, publisher, manager, or any other person), to or from its

* In the space marked *Official Instruction.*

correspondents or employés on the subject of a telegram published or to be published, or to an official of the Government Telegraph Department on matters of Press business.

VI.—If a Press telegram to addressed to the editor, publisher, manager, or any other person connected with the newspaper by name or designation, it is chargeable at the full Inland rates (*see* Condition II).

VII.—Whenever demanded, a copy of every newspaper in which a Press telegram is published must be furnished to the Telegraph Office from which that Press telegram was delivered.

VIII.—A single Press telegram must not exceed 256 words (8 units of charge). Long news messages must be broken up into separate telegrams, all of which must be numbered, and each of which, except the last, must contain the words *More to follow*. These words and the numbers should be written by the Sender in the space left in the telegram for Official Instructions, and they will not be charged for.

Example.—A long news message of 1,000 words would require at least 4 telegrams numbered in the space set apart for Official Instructions, 1, 2, 3, and 4, and Nos. 1, 2, and 3 would also bear the words *More to follow* in the Official Instructions.

111. The Press telegram rates apply only to telegrams which satisfy all the conditions of Rule 110. and any subsequent claim made by the Government Telegraph Department for the difference between Press and full Inland rates must be satisfied immediately on demand.

112. *Bearing Press telegrams.*—Press telegrams may be accepted Bearing from correspondents, provided that any newspaper which may desire the facility obtains previous special sanction from the Director-General of Telegraphs.

113. *Railway Offices.*—The Press Telegram Rules do not apply to Railway Telegraph systems. Press telegrams at reduced rates cannot be accepted at Railway Offices.

114 *Delivery.*—Press telegrams of all classes, Urgent, Ordinary, or Deferred, are sent out for delivery as soon as received, by day or by night.

RECORDS.

115. *Time kept.*—The originals and copies of telegrams are kept for three days only in Government Telegraph Offices, after which time they are sent to the Check Office, Telegraph Department, Calcutta, where they are preserved for four months, and then destroyed.

116. *Secrecy.*—The originals and copies of telegrams can only be communicated to the Sender and Addressee on proof of identity, or to a person properly authorized by one of the two.

117. *Copies.*—The Sender and Addressee of a telegram or their authorized representatives can be given certified copies of the telegram or of the copy delivered if they apply to the Telegraph Office within three days, or to the Superintendent of the Check Office within four months. For every such copy a copying fee of four annas per 100 words or fraction of 100 words must be paid in advance. Copies cannot be given unless the date and description of the telegrams are given.

118. *Preservation.*—Application may be made by an interested party to the Government Telegraph Check Office for the preservation of specified telegrams exchanged between other persons on the ground of pending or contemplated judicial proceedings. Such application must be made within four months of the dates of the telegrams, and such telegrams will then be preserved for a further period of four months, at the expiration of which time they will, in default of a renewed application, be destroyed. It must be understood that the duty of the Telegraph Department in the matter is confined to making the search and preserving the telegrams if found. No imformation as to the result of the search will be furnished, and any telegrams answering the description given, which may be found, will only be produced on the order of a competent Court of law or other competent authority.

119. *Fees for searching for telegrams.*—Should the particulars furnished be insufficient to enable the Check Office to at once trace the telegrams applied for under either Rule 117 or Rule 118, the cost of searching for them must be deposited by the applicant. A fee of one rupee is charged for searching through the telegrams of any Telegraph Office for one day: thus, if it be required to examine the telegrams of two Telegraph Offices over a period of five days, the searching fee will be ten rupees.

REFUNDS.

120. If an Ordinary or Urgent Private telegram be not delivered, or be subjected to serious delay, through the fault of any Telegraph Administration in India, the whole charge made for it will be returned to the Sender.

121. If an Ordinary or Urgent Private telegram be delivered wholly or partially in an unintelligible state, a refund will be made only when it is a Collated telegram (Rule 91).

122. No refund will under any circumstances be made for a State telegram of any Class or for a Deferred Private telegram.

123. Applications for refunds, as also all complaints respecting telegrams, should be addressed to *the Superintendent, Check Office, Telegraph Department, Calcutta.* Such claims for refund must be made within one month from the date of the telegram; but this period is extended to two months in the case of a Collated telegram (Rule 91), or of a telegram on which the cost of a reply or an Advice of Delivery has been prepaid.

124. When no doubt exists as to an overcharge having been made on an Inland Private telegram by the mistake of an official at any Telegraph Office, such overcharge is to be at once refunded by such Office (Rule 57).

SECTION III.

RULES FOR FOREIGN TELEGRAMS.

General.

1. *Foreign Telegrams*—Are those which are sent to or received from places beyond Indian limits. Such telegrams are subject to the regulations laid down by the *International Telegraph Convention* to which the Government of India is a party. 2. *Offices where Foreign telegrams are accepted.*—Foreign telegrams for Ceylon are accepted at all Telegraph Offices in India (except Field Offices), also at a few Postal Receiving Offices. Foreign telegrams for other countries are accepted at all Offices of the Government Telegraph Department (except Field Offices), also at a certain number of Postal Combined Offices and Railway Offices.

Note.—Foreign Telegrams, except for Ceylon, cannot be accepted at any Railway Office at places where there is also a Government Office.

3. *Objectionable Telegrams.*—The parties to the Convention reserve to themselves the right of stopping the transmission of every Private telegram which appears dangerous to the security of the State or contrary to the laws of the country, to public order or decency. The Terminal or any Intermediate Office may exercise this power on condition of immediately advising the Office of origin.

4. Telegraph Offices in India are required to refuse to transmit any telegram which appears to be of the above character. Should the character of a telegram be open to doubt, the matter will be referred to a Secretary to Government if the telegram be tendered at a seat of Government, or to the chief Civil or Military Officer if tendered at another place.

5. *General Division.*—Foreign telegrams are divided into the following :—

(*a*) State (or Government) telegrams (Rule 38).
(*b*) Service telegrams (Rule 38).
(*c*) Private telegrams.

Note.—In transmission State telegrams have priority over other telegrams, and Service telegrams have priority over Private telegrams.

MODE OF WRITING, &c.

6. *Language.*—State and Service telegrams may be written in Secret language. Private telegrams may also be written in secret language, unless addressed to a country in which the use of secret language in telegrams is prohibited.

7. Foreign telegrams may be written in plain language (*language clair*) or in secret language. Secret language is divided into Preconcerted* language (*language convenu*), cipher (or figure) language† (*language chiffre*), and language in letters‡ having a secret meaning.

8. Private telegrams of which the text is composed wholly or partly of letters having a secret meaning cannot be accepted.

9. State and service telegrams may be composed of letters having a secret signification.

* Sometimes known as "Code language" or simply as "Code."
† Sometimes known as "Figure Cipher."
‡ Sometimes known as "Letter Cipher."

10. *Plain language.*—By "telegrams in plain language" are meant those which offer an intelligible sense in any one of the languages authorized for International telegraphic correspondence.

Note.—The following are the languages so authorized.

Arabic.	Flemish.	Latin.	Ruthenian.
Armenian.	French.	Malay.	Servian.
Bohemian.	German.	Norwegian.	Siamese.
Bulgarian.	Greek.	Persian.	Slavonic.
Croatian.	Hebrew.	Polish.	Spanish.
Danish.	Hungarian.	Portuguese.	Swedish.
Dutch.	Illyrian.	Roumanian.	Turkish.
English.	Italian.	Russian.	

Telegrams from India to Ceylon and *vice versâ* may be in the vernaculars or any foreign language. The Indian vernaculars are absolutely inadmissible in foreign telegrams, except in the case of Ceylon.

11. *Preconcerted language.*—By "telegrams in Preconcerted language" are meant those made up of words, each of which has an intrinsic sense, but which do not form phrases intelligible to the Telegraph Offices concerned. The words used in Preconcerted language must not contain more than ten characters, and they must be genuine recognized words belonging to one or more of the following languages:—German, English, Spanish, French, Dutch, Italian, Portuguese, and Latin. These words may be taken from Vocabularies (or "Codes") authorized for International correspondence, or from an Official Vocabulary drawn up by the International Office at Berne.

Note.—Telegrams from India to Ceylon, and *vice versâ*, may be in the Vernaculars or any Foreign language.

12. *Proper names*—Of every description are absolutely inadmissible in a secret sense, unless such names are contained in the Official Vocabulary referred to above. They are, however, admitted in telegrams in Preconcerted language when not used in a secret sense.

Note.—In such case the Sender should explain in writing on the telegram below his signature what they represent. The explanations are not transmitted or charged for. *Example*:—

[Text of telegram] *Comilla Critical Marseilles Ecliptic Duration Robinson.* [Signature.]

Comilla (vessel); Marseilles (port); Robinson (consignee).

13. *Code Books.*—The Telegraph Office at which a telegram in Preconcerted language is presented has a right to insist, when necessary, that the Vocabulary or Code Book be produced for inspection in order to see that the preceding rules are observed, and to verify the authenticity of the words employed.

Note.—Senders of telegrams are warned against the use of Vocabularies or Code Books containing proper names of words, not recognized in the eight languages named in Rule 11. Among such books are certain editions of:—*Linde's Latin Combination Code, Verini's Code,* the *Nonpareil Code,* the *ABC Code* and the *Exchange Telegraph Code,* which amid admissible words contain combinations of letters which, though they have the semblance of words, are not recognized words of the eight languages.

14. *Cipher.*—By "telegrams in Cipher (or figure) language" are meant those of which the text is wholly or partially formed of groups or series of figures having a secret meaning The cipher part of private telegrams must be composed exclusively of Arabic figures.

15. *Characters.*—Telegrams must be written legibly in characters which have their equivalents in telegraphic signals. These characters or signals are the following:—

(*a*) *Letters.*

A, B, C, D, E, F, G, H, I, J, K, L, M, N, O, P, Q, R, S, T, U, V, W, X, Y, Z.

(*b*) *Figures.*

1, 2, 3, 4, 5, 6, 7, 8, 9, 0.

Note.—There are no telegraphic signals for roman numerals, such as I, II, &c.

(*c*) *Stops and other signs.*

Full stop (.), Comma (,), Semicolon (;), Colon (:), Note of Interrogation (?), Note of Exclamation (!), Apostrophe ('), Hyphen (-), Brackets or signs of a parenthesis ( ), Inverted commas (" "), Bar of division (/), Underline

Note.—With the exceptions given in the Rules 44 and 50, the above stops and other signs are not counted or transmitted in foreign telegrams.

(*d*) *Conventional Signs.*

French.	Abbreviated form.	English meaning.
Télégramme avec réponse payée ...	RP.	Reply-paid telegram (Rule 90).
Télégramme avec collationnement ...	TC.	Collated (or repeated) telegram (Rule 98).
Télégramme avec accusé de réception	CR.	Telegram with advice of delivery (Rule 101).
Télégramme à faire suivre ...	FS.	Telegram to follow addressee (Rule 103).
Poste payée	PP.	Post paid (Rule 118).
Poste recommandee	PR.	Post registered (Rule 123).
Exprés payée	XP.	Express paid (Rule 118).
Télégramme à remettre ouvert ...	RO.	Telegram to be delivered open (Rule 76).
Télégramme à remettre en mains propres.	MP.	Telegram to be delivered into the hands of the addressee himself (Rule 75).

16. *Legibility and Telegram Forms.*—To secure accuracy and rapidity of transmission, Senders of telegrams are advised to write them in a clear and unmistakeable hand, and on the proper forms which can be obtained free of charge at all Telegraph Offices. Telegrams written on plain paper are, however, accepted at all Offices.

Note.—Books containing 100 forms for Inland or for Foreign telegrams with counterfoils can be purchased at the principal Government Telegraph Offices. (Price 4 annas each.)

17. *Erasures, &c.*—Every interlineation, reference, erasure or alteration must be authenticated by the sender or by his representative.

18. *Parts of a Telegram.*—The different parts of which a Foreign telegram is composed should be written down in the following order:—

(*a*) Special Instructions, if any (Rule 19).
(*b*) The Address (Rule 22).
(*c*) The Sender's name (Rule 31).
(*d*) The Text (Rule 29).

19. *Special Instructions.*—The Sender should write upon the form immediately before the Address his special instructions, if any, regarding delivery at destination, prepayment of reply, advice of delivery, collation (or repetition), or regarding the telegram being one "to follow," to be delivered open, or only to the addressee himself, &c.

20. In the case of a Multiple telegram, the special instructions which concern each Addressee should be written immediately before his name; however, if the Multiple telegram is also a Collated (or repeated) one, it is sufficient if the special Instructions for Collation (Rule 98) precedes the first Address.

21. These instructions may be written in the abbreviated forms allowed in Rule 15. In this case they must be put between signs of parenthesis, and so written they are counted each as one word only. When they are written in full, they should be in French.

Note.—For further particulars regarding the Sender's instructions see Rules 75, 76, 90, 98, 103, &c.

22. *Address.*—Every Address must contain at least two words, the first indicating the Receiver, the second indicating the name of the telegraph office of destination. The latter should be spelt as in the Official List of Offices (Rule 44).

23. The Address should contain all the information necessary to ensure the delivery of the telegram. This information, with the exception of names of persons, should be written in French or in the language of the country to which the telegram is addressed.

24. The address of Private telegrams should be such that delivery can be effected without search or enquiry. In the case of large towns, it ought to contain the name of the street and the number of the house, or in the absence of these particulars to specify the profession of the Addressee or any other useful information. Even for small towns the name of the Addressee ought to be as much as possible accompanied by additional particulars to guide the delivering office in case of alteration of the proper name.

25. The country or the territorial sub-division for which the telegram is intended must be added whenever there is room for doubt as to the direction in which the telegram is to go. This is especially necessary in the case of places of the same name.

26. *Telegraph offices in neighbourhood of London.*—In telegrams addressed to the following telegraph offices, all of which are in the neighbourhood of London, it is not necessary to add the word *London* in the address:—

Acton.	Edmonton.	Leytonstone.
Anerley.	Finchley.	Mortlake.
Balham.	Hampstead.	South gate.
Blackheath.	Hanwell.	Tooting.
Catford.	Hendon.	Walthamstow.
Chingford.	Hornsey.	Whetstone.
Cheswick.	Lewisham.	
Ealing.	Leyton.	

Telegrams for places in London itself, the names of which do not appear in the Official List of Foreign Offices (Rule 44), cannot be accepted unless addressed *London* as the name of the Terminal office. For instance, a telegram for Paddington in London must be addressed to London as the Terminal office; otherwise it will be missent to Paddington in Australia, which office is the only one of the name given in the official list.

27. *Insufficient address.*—Telegrams, the Address of which does not satisfy the conditions laid down in the preceding rules, are nevertheless accepted and transmitted at the Sender's risk. In every case the Sender has to bear the consequences of an insufficient Address.

28. *Preconcerted Addresses.*—The Address may be written in a Preconcerted or Abbreviated form. However, in order that a telegram so addressed may be delivered, the Addressee must have registered the Preconcerted or Abbreviated Address at the Telegraph Office to which the telegram is addressed (see Rule 83.)

Note.—Senders of Foreign telegrams to England under Abbreviated Addresses are warned that unless such addresses are registered, not only with the Indo-European and Eastern Telegraph Companies, but also with the British Post Office, there is a risk of non-delivery, especially in the event of interruptions on one Route requiring telegrams to be diverted to another. Registration at the Eastern or Indo-European Companies' Offices is not recognized by the British Post Office or by the Submarine Telegraph Company, London. Telegrams should not be sent *viâ* Turkey to Abbreviated Addresses in England unless such Addresses have been registered by the British Post Office. Claims for refunds on telegrams are rejected by the Authorities in England when Addresses have not been duly registered.

29. *Text.*—Telegrams can be sent without Text. The Sender may limit his telegram to the words given in the Address (Rule 22), *i.e.*, the telegram need not contain either Text or Sender's name.

30. The Text of a Private Telegram can only be composed in Secret language, if the country to which it is addressed allows this mode of correspondence. The Text of a Private telegram intended for a country which allows secret correspondence may contain passages in Plain language and passages in Secret language.

31. The Sender's name may be in an abbreviated form or be omitted.

32. *Signature.*—Every telegram must be authenticated by the signature of the Sender, which is not charged for or transmitted. The Sender of a Private telegram is bound to prove his identity when requested to do so by the Telegraph Department.

STATE TELEGRAMS.

33. *Definition.*—State (or Government) telegrams are defined in the Convention to be those which emanate from the Chief of the State, Ministers, Commanders-in-Chief of Land or Sea Forces, and Diplomatic or Consular Agents of the Contracting Governments; also the replies to these same telegrams.

34. *From British Officials.*—The only British Government Officials in India who are allowed to send Foreign State telegrams are those who have been specially authorised to do so by the Government of India. A complete list of these officials will be published in the *Telegraph Guide*. Telegrams classed State tendered by officials, not named in that list, will be treated as Private telegrams. State telegrams to Ceylon will, however, be accepted from all British Government Officials.

35. *From Diplomatic or Consular Agents.*—The Diplomatic or Consular Agents in India of the States which are parties to the Convention (Rule 1) are entitled to send Foreign State telegrams, but if such persons are engaged in trade or commerce, their telegrams cannot be considered State telegrams unless they fulfil the following conditions:—(*a*) They must be on the business of the Agent's Government, (*b*) sent in his official capacity, and (*c*) addressed to an official personage.

36. *Replies to State telegrams.*—The Addressee of a Foreign State telegram is allowed to send the reply as a State telegram on his showing the telegram received.

37. *Letter Cipher.*—The text of State telegrams in secret language may be made up of figures or letters with a secret meaning, but a mixture of figures and letters is not allowed.

SERVICE TELEGRAMS.

38. Service telegrams are defined in the Convention to be those which emanate from the Telegraph Administrations of the contracting States, and which relate either to the service of the international telegraphs or to objects of public interest agreed upon between the said Administrations. They are divided into Service telegrams properly so called and Service advices. They are transmitted free, except in the cases specified in Rule 87.

COUNTING WORDS.

39. *What is counted.*—All that the Sender writes in his telegram to be transmitted is included in calculating the charge with the exception of instructions as to route (Rule 63), signs of punctuation, apostrophes, and hyphens (Rule 15).

40. *Preamble.*—The words, numbers, or signs forming the preamble and added by the telegraph office for official purposes are not charged for. The name of the office of origin, the day of the month, the hour and the minute the telegram was booked, which form this preamble, are transmitted free, and entered on the copy delivered to the Addressee. In India all telegrams are booked by Madras time. The Sender may insert these particulars in the text of his telegram. They then are counted among the words charged for.

41. *Original counting decisive.*—The counting of the words by the office of origin is decisive. Nevertheless the office at destination, when the telegram is composed in its language, and countains combinations of words contrary to the usage of that language, is empowered to recover from the addressee the amount undercharged. In this case the telegram is only delivered to the Addressee after payment of the undercharge. In case of non-payment by the Addressee, the office of origin, duly advised by a Service advice, informs the Sender that the refusal of payment has prevented the telegram being delivered.

Note.—In applying this rule in India, the language of the country is considered to be English. It applies also to the Vernaculars in case of telegrams from Ceylon (Rules 10 and 11).

42. *Maximum length of a word.*—In plain language the maximum length of a word is fixed at ten letters; every ten letters or fraction of ten letters in excess is also counted as one word.

II. In Preconcerted language the maximum length of a word is fixed at ten letters, and words exceeding this limit are absolutely inadmissible.

43. *Mixed telegrams.*—Words in Plain language inserted in the text of a mixed telegram, composed of words in Plain language and words in Preconcerted language, are counted as in Rule 42 I. The same rule applies to proper names used without secret meaning in the Text of telegrams in Preconcerted language. If the mixed telegram contains in addition a portion in Cipher, the Cipher passages are counted according to Rule 49. If it

is composed partly of Plain language and partly of Cipher language, the parts in Plain language are counted as in Rule 42, and the parts in Cipher language as in Rule 49.

44. *In all languages the following are each counted as only one word* :—

(*a*) The name of the Telegraph Office of destination, the name of the country, and the name of the territorial sub-division of destination, but only in the Address, whatever be the number of words and characters employed to express them, on condition that these words are spelt as given in the official list of Telegraph Offices issued by the International Office at Berne (*Nomonclature des Bureaux télégraphiques*).

(*b*) every isolated character, letter or figure;

(*c*) each underline;

(*d*) the two signs of parenthesis at the beginning and end of a passage;

(*e*) the pair of double or single inverted commas at the beginning and end of a single passage.

45. *Hyphens and apostrophes.*—Expressions joined by a hyphen are counted according to the number of words which serve to form them. Words separated by an apostrophe are counted as so many separate words.

46. *Compound words.*—Nevertheless any compound word, properly so called, which is admitted as such in English and French, and can on occasion be shown to be so admitted by reference to a dictionary, may be written as a single word, and so written the stipulations of Rule 42 apply to it.

47. *Inadmissible combinations.*—Combinations and alterations of words contrary to the usage of a language are not allowed. Ficticious and wrongly spelt words are inadmissible.

48. *Proper names, &c.*—Nevertheless, proper names of towns and countries, family names, names of places, boulevards, streets, &c., the names of ships, and also numbers written in words, are counted according to the number of words employed by the Sender to express them.

49. Numbers written in figures are counted as follows:—The number of words to which a group of figures corresponds is obtained by dividing the number of figures by 3, and adding a word for the excess, if any. The same rule is applicable to groups of letters in State telegrams and figures and letters employed as Trade (or Commercial) marks or in Semaphoric telegrams (Rule 129).

Note.—When Trade marks form part of the text of a telegram, the Sender should certify them to be such at the foot of the form.

50. *Signs used with figures.*—The decimal points and commas used with figures, and also the bars used in expressing fractions, are each counted as a figure. The letters added to figures to form ordinal numbers are each counted as a figure.

51. *Inadmissible groups or words accidentally included.*—When contrary to Rule 10, 11, or 14 a Private telegram accidentally contains an unauthorised group of letters or a word not belonging to any of the languages admitted in Foreign telegrams, this group of letters or this word is counted accordingly to Rule 49, *i.e.*, at the rate of three characters per word. When telegrams containing such groups or words have been inadvertently accepted, the Sender is bound to pay the difference of charge whenever the undercharge is subsequently detected.

52. *Examples of counting.*—The following examples show how the rules for counting the words are to be interpreted :—

TARIFFS.

53. *Changes in Tariffs.*—The Tariffs for Foreign telegrams are made up of the shares of the different Administrations concerned, which may alter them from time to time. The Tariffs vary also according to the route employed (Rules 63 to 65). The franc is the monetary unit employed in Foreign Tariffs; and as all accounts with Foreign Administrations have to be settled in gold, the charges in India are subject to alteration in accordance with changes in the rate of exchange.

54. *Charge by the word.*—The charge for a Foreign telegram is by the word or group of figures, and the minimum charge is for a telegram of two words (Rules 22 and 29).

Note.—Tables showing the rates per word to Foreign countries will be published in the *Telegraph Guide.*

55. *Tariff areas.*—For Tariff purposes India is divided into two areas namely, India Proper and Burma. When in the course of transmission a telegram has to traverse both of these areas, the charge per word is always two annas higher than when it has to traverse only one.

56. *Frontier Offices.*—The Frontier Offices, or Offices which directly exchange telegrams with Foreign Administrations, are as follows :—

(*a*) Bombay, Karachi, and Madras in the Indian area which exchange telegrams with the Eastern Telegraph Company, the Indo-European Telegraph Department, and the Eastern Extension Australasia and China Telegraph Company respectively. Madras is also ordinarily the Frontier Office for Ceylon.

(*b*) Moulmein in the Burma area, which exchanges telegrams with the Siamese Administration.

All Foreign telegrams originating in India or Burma have to pass through one or other of these Frontier Offices.

† *Hanover* and *Wurtemburg*, following *Emmingen*, serve to complete the designation of two offices of the same name in one and the same State, and are so printed in the first column of the Official List of Telegraph Offices (Rules 18 and 44).

‡ The telegraph is not able to reproduce such expressions as 30 *a* 15 × 6, &c. Senders of telegrams must, therefore, replace them by the full signification, thus—30 raised to the power of *a*, 15 *multiplied by* 6, *&c.*

§ The signal for an underline is transmitted before and after each word or passage underlined.

Note.—The abbreviations *fob*, *cif*, *c/f*, *B/L*, *C/o*, and *c/°* are also counted each as one word.

‖ The signal for parenthesis is transmitted before and after each passage or word put in parenthesis.

¶ The signal for inverted commas is transmitted before and after each passage marked by inverted commas.

PAYMENT OF CHARGES.

57. *All charges must be prepaid* with the exception of the supplementary charge for Telegrams "to follow" (Rule 108), express charges (Rule 119), and the charge for telegrams originating at Semaphore stations (Rule 132), all of which are collected by the Terminal Office. In every case where charges have to be collected on arrival, the telegram is only delivered to the Addressee upon payment of the amount due.

58. *Receipts.*—The Sender of a Foreign telegram can claim a receipt showing the amount paid.

59. *State telegrams.*—The rule about prepayment is relaxed in case of telegrams of great emergency from British Government Officials who have been duly authorized (Rule 34) to send Foreign State telegrams. Whenever a telegram is sent without prepayment under this rule, the Sender must take the necessary steps to ascertain the charges on it, and pay them into the Telegraph Office within twenty-four hours.

60. *Cash or Stamps.*—At Offices authorized to receive Foreign telegrams (Rule 2), the charges must be paid in cash or Telegraph stamps. As regards the use of Telegraph stamps, see the Rules for Inland telegrams, Nos. 51 to 53.

61. *Undercharges* made in error, and charges and expenses not recovered from the Addressee in consequence of his refusal to pay them or the impossibility of finding him, must be made good by the Sender.

62. *Overcharges* made in error are returned. No refund, however, is made of the value of the stamps in excess affixed by the Sender unless he applies for it to *the Superintendent, Check Office, Telegraph Department, Calcutta,* and sends with his application the Receipt granted for the telegram.

ROUTE.

63. The different Routes to be given to telegrams are indicated in the Tariff Tables published in the *Telegraph Guide.* The Sender who wishes to prescribe the Route should write it himself on the telegram. He may specify the actual Route to be followed or mark the telegram *Best Route* or *Cheapest Route.* Instructions as to Route are transmitted free.

64. When the Sender has prescribed the Route to be followed, the Telegraph Offices concerned are bound to carry out his wishes, unless the Route named be interrupted, or transmission by it seems likely to involve serious delay, in which cases the Sender cannot raise any objection to the change.

65. If the Sender specifies no Route, the telegram is sent by the least expensive one, but if all the Routes are equal as to cost, the Offices where Routes diverge will decide by which to send it.

66. When the Sender has requested his telegram to be transmitted by telegraph as far as the Office which he names, and thence by post to destination, the Offices must carry out his instructions.

INTERRUPTION OF TELEGRAPH COMMUNICATION.

67. When in the course of transmission of a telegram an interruption takes place in the regular telegraph communications, the Office beyond which the interruption has taken place at once sends the telegram by post (registered) or by some more rapid means, such as, for instance, by an alternative telegraph Route. As soon as communication is re-established, the telegram is again transmitted by telegraph, unless its receipt has been previously acknowledged, or unless, on account of an exceptional accumulation of traffic, this retransmission would be clearly injurious to the total traffic. Telegrams cannot, however, be diverted to a more expensive Route, until the Sender has paid the additional cost.

CANCELLATION OF TELEGRAM BY SENDER

68. *Before transmission.*—The Sender of a telegram, by proving his identity, can stop its transmission if in time. When he withdraws or stops it before transmission has begun, the charges are returned, less a fee of four annas. If the stamps have already been defaced, the refund can only be made by the Superintendent of the Check Office, Telegraph Department, Calcutta, to whom the receipt should be sent with an application.

69. *After transmission.*—If the telegram has already been transmitted, he can only cancel it by a Paid Service Advice in accordance with Rule 86. As far as possible, this Service Advice is transmitted to the Offices (one after another) to which the telegram in question has been transmitted until it has caught it up. The Sender must also pay for a reply if he wishes to be informed by telegraph that his request has been carried out, and the Office which cancels the telegram replies to that effect by telegraph to the Office of Origin. If no reply has been paid for it sends this advice as an unpaid letter.

70. *Refunds* of the cost of the first telegram and of the Paid Service Advice cancelling it can be obtained from the Check Office for the portions of the Route not traversed, less the expense of postage, if incurred.

DELIVERY AT DESTINATION.

71. *According to address and order.*—Telegrams are delivered, according to their Address, either at residence or *Poste restante* (to be kept at the Post Office till called for), or *Télégraphe restant* (to be kept at the Telegraph Office till called for). They are in all cases delivered at or sent to their destinations in the order of their receipt and of their priority.

72. *Free delivery limits.*—Telegrams addressed to the place of residence in the locality served by the Telegraph Office are at once taken to their address. In India they are delivered free of charge within 5 miles of a Telegraph Office. Beyond the free-delivery limit telegrams received in India are sent by post (registered) without charge.

73. *Reply given to messenger.*—In India the Telegraph messenger who delivers a Foreign telegram may be entrusted with the Reply, provided he be not detained for this purpose more than five minutes. The fact of the Reply having been given to the messenger, and the amount paid to him, should be mentioned on the Receipt given for the telegram.

74. *Delivery by post.*—Telegrams addressed *Poste restante* are posted immediately by the Terminal Telegraph Office. If the telegrams are marked *Poste* or (*PP*), they are posted as paid letters without any charge for postage to Sender or Addressee. If they are marked *Poste recommandée* or (*PR*), they are posted as registered letters, and the Sender must pay a fee of four annas for registration.

Note.—In India all Foreign telegrams which have to be posted to destination are posted as registered letters (see also Rule 123).

75. *Persons to whom telegrams are delivered.*—A telegram taken to place of residence may be delivered either to the Addressee, to any adult member of his family, to any of his employes, lodgers, or guests, or to the porter of the hotel or house, unless the Addressee has named in writing a special person, or the Sender has requested by writing before the Address the instructions (Rule 15) *A remettre en mains propres* or (*MP*) that the telegram may be delivered only into the hands of the Addressee himself. In this case the Delivery Office writes the request upon the envelope, and also gives the necessary orders to the messenger.

76. *Open delivery.*—The Sender can also request the telegram to be delivered open by writing before the Address the instructions (Rule 15) *A remettre ouvert* or (*RO*). This request is reproduced in the copy delivered. In India such telegrams are delivered without an envelope.

77. *Telegrams to Offices not authorized to do Foreign business.*—Telegrams arriving in India and addressed to places served by Postal, Combined, or Railway Offices which are not authorized to accept Foreign telegrams (Rule 2) are posted to destination as registered letters from the nearest Office so authorized. This restriction does not apply to telegrams from Ceylon.

78. *Undelivered telegrams.*—As soon as it has been ascertained that a telegram cannot be delivered, the Office of Destination sends a Service Advice to the Office of Origin, announcing the cause of non-delivery, and repeating the Address exactly as received. The Office of Origin immediately verifies the correctness of the Address as repeated back; and if it has been altered in transmission, it rectifies it at once by a Service Advice. If the Address has not been altered, the Office of Origin communicates the Advice as soon as possible to the Sender. The Sender is not allowed to complete, alter, or confirm the Address except by a paid telegram in the shape of a Paid Service Advice (Rule 86). If the telegram happens to be delivered after transmission of the Non-delivery Advice, the Office at destination is bound to send a second Service Advice announcing the fact.

79. When, in consequence of an inexact or insufficient Address, or of the Addressee's absence or refusal, Express charges have not been paid at destination, the amount of these charges is mentioned in the Service Advice, and the Sender is bound to make them good.

80. If the messenger finds no one at the address given who will consent to receive the telegram for the Addressee a notice is left at the house, and the telegram is brought back to the office to be delivered to the Addressee, when he claims it.

81. *Poste restante* : *Télégraphe restant.*—When the telegram is addressed *Poste restante* (*to be kept at the Post Office*) *or Télégraphe restant* (*to be kept at the Telegraph Office*), it is only delivered to the Addressee himself or to a person duly appointed by him.

82. *Unclaimed Telegrams.*—Telegrams unclaimed under Rules 80 and 81 are not kept over six weeks.

83. *Registered Addresses.*—Any firm or person expecting to receive telegrams can register a Preconcerted or Abbreviated Address at the Government Telegraph Office in India from which such telegrams have to be delivered. For further details, see the Rules for Inland telegrams, Nos. 69 to 75. Preconcerted Addresses used in Foreign telegrams must be real names or genuine words of the eight languages specified in Rule 11.

84. *Delivery on ships.*—When a Foreign telegram in India has to be delivered on board a ship which cannot be reached without a boat (*i.e.*, when not alongside a wharf, pier, or jetty,) the cost of boat-hire must be paid by the Addressee.

Note.—On telegrams to Ceylon addressed to persons on board ships in Ceylon ports, the Sender must prepay twelve annas for boat-hire. He should write the Abbreviation *XP* (which is counted and charged as one word) before the Address to indicate that boat-hire has been prepaid.

85. *Directions about delivery.*—All directions which persons leave at Telegraph Offices regarding the delivery or retransmission of their telegrams should be renewed at intervals of at most six months.

RECTIFYING TELEGRAMS.

86. The Sender and the Addressee may within seventy-two hours of despatch or arrival, as the case may be, call for information or give instructions by telegraph regarding a telegram in the course of transmission or already transmitted. They can also, in order to make or obtain corrections, cause a telegram which they have sent or received to be

repeated entirely or in part by the Office at Destination or by the Office of Origin or any intermediate Office. In all such cases they have to pay the following :—

(*a*) The cost of the telegram making the request.

(*b*) The cost of a telegram for the reply, if a reply by telegraph is wanted.

87. All rectifying, completing or cancelling telegrams, and all communications relating to a telegram already transmitted or in course of transmission, exchanged between Telegraph Offices at the request of the Sender or Addressee are treated as Service Advices (Rule 38), but charged for.

88. The charges made for rectifying telegrams are refunded in full on application (supported by Receipts granted) to *the Superintendent, Check Office, Government Telegraph Department, Calcutta*, if the repetition shows that the word or words repeated were transmitted incorrectly at first. However, when some of the words have been transmitted correctly and others incorrectly, the charge is not refunded for the words which, in the Service Advice making the enquiry and in the Service Advice containing the Reply, point out the words correctly transmitted in the first instance.

89. No refund is made for the telegram which has given occasion to a request for correction, nor are any refunds made for rectifying or completing telegrams exchanged direct as Private telegrams between the Sender and Addressee.

SPECIAL TELEGRAMS.

(*A*) *Replies.*

90. The Sender of a telegram can prepay a reply ; but the payment must not exceed the cost of a telegram of 30 words by the same Route, unless it be to obtain the repetition of a telegram previously transmitted, in accordance with Rule 86.

91. If the Sender writes before the Address and pays for the Instructions *Réponse payée* or (*RP*) (Rule 15), it is assumed that a reply of ten words is desired. Should the number of words for which a Reply is prepaid be greater or less than ten, the Sender must add the actual number, thus *Réponse payée* 15 or (*RP* 15). A reply of less than two words (Rule 29) cannot be prepaid.

92. At destination the Office delivers to the Addressee an order or Pass which entitles him to send free of charge, and within the limits of the amount prepaid, a telegram to any destination whatever.

Note.—A Pass issued for a Reply to an Inland telegram cannot be used to frank a Foreign telegram, and *vice versâ*. Two or more Foreign Passes may be used to frank one Foreign telegram, but one Pass may not be used to frank more than one telegram.

93. When the charge for a telegram paid for by a Pass exceeds the amount of the value of this Pass, the difference must be paid in cash or stamps (see Rule 60). If on the other hand, the value of the Pass exceeds that of the Reply, the difference is refunded by *the Superintendent of the Check Office, Telegraph Department, Calcutta*, to whom the Sender of the Reply should apply, supporting his claim by the Receipt granted for the telegram.

94. The Pass is only available for six weeks from date of issue, after which period it is considered null and void.

95. When the Addressee does not use the Pass, the amount paid for the Reply can be refunded to the Sender. In case of a Pass delivered in India, the Addressee should, before the expiration of three months from the date of issue, send the Pass to the Check Office as above, accompanied by a claim for refund in favour of the Sender.

96. If the Addressee refuses the Pass, the Office of Destination at once informs the Sender by a Service Advice, which takes the place of the Reply, and is transmitted as a Private telegram.

97. When a Reply-paid telegram cannot be delivered, a Non-delivery Report is sent as a Service Advice as prescribed by Rule 78. If the Address is not rectified, and if the enquiries made to find the Addressee remain fruitless, a second Non-delivery Report is sent at the end of eight days or even sooner as a Private telegram, and this takes the place of the Reply paid for.

(*B*) *Collated (or Repeated) Telegrams.*

98. The Sender of any telegram can require it to be "collated," *i.e.*, repeated back by each Office engaged in its transmission to insure correctness. In this case, he writes before the Address the word *Collationnement* or (*TC*), which indications are charged for respectively as two words or one word (Rule 21).

99. The additional charge for this repeating is equal to one-fourth of the normal charge. In calculating the charge, fractions of an anna are disregarded.

100. State telegrams in Secret language or in figures or in letters are thus repeated in every case, and without additional charge.

(*C*) *Advice of Delivery.*

101. The Sender of a telegram can require that a notice shall be telegraphed to him of the date and hour of its delivery immediately after such delivery. He should write before the Address the words *Accusé de réception* or (*CR*), which are charged for as in Rule 21. The charge for an Advice of Delivery is equal to the cost of a telegram of ten words by the same Route. The Advice of Delivery has precedence over Private telegrams.

102. In case of non-delivery, a free Service Advice is sent as in Rule 78. The Advice of Delivery paid for is transmitted afterwards, either after the delivery of the telegram, if it has become possible, or after twenty-four hours, if delivery has not taken place, and the cause of non-delivery is stated in it.

(*D*) *Telegrams to follow.*

103. The Sender can require, by writing before the Address the words *Faire Suivre* or (*FS*), the Office of Destination to cause his telegram to follow the Addressee to different addresses, if necessary, within the limits of the countries working under the European *régime*.

Note.—The International Telegraphs are divided into two *régimes* or systems—namely, the European *régime* and the extra-European *régime*. The former includes all Europe, also the Canary Islands, Algeria, Senegal, Tunis, Tripoli, and Egypt.

104. The Sender of a telegram "to follow" cannot in any case prepay a reply.

105. When a telegram simply bears the words *Faire Suivre* or (*FS*) without any further instructions, the Office of Destination, after having presented it at the address given, retransmits it immediately, if need be, to the new address given at the residence of the Addressee. This new address is inserted in the telegram after the first one. If no new address is furnished, the Office keeps the telegram, and reports non-delivery as in Rule 78. The Sender has to make good Express charges, if any, not recovered from the Addressee. If the telegram is retransmitted and the second Office does not find the Addressee at the new address, the telegram is kept by that Office.

106. If the remark *Faire Suivre* or (*FS*) is accompanied by successive addresses, the telegram is transmitted to each of the destinations mentioned until the last, if need be, and if the last Office does not find the Addressee, it keeps the telegram and reports non-delivery as above.

107. The original contents of a telegram "to follow" are transmitted in full to the successive Offices of Destination, and reproduced in the copy delivered to the Addressee.

108. The charge to be paid by the Sender for a telegram "to follow" is simply the charge up to the first destination, all the Addresses being counted in the number of words charged for. The charges for re-addressing from the first destination are collected from the Addressee.

109. In case of telegrams addressed to places included in the European *régime* (Rule 103), the Addressee, by explaining the necessity, can arrange for telegrams which may arrive at a Telegraph Office, and are intended for delivery to him within the delivery limits of that Office, to follow him to a new address or new addresses, as in Rule 103. His requests to this effect must be made in writing.

110. *Telegrams re-addressed in India.*—The rules for telegrams "to follow" do not apply to telegrams received for delivery in India. Should, however, the Addressee of a Foreign telegram received in India have left the place to which it is addressed, it will, if returned unopened with definite instructions as to the new Address, be retransmitted within Indian limits. It will also (subject to the conditions laid down in Rule 77) be transmitted immediately to any new Address without being sent out for delivery at the first Address, if the Addressee has left written instructions at the Office, or if his new Address is known. The charge for such re-addressing is the Ordinary rate for Inland telegrams (*i.e.*, one rupee for the first eight words and two annas for each additional word; Address and Sender's name free), and it must be paid by the Addressee before the telegram is delivered.

111. *Telegrams re-addressed to Ceylon.*—Foreign telegrams arriving in India can also be re-addressed to Ceylon if the Addressee has left for that country. In such case the re-addressing charge recovered from the Addressee is the usual charge between India and Ceylon.

Note.—No Foreign telegram arriving in India can be re-addressed to any Foreign country except Ceylon.

(*E*) *Multiple Telegrams.*

112. Foreign telegrams may be Multiple, *i.e.*, addressed to several persons in one and the same locality or in different localities, but served by one and the same Telegraph Office or to one and the same person at several residences in the same locality with or without retransmission by post or by express.

113. The Address of a Multiple telegram, if it includes Special Instructions, must be drawn up in conformity with Rule 20.

114. A Multiple telegram is charged for as a single telegram; but a copying fees of four annas per telegram not exceeding one hundred words is charged for all the Addresses less one. Above one hundred words, an additional fee of four annas is charged for each series or fraction of a series of one hundred words. In calculating this fee, the total number of words in the Text, Sender's Name, and address are counted, the charge for each copy being reckoned separately.

115. In transmitting a Multiple telegram, the number of the Addresses is mentioned in the Preamble, and transmitted free.

116. In the first case specified in Rule 112, each copy of the telegram will only bear its own particular Address when delivered, unless the Sender has requested the contrary. The latter request must be included in the number of words charged for and entered before the Address as follows:—*Communiquer toutes addresses.*

(F) Telegrams for places where there are no Telegraph Offices.

117. *Post or Express.*—Telegrams addressed to places where there are no Telegraph Offices can be sent to destination, according to the Sender's request, by post. They can also be sent by Express when addressed to Offices in countries where a more rapid mode of delivery than the post has been organised for telegrams.

118. *The Address* of telegrams to be sent beyond the telegraph lines should be written as follows:—*Poste (or exprés) M. Muller, Johannisthal, Berlin,* the name of the Terminal Telegraph Office being entered last.

119. *Express charges* as a rule are recovered from the Addressee, but in the case of Offices belonging to Administrations working under the extra-European system (Rule 103), which have fixed and notified the charges for delivery by express, such charges must be prepaid by the Sender, and the words *Exprés payé* charged at two words, or the abbreviation (*XP*) charged as one word, should be written before the address.

II. The following is a list (subject to future alterations) of the charges which have been fixed and notified as above:—

Place.	Country.	From what Telegraph Office.	Nature of Express.	Express charge per telegram.
				Rs.
Bassadore ...	Persia ...	Jask ...	Special boat ...	30
Bunder Abbas ...	Do. ...	Do. ...	Ditto ...	20
Ginsery ...	Corea ...	Fusan ...	Express ...	15
Kyong ...	Do. ...	Do. ...	Ditto	15
Linga ...	Persia ...	Jask ...	Special boat ...	30
Muscat ...	Oman ...	Do. ...	Ditto ...	32
Ditto ...	Do. ...	Gwadur ...	Ditto ...	80

120. *Employment of post.*—The Terminal Telegraph Office has the right to send a telegram addressed to a place where there is no Telegraph Office to its destination by post:

(*a*) In the absence of directions in the telegram as to the means of delivery to be employed.

(*b*) When the means indicated differ from the mode adopted and notified by the Terminal administration (Rule 119).

(*c*) Whenever there is an unpaid claim against the Addressee for porterage on a previous telegram which he has refused to pay. In this last case, the telegram can be posted as an unpaid letter.

121. Telegrams for places where there is no Telegraph Office must be posted by the Terminal Office:

(*a*) When such has been the request expressly made by the Sender (Rule 117) or by the Addressee.

(*b*) When the Terminal Office has no more rapid means at disposal.

122. Telegrams of all kinds which have to be transmitted to destination by post are posted by the Terminal Office without expense to the Sender or Receiver, except in the cases provided for in Rules 120 (*c*), 122, 125, and 127.

123. *Post Registered.*—On telegrams which have to be posted in a Foreign country as Registered letters, the Sender must pay a fee of four annas. The Special Instructions *Poste recommandée* or (*PR*), charged respectively as three words and one word, must be written before the Address (Rule 21).

Note.—All Foreign telegrams which have to be posted to destination in India are sent by post registered (Rule 74).

Note.—Foreign telegrams delivered by His Highness the Nizam's State are delivered in duplicate. The first copy is posted unregistered by the Terminal Telegraph Office, and then that office telegraphs the second copy marked *Duplicate* to Hyderabad (Deccan), where it is posted registered through the British Post Office.

124. *Telegrams too late to be posted registered.*—When a telegram intended to be forwarded as a registered letter cannot be immediately registered without losing a post, it is posted first as an ordinary letter, and a duplicate is sent as a registered letter as soon as possible.

Note.—This applies to all Foreign telegrams posted in India. The second copy will always be marked *Duplicate.*

125. *Telegrams to be posted by Sea post.*—On telegrams which have to be posted in a Foreign country for transmission by Sea post, the Sender must pay a fee of one rupee for postage and four annas more if he wants the telegram sent as a registered letter. The special instructions *Poste* or (*PP*) or *Poste recommandée* or (*PR*), as the case may be, must be written before the Address, and are charged for (Rule 21).

126. Examples of telegrams to be posted to destination by Sea post from a port in a foreign country:

(*a*) A telegram from India to Japan to be posted at Colombo as a paid letter, not registered:

From—*Bombay.*
Special Instructions—*PP.*
Address *John Doe, Yokohama, Japan, Colombo.*
Sender's name—*Richard Roe.*
Text—*Start first steamer.*

This telegram contains eleven chargeable words, and the cost is that of eleven words to Ceylon, *plus* one rupee for postage.

(*b*) A telegram from India to Mauritius to be posted at Durban (in Natal) as a registered letter:

From—*Madras.*
Route—*Viâ Bombay-Aden.*
Special Instructions—*PR.*
Address—*John Deo, Mauritius, Durban.*
Sender's name—*Richard Roe.*
Text.—*Start first steamer.*

This telegram contains ten chargeable words, and the cost is that of ten words to Natal *viâ* Bombay-Aden, *plus* one rupee for postage and four annas more for registration.

127.—*Telegrams to be posted from Offices near a Frontier.*—Telegrams transmitted to a Telegraph Office situated near a frontier, in order to be sent by post for delivery in the neighbouring territory, are posted as unpaid letters, and the postage is payable by the Addressee.

(*G*) *Semaphoric Telegram.*

128. *Semaphoric Telegrams* are telegrams exchanged with ships at sea by means of Semaphores.

Note.—For list of Semaphore Offices in India, see the Rules for Inland Telegrams, No. 107.

129. *Language.*—They should be written in the language of the country in which the Semaphore station which has to signal them is situated, or in signals of the Universal Commercial Code. In the latter case they are considered as Cipher telegrams.

130. *Address.*—When they are for ships at sea, the Address should contain, in addition to the ordinary direction, the name or official number of the vessel and its nationality.

131. *Preamble.*—In every Semaphoric telegram the word *Semaphorique* is signalled free in the Preamble.

132. *The charge* for telegrams exchanged with ships at sea by Semaphores is fixed at eight annas per telegram. This charge is added to the cost of its transmission by the electric telegraph, calculated according to the ordinary rules. The total is collected from the Sender for telegrams addressed to ships at sea and from the Addressee for telegrams signalled from ships at sea (Rule 57)).

133. *Transmission.*—Telegrams from a ship at sea are transmitted to their destination in signals of the Commercial Code when the ship requests it. When the ship does not request it, they are translated into ordinary language by the Chief of the Semaphore station and transmitted to destination

134. *Non-delivery.*—Telegrams which it has been impossible to signal from Semaphore stations to the ships to which they are addressed within 30 days of their original date (original date not included) are considered as dead letters. In case the ship to which a Semaphoric telegram is addressed does not arrive within twenty-eight days, the Semaphore station forwards a Service Advice to the Sender on the morning of the 29th day. The Sender has the power, on paying the ordinary cost of a telegram of 10 words, to request the retention of his telegram for another 30 days, and so on. If this request is not made, the telegram is treated as a dead letter on the 30th day.

Combination of Special Telegrams.

135. In applying Rules 90 to 134, the facilities given to the public for Prepaid replies, Collated telegrams, Advice of delivery, Telegrams "to follow," Multiple telegrams, and Telegrams to places, where there are no Telegraph Offices can be combined, the instructions in Rules 19 to 21 being duly observed.

Exception.—A reply cannot be prepaid in case of a telegram "to follow."

Foreign Press Telegrams at Reduced Rates.

136. *United Kingdom.*—Telegrams in plain English containing news or intelligence for publication in newspapers are transmitted *viâ* Teheran or *viâ* Suez from the United Kingdom to India and Burma and from Government Telegraph Offices in India and Burma to the United Kingdom at approximately one-third of the rate per word for private telegrams, subject to the following conditions:—

I.—The newspapers, their correspondents or agents, are required to address their telegrams to a registered newspaper, and, such newspaper is prohibited from selling, distributing, or communicating such telegrams to clubs, exchanges, or news-rooms, or disposing of them for any purpose whatsoever, either directly or indirectly other than for publication in registered newspapers.

II.—Telegrams at the reduced rate shall not be allowed to interfere with the transmission of telegrams at full rates, and, in order to ensure this, the transmission of such News telegrams may be deferred or suspended or interrupted until any State telegram or any Private or Press telegram at full rates, which may be on hand, shall have been transmitted and completed. On the lines of the Indian Telegraph Department such telegrams will take precedence with Ordinary Inland telegrams.

III.—No telegrams shall be transmitted at the reduced rate except for publication in a newspaper, and they must be written in plain English so as to be intelligible to the transmitting Offices. Telegrams containing news or information not for publication, or containing Code words or words of concealed meaning, or groups of figures or ciphers, shall be paid for at the full tariff rates.

IV.—The news transmitted in such telegrams at the reduced rate must be duly published in the newspapers to which they may be addressed or satisfactory reasons be given for non-publication, in the absence of which full tariff rates will be chargeable.

V.—All Press telegrams at the reduced rate must be prepaid, except under special arrangements made by an authorised newspaper for a specially nominated correspondent.

VI.—The reduced rate for Foreign Press telegrams applies only when all the above conditions have been satisfied, and any subsequent claim made for the difference between the reduced and full rates must be satisfied immediately on demand.

137. *Other places.*—On exactly the same conditions Press telegrams can be sent to or from—

(*a*) Aden *vid* Bombay.
(*b*) Penang and Singapore *vid* Madras.
(*c*) Australia, Tasmania, and New Zealand *vid* Madras.
(*d*) Souakim *vid* Aden or *vid* Suez.
(*d*) France *vid* Suez. Telegrams to French newspapers must be in French.

138. *Cannot be Multiple.*—A Press telegram sent as above at reduced rates cannot be Multiple; in other words, it must be addressed to only one newspaper.

139. *How marked, &c.*—Foreign Press telegrams must be marked *Press* by the Senders, and the benefit of Press rates must be claimed by them at the time the telegrams are tendered for despatch.

140. Except as provided in the four preceding rules, Foreign Press telegrams to and from the above named places at reduced rates come under the general rules for Private Foreign telegrams.

141. *Press Telegrams for Ceylon* are accepted at reduced rates under the same general rules and conditions as Inland Press telegrams (see the Rules for Inland telegrams, Nos. 110 and 111). The reduced rates are as follows:—

From Offices in—	First 32 words or groups of three figures.	Every four additional words or groups of three figures.
	Rs. A. P.	Rs. A P.
India	1 8 0	0 3 0
Burma	2 4 0	0 4 6

In other respects Press telegrams for Ceylon come under the general rules for Private Foreign telegrams.

RECORDS.

142. *Time kept.*—The originals and copies of telegrams are kept for three days only in Government Telegraph Offices, after which time they are sent to the *Check Office, Government Telegraph Department, Calcutta,* where they are preserved for twelve months, and then destroyed.

143. *Secrecy.*—The originals and copies of telegrams can only be communicated to the Sender and Addressee on proof of identity, or to a person properly authorised by one of the two.

144. *Copies.*—The Sender and Addressee of a telegram or their authorised representatives can be given certified copies of the telegram or of the copy delivered if they apply to the Telegraph Office within three days or to the Superintendent of the Check Office at Calcutta within twelve months. For every such copy, a copying fee of four annas per 100 words or fraction of 100 words must be paid in advance. Copies cannot be given unless the date and description of the telegram are given.

145. *Preservation.*—Application may be made by an interested party to the Government Telegraph Check Office for the preservation of specified telegrams exchanged between other persons on the ground or pending of contemplated judicial proceedings. Such application must be made within twelve months of the dates of the telegrams, and such telegrams will then be preserved for a further period of four months, at the expiration of which time they will, in default of a renewed application, be destroyed. It must be understood that the duty of the Telegraph Department in the matter is confined to making the search and preserving the telegrams, if found. No information as to the result of the search will be furnished, and any telegrams answering the description given, which may be found, will only be produced on the order of a competent court of law or other competent authority.

146. *Fees for searching for telegrams.*—Should the particulars furnished be insufficient to enable the Check Office to at once trace the telegrams applied for under either Rule 144 or Rule 145, the cost of searching for them must be deposited by the applicant. A fee of one rupee is charged for searching through the telegrams of any Telegraph Office for one day: thus, if it be required to examine the telegrams of two Telegraph Offices over a period of five days, the searching fee will be ten rupees.

REFUNDS.

147. The Sender can claim a refund of—

(*a*) The full cost of every telegram which has suffered serious delay or failed to reach its destination through the fault of the Telegraph service.

(*b*) The full cost of every Collated (or Repeated) telegram which, in consequence of errors in transmission has clearly failed to effect its object.

Note.—No refund is given for errors made in the transmission of uncollated telegrams.

(*c*) The charge for every word omitted in transmission through fault of the telegraph service. This rule, however, is not applicable when the Addressee has discovered the omission, and had it rectified under Rule 86.

148. In case of interruption of a sub-marine line, the Sender of a telegram can claim a refund of the portion of the charge belonging to the distance not traversed, deduction being made of the expenses incurred, if any, in sending the telegram by any other mode of transport.

149. These refund rules do not apply to telegrams transmitted by the lines of States which are not parties to the Convention, or of Telegraph Administrations which do not observe its regulations.

150. The refund rules only apply to the cost of the actual telegrams lost, delayed or mutilated, including any supplementary charges collected, and to the charges for rectifying telegrams (Rule 88), but not to telegrams necessitated or rendered useless by the loss, delay or mutilation.

151. Every claim for refund should be made under penalty of rejection within six months of the date of the telegram.

152. Every claim should be addressed by the Sender to the Telegraph Administration under which the telegram originated (in India, to *the Superintendent of the Check Office, Telegraph Department*), accompanied by documentary evidence, namely, in case of non-delivery by a written statement from the Terminal Office or the Addressee, and in case of delay or error by the copy of the telegram delivered to him. In case of telegrams sent from India, the claim should be accompanied by the receipt (Rule 58). In case of telegrams received in India, the Addressee may send the claim to the Superintendent of the Check Office, who will decide whether the necessary action should be taken by the Check Office or by the Sender.

153. When a claim is admitted to be well-founded by the Administrations interested, the refund is made to the Sender by the Telegraph Administration under which the telegram originated (in India by the Check Office). No refunds are made to the Addressee in any case.

154. If the Sender does not reside in the country where he deposited his telegram for transmission, he can have his claim forwarded to the original Telegraph Administration through the medium of another Administration. In this case, the latter is deputed to make the refund, if need be.

155. No claim is admitted when a telegram is in question which, not being in accordance with the conditions prescribed for observance by the public with regard to composition, language, legible writing, address, instructions for transport beyond the lines, &c., has been accepted for transmission at the Sender's risk.

156. In case of delay, the claim for refund is absolute if the telegram did not reach its destination sooner than it would have done by post, or when the delay exceeds 144 hours.

157. When a telegram is stopped under Rule 3 or 4, the charge is returned to the Sender, if he claims it.

J. G. FORBES, *Col.* R.E.,
Secretary to the Govt. of India.

The following order, issued by the Government of India in the Revenue and Agricultural Department, is republished for general information.

NOTIFICATION.

FORESTS.

Simla, the 18th June 1891.

Advertisements.

[N.B.—Advertisements, Notices, &c., intended for insertion in this part of the Gazette, cannot be received after Noon on Monday.]

LAND SALE NOTICES.

Advertisement of sale of surplus railway land near the Belgachia over bridge.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal State Railway, in the district of 24-Pergunnahs, will be put up to sale at 2 P.M. on Saturday, the 6th July 1891, corresponding with the 23rd Ashar 1298, *on the spot*.

The purchasers of the several plots of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavation on the land nearer than fifteen feet from the railway fencing, or plough the land closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers shall be put in possession on receipt by the Collector of the orders of the Board confirming the sales.

SHYAMAPADA CHOWDRY, Collector.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Eastern Bengal Railway near the Hooghly Jubilee Bridge in the district of 24-Pergunnahs, will be put up to sale at 12 o'clock noon on Saturday, the 18th July 1891, corresponding with the 3rd Sraban 1298 (B S.), at the Naihatty Municipal Office.

The purchasers of the several plots of land will be subject to the following conditions :—

1*st*.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway fencing, or plough the land closer than three feet from its foundation.

2*nd*.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd*.—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4*th*.—The plots of land will be sold revenue-free to the highest bidders.

5*th*.—The purchasers will be put in possession, on receipt by the Collector of the orders of the Board confirming the sales.

Monghyr Collectorate, the 12th June 1891.

W. BRIGHT, Offg. Collector.

NOTICE is hereby given that the proprietory right of Government, as specified in the conditions of sale below, to the land occupied by the old sub-divisional cutcherry buildings at Aurangabad, in the district of Gya, will be put up to sale at the Office of the Sub-divisional Officer of Aurangabad on the 27th July 1891, corresponding with 6th Sawan 1298 Fasli.

The purchasers will be subject to the following conditions of sale :—

Conditions of Sale.

1*st.*—The estate will be sold to the highest bidder above the upset price, which will be fixed by the Sub-divisional Officer at the time of sale. The purchaser of this land will be considered as the proprietor of the land, and the entire proprietary right of Government in such land will be transferred to him.

2*nd.*—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3*rd.*—If the amount of purchase-money exceeds Rs. 100, one-fourth of the amount bid must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale will be cancelled (the sum deposited being forfeited to Government), and the lands will be again put up to sale at the risk of the defaulting purchasers after issue of advertisement as in the case of original sale.

INDIAN OCEAN—Seychelles group.

Position of a coral patch and shoal—Mahé island approaches.

The following Notice to Mariners (No. 207 of 1891), issued by the British Admiralty, is republished :—

The following information has been received from Commander A. F. Balfour, H.M. surveying vessel *Stork*, the result of a recent survey of Mahé island approaches, Seychelles group :—

1. A coral patch (*Stork patch*) with 3 fathoms water on it lies near the centre of Boileau bay, with Lazare point bearing S.E. ¼ E., and south extreme of Thérese island N. ¼ W., distant 2¾ miles. The sea was not seen to break on this patch, but the swell was increased near it.
   Approximate position, lat. 4° 43′ S., long. 55° 24½′ E.
2. The shoal heretofore marked on the Admiralty charts "1½ fathoms ?" lying in approximately lat. 4° 41′ S., long. 55° 20′ E., was unsuccessfully searched for, 10 fathoms being the least water found in the locality. This danger therefore has been removed from the chart.

3. Requins bank, hitherto shown on the Admiralty charts "Position approximate" in lat. 4° 33′ S., long. 55° 18′ E., is a coral patch with 10 fathoms water on it, and 20 to 25 fathoms close around, lying with N.W. point, Mahé island, bearing E. ½ S., distant 4 miles, and cape Ternuy S. ½ W.

Approximate position, lat. 4° 34′ S., long. 55° 22′ E.

ADMINISTRATION REPORT OF THE BENGAL METEOROLOGICAL DEPARTMENT FOR THE YEAR 1890-91.

THE following report is published for general information.

By order of the Lieutenant-Governor of Bengal,

C. E. BUCKLAND,

The 18th June, 1891. *Offg. Secretary to the Govt. of Bengal.*

THE Administration Report for the year 1889-90 having dealt with the detailed history of the Department for the previous three years, the present report will therefore have to deal briefly only with the principal facts of the year 1890-91, for this is the first year of the next triennial period, of which detailed criticism will be made in the report for 1892-93.

The Department was under the control of Mr. C. Little, Second Assistant to the Meteorological Reporter to the Government of India, for the period 9th April to 26th November 1890, who officiated for me during my absence to Europe on furlough, but for the remainder of the year it has been in my charge.

Compared with the very large changes which have been introduced into the working of the Department during the past three years, there have been in the year under review very few changes of importance, and the main work of the year has been spent in consolidating and perfecting the changes commenced in the previous two or three years and in carrying on the current duties of the Department.

Observatories.

The number of meteorological observatories submitting reports to the Department on the 31st of March 1891 in Bengal and Assam was 1 first-class observatory, 15 second-class observatories, 31 third-class observatories, and 6 voluntary observatories.

Sixteen other stations round the coast of the Bay of Bengal send in daily meteorological observations in connection with the Bay of Bengal Storm Signal Service. Of the observatories reporting for the Bay of Bengal Signal Service, 10 stations are not directly under the control of the Bengal Reporter, though observations from all 16 come to the office daily. These numbers are slightly different from those in former years from the following facts:—a new third-class station was established at the close of the previous year at Mozufferpore, which commenced to send in regular observations from 3rd April 1890. Pamban, a new third-class observatory, has been established in connection with the Bay of Bengal Storm Signal Service, and the first observations were received on the 2nd January 1891. Fort Tregear, a new voluntary observatory, was started under the medical officer in charge of the station, and commenced to send observations from 10th of June 1890. A new voluntary observatory was also arranged for during the year at Kalimpong in the Darjeeling district under the supervision of the Revd. Mr. Sutherland, but this is not included in the number (6) of voluntary observatories given above, for though the observatory was erected and supplied with instruments during the year under review, the actual work of observation did not commence until 1st April 1891. There has therefore been an increase of three meteorological observatories sending in returns to the Department beyond those reporting on the same date last year.

Two hundred and fifty-seven rainfall-recording stations also sent in daily and weekly returns of rainfall to this Department on 31st March 1891. In the case of the rainfall-recording stations, one station (Jiagunge), in the Moorshedabad district, had to be closed during the year, and thus there has been a decrease of one from the number formerly recording.

Inspection of observatories.

Twenty-five visits of inspection to various observatories under the Bengal Meteorological office have been made during the year by different officers of the Meteorological Department; of these, two were made by the Meteorological Reporter to the Government of India, four by the Bengal Reporter, two by the Madras Reporter, three by the Second Assistant to the Meteorological Reporter to the Government of India, and fourteen by the Personal Assistant to the India Reporter. This is about the usual proportion of observatories inspected during the year, but the number personally inspected by the Bengal Reporter is smaller than has hitherto generally been the case. This is inevitable, for the Bengal Reporter has been made responsible for giving warnings of all storms in the Bay of Bengal to all the important coast ports at all seasons of the year, and thus he has now practically few opportunities for leaving Calcutta on inspection tour, and can only do so at seasons when no storms are likely to occur. The results of these inspections will not be given in detail till the report for 1892-93, but some of the chief points noted in them will be alluded to in the next section, where the general work of the observatories for the year is briefly reviewed.

The following were the observatories under the Bengal Reporter inspected during the year:—

Arrah.	Gya (twice).
Bankipore (twice).	Jessore.
Bhagulpore.	Krishnaghur.
Bogra.	Motiharee.
Buxar.	Mozufferpore (twice).
Chupra.	Nellore.
Cuddalore.	Pooree.
Dinagepore.	Purneah.
Durbhanga.	Rampore Beauleah.
False Point.	Ranigunge.
Gopalpore.	Rungpore.

Work at observatories.

Generally the work at the observatories has been about equal to the standard in former years, and on the whole the work of the observers has been good.

First-class observatory.—The only observatory of this class is at Alipore (Calcutta). It is under the supervision of the Meteorological Reporter to the Government of India, though the observations made there are supplied to the Bengal Office. Its working is therefore not reviewed in this report.

Second-class observatories.—Only three out of fifteen second-class observatories were inspected during the year, so that the condition of this class has had to be mainly judged by the observations submitted. Judged by this standard,

Akyab, Berhampore, Burdwan, Dhubri, Hazaribagh, Bankipore, Saugor Island, Sibsagar and Silchar have worked very well during the year. The observers at Cuttack and Darjeeling have sent, on the whole, good observations. The observers at Dacca and False Point have been rather more careless than in the previous years, while the observer at Chittagong has earned the reputation of making more mistakes than made at any other observatory reporting to this office. Of the three observatories of this class which were inspected, Bankipore and False Point were found to be in very good order. In the case of Durbhanga, however, all the instruments, except the barometer, were in a most disgraceful condition at the time of inspection, and it was also ascertained that the observer was in the habit of deputing a private assistant of his own to do the meteorological work. The observer also was so careless in every way both in the matter of observations and in the submission of returns, &c., that as a punishment, his meteorological allowance was suspended for a period of eight months from August 1890 to March 1891 inclusive.

Third-class observatories (including the observatories at the coast ports directly under the Bengal Reporter).—Of these, seventeen were inspected during the year. Mozufferpore was visited at the beginning of the year to erect the instruments in proper position and to instruct the observer, and the observatory was started under very favourable circumstances. It was inspected at the end of November, but the observatory was found in bad condition and the observer was very careless in his work. The observer was fined and severely warned. Gya was inspected twice in the year, and the instruments were found in very fair order on each occasion. Ranigunge, Jessore, Krisnaghur, Bogra, Rampore Beauleah, Purneah, Bhagulpore, Motiharee, Arrah and Buxar observatories were also inspected and found in fairly good condition, while Rungpore, Dinagepore and Chupra were found in somewhat bad condition. Pooree observatory was inspected for the first time since its establishment in 1888. The observatory is situated close to the sea, the thermometer shed being in a small hollow on the land side of the sand bank thrown up by the action of the sea. The barometer is kept in the observer's house about 30 yards from the shed, and the wind instruments are on the roof of the Road-cess building, which gives them excellent exposure, though they are rather distant from the other instruments. The observer had kept the instruments in decidedly bad order, and it was found that he used to send a chuprasee to take the wind observations which were consequently quite unreliable. He was therefore fined half a month's allowance Gopalpore observatory was also inspected for the first time since its erection in 1880. The observatory almost faces the sea, and is close to the end of the pier. It was found that the observer had kept the instruments in good order, and that he understood his work and was punctual in doing it. The exposure of the wind instruments was particularly good, as they are erected at the end of the pier. Owing to an oversight, no shed had been provided at Gopalpore for the thermometers, but it has since been arranged to provide one of the usual pattern.

No reports of the inspection of the Nellore and Cuddalore observatories have been forwarded by the Madras Reporter. These observatories were probably in good order at the time of inspection, otherwise the attention of the Bengal Meteorological office would have been called to the defects with a view to their being remedied.

As judged by the accuracy of the observations sent in to the Meteorological office, the observers at Bhagulpore, Bogra, Buxar, Coconada, Cuddalore, Gopalpore, Jessore, Krishnaghur, Madras (Port Office), Maldah, Motiharee, Mymensingh, Nellore, Nya Doomka, Pamban, Purneah, Rampore Beauleah, Ranchee, Serajgunge, Sibsagar, Silchar and Tavoy have worked very well throughout the year. The observers at Bankoora, Chybassa, Dehree, Dinagepore, Furreedpore, Julpigoree, Midnapore, Pooree, Ranigunge and Rungpore have been more careless in their work, and Julpigoree also in other ways has given considerable trouble. The observers at Arrah, Burrisal, Chupra, Mozufferpore and Noakholly have all been decidedly careless in their work during the year, and have been fined once or more, while the observers at Balasore, Comilla and Gya have been exceptionally bad throughout the year, sending in very inaccurate observations, and they have had to be fined several times and also warned severely for their carelessness.

Meteorological returns are also received from six voluntary observatories. The most important station under this class is Vizagapatam, where the

observatory is under the direction of Mr. A. V. Nursing Row, who has continued to favour the Department with his daily observations, which are of the highest order of accuracy and which are received with great punctuality. On every occasion, also on which extra observations have been asked for in connection with stormy weather in the Bay, Mr. Nursing Row has sent them most promptly. The thanks of the Department are therefore again due to Mr. Nursing Row for his continued valuable co-operation, particularly in connection with the work of the Bay of Bengal Storm Signal Service. The voluntary observatory at Shortt's Island under the superintendence of the Light-house-keeper, Mr. Tasker, has also sent in most trustworthy and valuable observations, and particularly on the occurrence of stormy weather very valuable special series of observations have been made. The voluntary observatories at Tura, Demagiri, Lungleh and Fort Tregear under the superintendence of the medical officers in charge of the respective stations have also sent in valuable sets of observations throughout the year, and the thanks of the Department are therefore due to the gentlemen in charge of these five observatories.

The work at the observatories generally has been the same as that carried out in former years with one slight exception in the matter of observations with solar radiation thermometers. Previous to 1889-90 the number of stations at which these instruments were employed had been largely reduced, and in that year observations were only taken at the following stations:—Darjeeling, Dhubri, Hazaribagh, Saugor Island and Sibsagar. From 1st January 1891, however, it was decided to discontinue the use of these instruments altogether, and the thermometers have therefore been withdrawn, and the small additional allowances drawn by observers for making these observations have in most cases been suspended.

In connection with the work at the observatories, it is desirable also to record that the plan of giving small separate additional remuneration to those observers who send in good additional meteorological observations during stormy weather has answered very well. Many observers now make it a regular practice to take systematic, and in some cases numerous, sets of observations during the occurrence of storms, and much valuable material is accumulating for the scientific discussion of the various classes of storms which occur in Bengal.

The rain-gauge stations on the whole have worked very satisfactorily throughout the year; and considering that this is unpaid work, and that such various classes of persons, as Civil Surgeon's clerks, hospital assistants, school-masters, sub-postmasters, police officers, rural registrars, &c., &c., are employed in it, the punctuality and accuracy of the returns sent in is very commendable.

Departmental reports.

The *Annual report of the meteorology of Bengal* in the year 1889 was prepared as usual and submitted in August 1890 for incorporation in the Bengal Administration Report. It was illustrated by the usual number of charts.

The *Report on the meteorology of Bengal for the monsoon season* of 1890 was prepared and submitted to Government on 23rd December 1890. It was also illustrated by maps. The report was published in the *Calcutta Gazette* of the 31st December 1890.

The *Monthly meteorological reports* for Bengal and Assam have been regularly published about the 10th to the 15th of each following month in the *Calcutta Gazette*, the report dealing fully with the meteorological and rainfall statistics of Bengal, but with the meteorological statistics only of Assam. Monthly charts of the rainfall distribution, its variation, &c., in the monsoon season were also submitted to Government and to the Sanitary Commissioner. A slight change has taken place in the monthly report in the periods for which the actual rainfall of any year is compared with the normal rainfall. The change was introduced by orders of the Government of Bengal, and the periods which are now adopted for rainfall comparison in the monthly as well also as in the weekly reports and in the daily report published during the monsoon season are as follows:—1st April to 15th May, 16th May to 15th October, and 16th October to 31st March.

The *Weekly reports* have been published regularly throughout the whole year in the *Calcutta Gazette*. In addition to the change mentioned in the preceding paragraph, an additional change was introduced into the weekly reports from the beginning of January 1891. Up till that date it had been the custom to close the meteorological and rainfall week on Friday at 8 A.M., but in order

to bring the Bengal meteorological week into conformity with the rainfall and meteorological week which was to be adopted from 1891 by the Meteorological Department of the Government of India, and also by all other provinces in India, it was decided to close the week on Saturdays at 8 A.M. instead of on the previous day. The meteorological summary with the meteorological and rainfall tables for each week ending Saturday are now published in the *Calcutta Gazette* on Wednesday mornings, and thus the reports for the week come out only four days after the observations over the whole of Bengal have been taken.

The *Daily weather report* dealing with the meteorology of the inland stations in Bengal and in Assam was published during the period 26th April to 31st October 1890. This report contained the observations made daily at 45 stations, being three more than had been reporting by telegram during the previous year. Telegraph stations having been recently established at Chybassa and Noakhally advantage was taken of them to receive daily telegraphic reports of the observations made at those stations, and also daily telegrams were received from the new observatory which had been established at Mozufferpore. The only other change proposed in this report is the alteration of the dates of the comparison of the rainfall statistics. This, however, will only come into force in the reports of the year 1891-92. Of this report 103 copies were daily issued to Government officers and 16 copies to subscribers at the rate of Rs. 2-8 per month.

The *Bay of Bengal weather report and chart* in connection with the Storm Signal Service has been published daily, Sundays and holidays included, at about 10-30 A.M. to 11 A.M. throughout the whole year. This report is issued to 48 Government officials free of charge and to 24 subscribers at the rate of Rs. 2 per month. The subscriptions during the year have been sufficient to pay the cost of the lithographic establishment, and the balance of this account is kept to provide new lithographic presses, &c., when required. The only change made in the form of this report during the year was by the addition of Pamban to the number of reporting stations. The first daily telegram for the report from Pamban was received on 2nd January 1891.

It has been mentioned in previous annual reports that during stormy weather or even when strong winds were commencing, the telephonic communication with False Point observatory generally gave way, and that this station became useless at the time when observations from it were most urgently required for forecasting the weather in the northern part of the Bay. At the instance of the Government of Bengal, the Telephone office at False Point was converted into an ordinary Telegraph office on the 11th of June 1890. This constitutes a most valuable improvement, and one serious chance of failure to give notice of the advance of storms to the north-west angle of the Bay has thus been removed.

In connection with the Bay of Bengal weather report, daily telegrams are issued at about 11 A.M. giving a description of the weather changes in the various parts of the Bay, and indicating the general character of the weather to the following ports:—Negapatam, Madras, Coconada, Rangoon, and Akyab. The telegrams are framed according to a special telegraphic code prepared for the purpose, which has proved to work very well. Rangoon Port Officer and Port Commisioners) received these daily telegrams from 26th June 1890; the Madras ports—Madras, Negapatam, and Coconoda, from 4th April, 27th June, and 28th June respectively, and Akyab from 1st of January 1891 till 30th April 1891, this being the period when ships are commonly lying in this port.

The system of forwarding meteorological information from the pilot-brigs at the Sandheads to this office by flag hoists shown by the pilots in charge of vessels as they pass Saugor Island Light-house has been continued throughout the year. The telegraphic code devised for this purpose has proved very successful, and an average monthly number of about 16 telegrams is received in this way.

Working of the storm signals.

The responsibilities of the Bengal Reporter have been slightly enlarged during the year by the addition of Naraingunge to the list of ports appointed to receive warnings. The signals selected for this port and their meanings are very similar to those used at Chittagong, but with a few necessary verbal alterations. The signals at Naraingunge will be hoisted by the station-master on receipt of instructions from the Meteorological Office.

On the whole, the year 1890 was remarkably free from anything like very severe storms, but such storms as did occur were carefully watched and their positions and their probable character and line of march were notified to the ports interested as far as could be done. More or less detailed reports of all the small storms occurring have been given in the weekly and monthly reports.

The dates of the principal storms occurring during the year are given in the first of the two tables below, and the action taken by this office in the matter of storm warnings and signals is indicated in the second of these tables—

Table giving a brief statement of the storms which affected the Bay of Bengal coasts during the year 1890.

No. of storm.	Period of depression or storm.	Character of storm.	Coast affected.
1	June 17th to 19th ...	Feeble depression formed off the Orissa coast.	Crossed the Orissa coast near Pooree on the 19th.
2	June 30th to July 2nd ...	Small storm formed in the north-west of the Bay.	Crossed the coast near False Point on the night of the 1st July.
3	September 22nd to 23rd	Feeble depression formed in the Bay off Vizagapatam.	Crossed the Ganjam coast between Gopalpore and Vizagapatam on the 23rd.
4	October 8th to 16th ...	Small storm formed in the south of the Bay.	Crossed the coast on the morning of the 13th near Gopalpore.
5	October 20th to 22nd ...	Feeble depression formed in the east of the centre of the Bay.	Crossed through the Sunderbans on the 22nd.
6	October 30th to November 1st.	Feeble depression formed in the centre of Bay.	Struck the Madras coast, a little north of Madras.

Special reports.

The Meteorological Office staff under the very able superintendence of the head-clerk, Babu Fanindra Mohun Basu, has worked excellently throughout the year, and this has enabled all the returns, maps, &c, published by this office, to be issued with great punctuality.

RESOLUTION ON THE ADMINISTRATION REPORTS OF THE ALIPORE AND HAZARIBAGH REFORMATORY SCHOOLS FOR THE YEAR 1890.

RESOLUTION.

JAILS.

Dated Darjeeling, the 17th June 1891.

READ—

(1) Letter No. 3785, dated the 9th April 1891, from the Inspector-General of Jails, forwarding the Administration Report of the Alipore Reformatory School for the year 1890.

(2) Letter No. 3786, dated the 9th April 1891, from the Inspector-General of Jails, forwarding the Administration Report of the Hazaribagh Reformatory School for the year 1890.

The Reports for the year 1889 and the orders of Government recorded thereon.

The Alipore School.—The number of boys in this school rose from 108 in the beginning of the past year to 135 at its close. The school is capable of holding 224 boys. There were 52 admissions, while 24 boys were released and one died. Notwithstanding an increase in the daily average number of boys from 108·20 in 1889 to 116·67 in 1890, both the number of offences and punishments fell from 356 and 328 to 120 and 100 respectively. This is about one offence per boy, instead of three as in former years; in Hazaribagh, too, the ratio of offences was about one per head, and the previous high figure at Alipore must have been due to a change in system. With an increase in the number of boys there has been an increase in the money rewards earned. More boys were punished with forfeiture of marks than in the preceding year, and penal diet was resorted to as a punishment in one case only, against 59 in 1889. The return of sickness is not so satisfactory as in the preceding year. The average number admitted to hospital rose from 1·70 in 1889 to 2·78 in 1890. A large number of boys suffered from chicken-pox during November and December last. There was only one death, a case of cholera which ended fatally.

2. To provide accommodation for the increasing number of boys, 116 cubicles were added to the building during the past year. The working hours of the school remained the same as in the preceding year. The boys work for seven hours, and have in addition one hour of compulsory school. The attendance at the night school, which is held from 6 to 8 P.M., is optional, and it is satisfactory to observe that the average number of boys who preferred to attend the night school increased from 100 in 1889 to 110 in 1890. The mark system continued to work well. The number of boys entitled to marks considerably increased, and the average weekly earnings rose from Rs. 2-10 in 1889 to Rs. 3-9-5. The total amount earned during the year was Rs. 243-5, including the payments made for extra work, of which Rs. 154-8 were deposited in the Government Savings Bank, the balance being spent in the purchase of fruits and sweetmeats for the boys.

3. From the reports received during the year regarding 80 released boys, it appears that 10, or 12·5 per cent., have been reconvicted and sent to jail; one does not bear a good character, and the remaining 69 boys, of whom only 4 follow the trades they were taught at school, are believed to be leading honest lives. The fact that so small a number are engaged in the trades they learnt in the school agrees with what is believed to be the experience of our jails and reformatories all over India. The number of trades which can conveniently be taught is limited, and when the boys return to their own villages, caste prejudices and hereditary customs prevent their following those trades.

4. The total expenditure of the school decreased from Rs. 14,887-11 to Rs. 13,988-8-4. The cost of diet rose from Rs. 3,653-10-9 to Rs. 3,943-0-10, and the increase was proportionate to the larger number of boys detained during the past year. The cost of maintenance per head decreased from Rs. 137-9-5 in 1889 to Rs. 119-9 in 1890. The decrease is in the two heads of Buildings and Fixed establishment, but the cost per head under the latter item, Rs 71-10-8, is still very high

5. The profits from the Manufactory Department amounted to Rs. 9,901-13-4, against Rs. 7,313-15-8 in 1889. The value of labour of the boys is not as usual shown in the accounts, nor is any allowance made for the wear and tear of block. The largest number of boys were employed on carpentry, which returned a profit of Rs. 2,919-13-4, against Rs. 1,267-12-2 in 1889. Book-binding comes next with a profit of Rs 2,876-11-4, against Rs. 3,074-4-5, and the decrease is due to slackness of demand for this work during the first seven months of the year. There was also a falling off in work for the Printing Department during the first part of the year; hence the decrease in profits from Rs. 1,086-0-6 to Rs. 779-14-1. The printing work was, however, in full swing during the remainder of the year. The profits from tinsmiths' work and cane work amounted to Rs. 1,804-5-10 and Rs. 649-4-7, against Rs. 1,144-1-10 and Rs. 383-15 respectively. The Superintendent proposes the erection of extra workshops, the present accommodation being only sufficient for 135 boys now detained in the school. The proposal should be submitted separately.

6. The Lieutenant-Governor is glad to see that Mr. C. J. Courtenay, the new Superintendent of the School, has been favourably mentioned by the Board of Management. His Honour's acknowledgments are also due to the Board of Management.

7. *The Hazaribagh School.*—The number of boys confined in this school rose from 267 at the close of 1889 to 291 at the close of 1890. The school is capable of holding 306 boys. The daily average population was 280·7, against 244·06 in 1889. The health of the school during the past year shows an improvement as compared with the previous year. There were two deaths—the same number as in 1889.

8. Discipline appears to have been well maintained during the year, but the number of offences committed by the boys increased from 268 in 1889 to 308. There were 150 cases of fighting and offences against discipline, against 91 in 1889. Of the punishments inflicted, gunny clothing shows an increase from 15 to 40, solitary confinement from 1 to 11, handcuffs from 23 to 37, and the number of boys locked up during play hours rose from 13 to 34. Two boys escaped during the year, but were soon recaptured and punished with imprisonment for two months. The boys who lent their assistance in the escape were flogged, and the warder on duty at the time was fined. The warder staff has since been increased, and it is hoped that such escapes will not take place in future.

9. The daily routine is the same as at the Alipore, except the hours of the night school, which differ slightly. All the boys of the institution, with the exception of the sick, attended the night school during the past year. The mark system continued to work well. The average earning per week amounted to Rs. 10-11-11, against Rs. 10-11-3 in 1889 The total earnings were Rs. 562-2-6, against Rs. 556-9-6 in the previous year.

10. Reports were received during the year regarding 94 released boys: 57 reports were favourable; in 13 cases the whereabouts of the boys were not traceable; 5 boys were reconvicted and sent to jail and 6 were looked upon with suspicion by the police; 7 boys continued to work at the trades they learned in school, and 6 died.

11. The total expenditure per head fell from Rs. 92-10-1 in 1889 to Rs. 75-4-11 in 1890. It is very creditable to the management of the institution that there was a decrease in every item of expenditure except hospital charges. The cost of diet per head fell from Rs. 29-11-5 to Rs. 25-11-5. The decrease is attributed to lower prices paid for the chief articles of food. The cost of fixed establishment here is only Rs. 32-1-6 per head.

12. The manufacturing account shows a profit of Rs. 2,746-12, against Rs. 3,757-2-11 and Rs. 3,301-7-8 in 1888 and 1889 respectively. There is a very limited local market for the articles manufactured in the Hazaribagh Reformatory, and this stands in the way of the manufactures being carried on on a more extensive scale. The shoe-making industry has proved a failure. There was a considerable improvement in the weaving industry which brought in a profit of Rs. 1,496. A portion of the jail work in this branch of the industry has been made over to the school.

13. The Lieutenant-Governor is glad to notice that the official visitors continue to take much interest in the school, and that Mr. Hill, the Deputy Superintendent, discharged his duties satisfactorily. The Superintendent also deserves credit for the good management of the school.

ORDER.—Ordered that a copy of the Resolution be forwarded to the President of the Board of Management of the Reformatory School at Alipore for information and communication to the Members of the Board.

Ordered also that a copy of the Reports and a copy of the Resolution be forwarded to the Inspector-General of Jails for information and communication to the Superintendent of the Hazaribagh Reformatory School.

Ordered also that the Resolution be published in the *Calcutta Gazette*.

By order of the Lieutenant-Governor of Bengal,

JOHN EDGAR,

Chief Secretary to the Govt. of Bengal.

RESOLUTION ON THE ANNUAL REPORT OF THE BOTANIC GARDEN FOR THE YEAR 1890-91.

FINANCIAL DEPARTMENT.

Dated Darjeeling, the 18th June 1891.

RESOLUTION.

READ—

The Annual Report of the Botanic Garden, Calcutta, for the year 1890-91.

The Report for the year shows that steady progress has been made in improving the Botanic Garden not only as a scientific centre of the highest value to all botanical students, but also as a pleasurable and instructive resort to the public. More than 20,000 specimens were added to the Herbarium, illustrating the Flora of regions so widely removed as Central Asia, Australia, Assam, Perak, the Shan States, the Khasia Hills, the Andaman Islands, and the Great Coco Island. To the contributors of these specimens, Messrs. Mann, Lace, Gamble, Curtis, Ridley, S. Peal, and L. Wray, Generals Collett and Gataere, and Baron von Muller, the thanks of Government are due. Arrangements were also made for continuing the work of collection in Assam, Upper Burma, and the Andamans.

2. A third volume was added to the interesting series of garden annals, containing monographs by Dr. King and Dr. Prain on certain Indian and Indo-Malayan species. Unfortunately, however, owing to unavoidable delays, it was found impossible to publish the volume within the year. Both the Superintendent and the Curator of the Herbarium also contributed valuable papers on botanical subjects to the Journal of the Asiatic Society.

3. The Lloyd Botanic Garden in Darjeeling, which is under Dr. King's supervision, is reported to be in good order Under recent arrangements the Curator of this garden is charged with the task of improving the station of Darjeeling by planting and looking after young trees. In course of time it is hoped that the damage done in past years by the wanton destruction of fine trees may be in some measure repaired.

4. The thanks of the Lieutenant-Governor are due to Dr. King, the Superintendent, and Dr. Prain, the Curator of the Herbarium, for the successful administration of the garden during the year.

ORDER.—Ordered that a copy of this Resolution, and of the Report, be submitted to the Government of India, in the Revenue and Agricultural Department, for information.

Ordered also that a copy of this Resolution be forwarded to the Superintendent of the Botanic Garden for information.

By order of the Lieutenant-Governor of Bengal,

H. H. RISLEY,

Offg. Secy. to the Govt. of Bengal.

No. 150, dated Seebpore near Calcutta, the 20th May 1891.

From—BRIGADE-SURGEON GEORGE KING, M.B., LL.D., F.R.S., C.I.E., Superintendent, Royal Botanic Garden, Calcutta,

To—The Secretary to the Government of Bengal, Financial Department.

I HAVE the honour to submit herewith the one hundred and fourth Annual Report of the Royal Botanic Garden.

ANNUAL REPORT OF THE ROYAL BOTANIC GARDEN, CALCUTTA, FOR THE YEAR 1890-91.

As regards outdoor operations in the garden, there is but little that is of general interest to report for the year. One of the main driving roads leading from the Howrah gate was—thanks to a special grant of money made by Government for the purpose—put into excellent repair. The road round the great banyan tree was moved further out from the tree, and a new approach to the tree from the north was aligned and metalled; while the levels of the whole neighbourhood of the tree were improved, so that rain-water may in future drain freely off. The condition of many of the other driving roads within the garden is far from good, and the efforts of the outdoor staff must for some time be directed to their improvement as far as the funds at my disposal may admit.

A good deal of damage was done to the parts of the garden near the river by the unusually high tides which prevailed for three days towards the end of the rains. Weak points in the embankment along the river have since been strengthened, and low places have been heightened, so as to prevent the recurrence of similar mischief in future years. The Department of Public Works having during the year completed the wire fence along the whole of the garden boundary not previously defined by a wall, the encroachments of unscrupulous outside cultivators and others have, it is to be hoped, been put an end to for ever. The condition of the conservatories is satisfactory, and the health of the plants cultivated in them leaves little to be desired. The collection of orchids, which is grown in one of them, bloomed with special luxuriance this season, the display of flower eclipsing even that of the previous year.

2. *Economic plants.*—Much attention has as usual been given to the cultivation and distribution of plants of economic interest. No new introduction of importance was, however, made during the year.

3. *Herbarium.*—Work in the herbarium was as active as usual, the whole of Dr. Prain's time and a large portion of my own having been devoted to it. The accessions of new specimens during the year have been of such importance that I give a list of them as an appendix. From this list it will be seen that these accessions considerably exceeded 20,000, and that no fewer than 6,311 of these were sent from the Royal Herbarium at Kew, thus deepening the debt which the Calcutta collection already owes to that great national institution. The Royal Garden of St. Petersburgh also contributed 1,150 specimens, chiefly collected by the Central Asian explorers Przewalski and Potanin. Mr. G. Mann, Conservator of Forests in Assam, contributed no less than 1,284 specimens, chiefly consisting of bamboos and Magnoliaceæ which, after having been named, shall be distributed (according to Mr. Mann's desire) to the great herbaria in Europe. Other Forest officers who contributed during the year are—Mr. Lace, who sent a beautiful suite of 450 Beluchistan plants; Mr. Gamble, who sent 83 critical species; and Mr. Curtis of the Penang Forest Department, who sent 395 very interesting species. From the Botanic Gardens at Melbourne the indefatigable veteran, Baron Von Muller, F.R.S., contributed no less than 761 species; while Mr. Ridley of the Singapore garden sent 845. To General Collett, C.B., we are indebted for 304 critical plants from the Khasia Hills; to General Gatacre for 127 species from the Shan States in Burma; to Mr. S. Peal for 210 specimens from Sibsagar, Assam; and to Mr. L. Wray, junior, for 853 from Perak. By collectors working directly under the agency of the garden, 6,783 specimens were brought in. Chief amongst these are 1,288 brought by Dr. Prain as the result of his exploration of the Great Coco Island; and about 1,800 collected in the Andamans under the direction of Mr. E. H. Man. Mr. Gammie, junior, sent 585 from Sikkim; while my own journeys to the Andamans and Khasia Hills yielded 960. On the other hand, 4,229 specimens (all carefully named) were issued to the principal herbaria in Europe.

4. *Botanical collections in Burma and Assam.*—As stated in my last annual report, the Government of India now gives an annual grant of Rs. 1,000 for the botanical exploration of the provinces of Burma and Assam; while the Governments concerned make similar grants, and also give facilities for collecting. During the year full advantage was taken of these arrangements so far as funds would admit; and, as a result, I visited Assam so as to organise collecting operations in that province. With the kind assistance of the late lamented Chief Commissioner (Mr. Quinton) and of Mr. Mann, Conservator of Forests, arrangements for employing native collectors were made which have already borne fruit I also visited the Andamans where, by the extreme kindness of the Chief Commissioner, Colonel T. Cadell, V.C., and the friendly help of Mr. E. H. Man, I was enabled not only to make collections myself, but to arrange for the continuation of the work by Burmese. By the kind permission of Captain Hoskyns, R.N., of Her Majesty's surveying ship *Investigator*, Dr. Prain (Curator of the Herbarium) was not only allowed to accompany that vessel during part of her operations in the Bay of Bengal; but, by a special arrangement also made by the kindness of Captain Hoskyns, Dr. Prain was put down a second time on the Great Coco Island for a few days, and was also enabled to pay short visits to the Little Coco and to Rutland islands. Except for the visit made by Dr Prain under similar circumstances last year, the

Great Coco had not previously been explored by a botanist, and the Little Coco and Rutland islands were this year visited for the first time. Accounts of these visits will in due time be published by Dr. Prain. A Eurasian collector, named Prazer, was subsidised as a collector in Cachar and the Chindwin valley; while a Mussalman collector, named Abdool Hok, was sent from the garden to the Shan Hills in Upper Burma. Both of these men did fairly good work. Dr. Leslie was also kind enough to arrange for collections being made at some of the frontier stations in Burma. By the kind permission of Colonel Woodthorpe, C.B. (the Chief of the Intelligence Department), Lieutenant Colomb of that Department was so good as to look after a collector in a journey which he made at the base of the Eastern Himalaya, and some very interesting specimens were thus added to the herbarium.

5. *Publications.*—During the year the bulk of the material which is to be published in the third volume of the Garden Annals was prepared. That volume is to contain four memoirs. The first of these, on Indian species of *Pedicularis* by Dr. Prain, was (as stated in my last report) prepared during the previous year. The third memoir, on the genus *Gomphostemma*, also by Dr. Prain, and the second and fourth by myself, on Indian *Magnoliaceæ* and on Indo-Malayan species of *Myristica*, were elaborated during the year under review. Owing to unavoidable delays, it has not been possible to issue the volume within the year, but its publication will not much longer be delayed. Dr. Prain has contributed to the journal of the Asiatic Society a paper on a new species of *Elsipanthus*, also a second and much longer paper on Indian *Labiatæ*, in which 46 species (23 of which are new to science) are added (as the result of recent exploration) to the Flora of British India. Parts 1 and 2 of a series of papers by myself on the Malayan Flora have also been contributed to the journal just mentioned.

6. *Library.*—The work of rebinding the library has been continued during the year. A few new books have been acquired by purchase; while, from the Director of the Royal Garden at Kew, there have been received a large number of books—some of them of very great interest—withdrawn as duplicates from the library of that noble institution.

7. *Interchange of plants and seeds.*—The distribution lists attached as appendices to this report show that, during the year, 18,816 plants were received and that 55,204 were distributed; while of seeds 1,714 packets were received and 3,132 were issued. As usual, the recipients both of plants and seeds were mostly public officers.

8. *Lloyd Botanic Garden, Darjeeling.*—This branch garden was throughout the year under the charge of Mr. W. A. Kennedy, its Curator. The garden, which I recently inspected, is in very good order. In addition to his work in the garden itself, Mr. Kennedy is charged with the difficult task of planting and conserving trees in the barest and ugliest spots within the station, and especially in the bazar. Such trees have to be protected for years, not only from the ravages of goats and cattle, but from the recklessness of passing Nepalese and Bhutias, who seem to delight in trying newly-purchased kookries and dahs on the slender stems of these unfortunate nurslings.

9. The sums provided in the budget for the maintenance of the gardens both at Calcutta and Darjeeling were spent in full; and the estimated revenue was, with the exception of a few rupees, realised in both.

10. The Library and Herbarium were during the year in charge of Dr. Prain, whose zeal and devotion are beyond any praise of mine. I have here to acknowledge the kind assistance invariably given when asked for by the authorities at Kew, and especially by Mr. W. Botting Hemsley, F.R.S., when (as not unfrequently happens) knotty botanical points are submitted to them for solution. Mr. McHardy, recently Curator of the garden, resigned during the year, and his place was taken by Mr. R. L. Proudlock, who has worked with much energy and intelligence. For a few months, Mr. A. C. Hartless, of the Cinchona Plantation, was brought down to give assistance; but on the arrival from Kew of a new Assistant Curator in the person of Mr. G. T. Lane, Mr. Hartless returned to Mungpoo. During his spell of service here, Mr. Hartless did excellent work. My office staff have worked well, and my acknowledgments are particularly due to the head of the office, Babu Gopal Chunder Datta.

* Mean of 6 days.

Explanation.—Summary.—The normal means of air pressure and temperature are the arithmetical average or means of the reading during the same period for the last The *Humidity* of the atmosphere is expressed as percentage, saturated air being presented by 100. A clear sky is denoted by 0 and an overcast sky by 10. The numbers are the numerical means or average of the rainfall in that district determined from the returns sent in by the sub-divisional station for the period in question during the past stations in the district sending in returns divided by the number of stations. A rainy day is one on which at least a tenth of an inch fell.

for the week ending Saturday, the 20th of June 1891.

Explanation.—..... indicate that no rain has fallen. If the return for any day has not been received, the corresponding space is left blank. If any of the returns are wanting, the corresponding spaces in the total rainfall columns are left blank. With reference to the column of rainy days, the definition of a rainy day is when at least 0·1 inch of rain has fallen.

CALCUTTA, *the 23rd June* 1891.

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL, AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE WEEK ENDING SATURDAY, THE 20TH OF JUNE 1891.

DURING the week ending June 13th a wave of moisture-laden winds, which had been brought up over Bengal from the Bay by the action of two storms, had been gradually but steadily driven back from the province, and at its close rainfall had entirely ceased in all districts except in North and East Bengal, where a few isolated showers were still falling. The south-west monsoon current was blowing fairly strongly in the south and towards the centre of the Bay, but the rainfall brought up by it was being deflected in an easterly direction over Burma, where moderately heavy general rainfall was being received. The conditions which thus obtained at the close of the previous week have remained practically unaltered during the week now under review. The conditions therefore during the week have been, briefly, almost complete absence of rain except over parts of East and North Bengal, cloud proportion lower than usual, pressure rather above the normal, together with abnormally high temperature, which has also been accompanied by high humidity over the greater part of the province.

The changes from day to day have been comparatively unimportant, and have been of the usual oscillatory character accompanying fine settled weather. On the 14th pressure had risen moderately and had become above the normal in the southern districts; temperature was rising rapidly at all except the south-eastern stations, and winds were westerly over the western half of the province, and southerly and south-easterly elsewhere. A few stations in East and North Bengal on this day reported rain, the falls being heaviest in and near the hills of North Bengal. On the 15th the meteorological changes were almost exactly of similar character to those of the 14th; on the 16th temperature and pressure commenced to fall, but the winds remained unaltered; rainfall was confined to the same districts, but on this day Buxa (Darjeeling Hills district) reported the very heavy fall of 6·86 inches of rain. A further slight fall of pressure and temperature took place on the 17th, and the westerly winds in the west of the province were rather weaker than they had been, and rainfall in East and North Bengal was rather lighter and in North Bengal more local in character. On the 18th the pressure and temperature conditions were reversed, and they began to increase, while winds remained unchanged. On this day a few local showers of rain were reported in South-West Bengal in addition to the falls in East and North Bengal. On the 19th pressure was falling, though temperature was rising, and again a few local showers were reported in South-West Bengal in addition to the falls in East and North Bengal; while on the 20th pressure had fallen by about a twentieth of an inch, and temperature was rising at all except some of the northern and western stations; winds were unchanged and were westerly at some of the western stations, and southerly and south-easterly elsewhere, while the wind force at the head of the Bay was very strong. Rainfall on the 20th was almost entirely absent except in the hill districts of North Bengal.

In the Bay also the conditions throughout the week have remained practically unchanged. The strength of the monsoon winds blowing in the south and centre of the Bay has been very considerable, particularly towards the close of the week. The winds, however, blowing along the greater part of the Madras coast and also at the stations in Burma have been in all cases unusually strongly westerly and at many stations due west, showing that the monsoon current was passing towards Burma instead of towards the head of the Bay. In addition to this, at Akyab almost throughout the week wind has been more or less easterly. This, taken in connection with the wind directions on the Pegu coast, would point to the existence of a slight whirl or cyclonic circulation of winds over the sea area off the Arakan and West Pegu coasts, which would naturally sweep the monsoon current travelling up the east coast of the Bay towards Burma and to the east of Assam. Almost precisely similar conditions to these existed in June 1888, when also the setting in of the rains was unduly delayed until almost the close of the month. In that year the rains only set in over Bengal when the small whirl off the Burma coast advanced in a northerly direction into South Bengal on about June 27th or 28th.

Pressure.—The mean pressure for the week has been above the normal in all districts, but by rather variable amounts. The average excess has been about 0·03″, but while at Gopalpore there has been an excess of 0·072,″ at Dinagepore there has been a defect of 0·018,″ and at Darjeeling one of 0·040″. Generally the excess pressures have been largest at the western and south-western stations, and smallest in the hills and along the foot of the hills to the north of the province.

Temperature.—The mean temperature for the whole week has been about 5° in excess of the normal in South Behar and South-West Bengal, about 3° above it in Orissa, and about 1° to 2° above it elsewhere, except in Assam, where there has been a defect of nearly 3°. Towards the close of the week the excess gradually grew larger, particularly at the western stations, where an excess in the mean temperature of about 10° was several times registered. The excess has in many instances been mainly confined to the day or maximum temperatures, and thus the day temperature at such a station as Dehree towards the close of the week was about 17° in excess of the normal of the day.

Rainfall.—North and South Behar, Chutia Nagpur, and Orissa have been practically rainless throughout the week. In South-West Bengal a few local showers have fallen in

all districts except the Midnapur, 24-Pergunnahs, Howrah, and Hooghly districts, but the only district receiving amounts worth recording has been Moorshedabad. In North Bengal an average fall of about one inch is recorded, or very little more than a fifth of the fall due during the week, and in this division the districts of Maldah and Dinagepur have received practically no rain at all. In East Bengal an average fall of about two inches is recorded, or about half the normal fall for the week, and hence Backergunge has received little or no rain. In Assam during the week. Silchar has received 0·13 inches, Sibsagar 1·88 inches, and Dhubri 1·36 inches of rain only.

The following table gives the summary of the temperature and rainfall data of each of the seven meteorological divisions of the province for the week ending Saturday, the 20th of June 1891 :—

The mean pressure, temperature, &c., are deduced from the traces of the Barograph and Thermograph.

The maximum and minimum temperatures are obtained from self-registering thermometers All the thermometers are verified, and the readings have been corrected to a standard constructed and verified at the Kew Observatory. They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground.

The barometer readings are corrected approximately to those of the standard, Newman's No. 86, formerly at the Surveyor-General's Office.

The hygrometric elements are obtained from Tables III, IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula.

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain-gauge is one foot above the ground.

o, overcast; d, drizzling rain.

MEMORANDUM.

Monthly statistics of deaths registered in forty-five districts of Bengal for the month of March 1891.

The total number of deaths registered during the month of March 1891 in the districts of Bengal amounted to 168,185, against 128,752 in March 1890, and an average of 112,715 in the corresponding months of the previous five years (1886—90). These figures represent an annual death-rate of 30·60, 23·40, and 20·52 per 1,000, respectively, of the aggregate population of those districts, which is 65,859,534. The death-rate of March 1891 is 10·08 higher than the mean rate of the corresponding months of the past five years 1886—90, and is also higher than the rate of the corresponding period of any of the past five years with which comparison is instituted, *vide* the figures below :—

	March 1886.	March 1887.	March 1888.	March 1889.	March 1890.	Monthly average of five years 1886—90.	March 1891.
Number of deaths	101,526	104,805	114,887	118,505	128,752	112,715	168,185
Ratio per mille per annum	18·48	19·08	20·86	20·64	23·40	20·52	30·60

The death-rate during March 1891, as will be seen from the following table, is also considerably higher than the previous months of the year :—

	Number of deaths.	*Ratio per mille.*
January 1891 ...	.. 143,492	... 26·04
February „ ...	... 137,553	... 24·96
March „ ...	... 168,185	... 30·60

Of the total deaths, 89,588 (ratio 32·88) were males and 78,597 (ratio 28·32) females. As usual, the registered results were, on the whole, greater among the male than among the female population. Relatively 116 males died to every 100 females, calculated on the proportion such mortality bears to the total male and female population.

The following table shows the highest proportions of deaths registered during the month of March 1891, arranged in order of sequence and compared with the mortality of the corresponding month of 1890 :—

Noakhali	38·16	36·24			

The figures of March 1891 show a distinct advance towards accuracy in death registration in the districts mentioned.

The total mortality during the month under review from the several registered death-causes is compared in the following table with the mortality from those causes in the corresponding month of 1890 and the average of the five years 1886—90 :—

	Ratio per *mille* during— March 1891.	March 1890.	Monthly average of five years 1886—90.
Cholera	4·80	2·64	2·16
Small-pox	·36	·36	·12
Fever	20·16	16·08	14·16
Diarrhœa and Dysentery	·72	·60	·60
Injury	·24	·24	·24
Other causes	4·08	3·12	2·88

Compared with the figures of both the past periods, there is a considerable increase in the mortality of March 1891 under the heads cholera and fever.

The total deaths from *cholera* numbered 26,773 (ratio 4·80 per 1,000 per annum), against 15,305 (ratio 2·76) in the preceding month. Proportionally to population, the greatest death-rate occurred in Rungpore 21· per mille per annum; next in Dinajpur 16·44, then in Julpaiguri 16·32, Purneah 14·16, Nuddea 12·48, Burdwan 11·04, 24-Pergunnahs 10·44, Bogra 10·32, Birbhum 8·88, Howrah 8·04, Tipperah 7·20, Bankura 7·08, Midnapore 6·60, Manbhum 6·24, Mymensing 6·, Hughli 5·28, Murshedabad 5·16, Dacca 5·04, Backer-

ranj 4·80, Jessore 4·56, Maldah 4·44, Faridpore and Balasore 3·96 each, Serampore and Khulna 3·84 each, Rajshahye 3, Cuttack 2·28, Noakhali 2·16, and Pubna and Poori 2·04 each. Only one district (Chumparun) was absolutely free of the disease.

The mortality from *small-pox* amounted to 2,507 (ratio ·36), against 1,538 (ratio ·24) in the month before. The highest death-rate, 5·04, occurred in Cuttack, next in Midnapore 2·88, and then in Chittagong 1·44. In five districts, *viz.* Birbhum, Rungpore, Pubna, Darjiling, and Maldah, the disease was conspicuous by its absence.

Fevers carried off 110,802 persons, and the deaths from *diarrhœa* and *dysentery* numbered 3,989, representing ratios of 20·16 and ·72 respectively per mille of population per annum, against 95,436 (ratio 17·28) and 3,611 (ratio ·60) respectively in the preceding month. All the districts returned deaths from both causes; but the greatest mortality-rates from fevers, proportionally to population, were recorded in Darjiling 38·28, Julpaiguri 38·16, Dinajpur 33·60, Noakhali 32·04, Rungpore 31·44, Manbhum 29·52, Hughli 28·56, Birbhum 27·96, Purneah 27·60, Jessore 26·40, Rajshahye 26·16, Burdwan and Serampore 25·56 each, and Midnapur 25·68. Howrah returned the highest death-rate from diarrhœa and dysentery 5·16, followed by Balasore 4·92.

Injury proved fatal in 1,384 instances (ratio ·24), against 962 (ratio ·12) in the previous month, and the deaths from *all other causes* not specified amounted to 22,730 (ratio 4·08), against 20·701 (ratio 3·72) in the preceding month. Poori returned the highest death-rate from the unspecified diseases coming under the head "Other causes," viz. 14·16 per 1,000, next Birbhum 12·12, then Backerganj 11·28.

The death-rates among the five principal *classes* of the community, which comprise the population of the Bengal Province, viz, Mahomedans, Hindus, Other classes, Christians, and Buddhists, arranged in order of occurrence from highest to lowest and compared with the mortality-rates among these classes in the corresponding month of 1890, are given in the following statement: —

	Ratio per *mille* during—	
	March 1891.	March 1890.
Mahomedans	31·08	23·52
Hindus	30·48	23·64
Other classes	27·72	15·60
Christians	25·68	17·28
Buddhists	25·08	17·76

With regard to *Age*, infants under one year of age, as usual, perished in the largest numbers, 204·48 per 1,000 of population per annum; next came old persons (60 years and upwards) with a death-rate of 80·76 per 1,000. The lowest death-rate occurred between the ages of 10 and under 15 years, 13·68 per 1,000.

Detailed information regarding the mortuary statistics of the forty-five districts of Bengal during the month under review will be found in the statement appended.

INCREASE.

Cotton piece-goods— Tons. 19

(1) European 19

This is due to the steamer service between Jiaguni and Calcutta being stopped for want of sufficient water in the Bhagirutty river.

Grains— 37

(1) Wheat 37

Exported from Azimgunj, due to demand at Calcutta.

(2) Rice 20

Due to greater despatches from Nalhati to Moorshedabad for crops being damaged by flood last year.

(4) Others 72

This increase is principally due to import of bujra seed for local demand.

Oil-seeds— 112

(1) Linseed 23

Due to greater demand at Calcutta.

(2) Mustard and rape 89

Due to greater import for local demand in Moorshedabad district.

Sugar— 27

(2) Undrained 27

Imported, due to greater demand.

DECREASE.

Coal 19

Previous stock not being exhausted.

Jute— 106

(1) Raw 106

Due to less despatches owing to dull market at Calcutta.

Railway plant and rolling-stock 89

Due to less materials carried for renewals during the month.

Salt 16

Due to previous stock not being exhausted.
